

**OPENING SHANDONG
FOR WIN-WIN
COOPERATION**

开放山东 合作共赢

2017年山东省重点对外合作项目目录

一、特色产业园区（18个）

- 1、济南中央商务区
- 2、山东济南国际医学中心（JIMC）
- 3、潍坊生物医药科技产业园
- 4、威海（荣成）海洋高新技术产业园
- 5、潍坊光电产业园
- 6、济南新材料产业园区中德（济南）产业园
- 7、邹城工业园区
- 8、山东省海阳核电装备制造工业园区
- 9、威海南海新区高端装备制造产业园
- 10、青岛崂山虚拟现实产业园
- 11、科创慧谷（青岛）科技园
- 12、威海市服务贸易产业园（威海市东方智慧谷）
- 13、台儿庄古城非物质文化遗产博览园
- 14、山东测绘地理信息产业园
- 15、淄博高新区先进陶瓷创新园
- 16、中美清洁能源合作产业园
- 17、青岛欧亚经贸合作产业园
- 18、威海市中韩健康养老产业园

Contents of Key Foreign Cooperation Projects of Shandong Province '2017

I. CHARACTERISTIC INDUSTRIAL PARK (18)

1. Jinan Central Business District
2. Jinan International Medical Center, Shandong (JIMC)
3. Weifang Biomedical Industry Park
4. Weihai Rongcheng marine high-tech industrial park
5. Weifang Photoelectric Industrial Park
6. Sino-German Industrial Zone (Jinan) of Ji'nan New Material Industrial Park
7. Shandong Zoucheng Industrial Park
8. Haiyang Nuclear Power Equipment Manufacturing Industrial Park, Shandong
9. Nantai New District High-End Equipment Manufacturing Industrial Park, Weihai
10. Virtual Reality Industrial Park, Laoshan District, Qingdao
11. T-Park (Qingdao) Science and Technology Park
12. Weihai Service Trade Industrial Park (Weihai Oriental Wisdom Valley)
13. Taierzhuang City Intangible Culture Expo Park
14. Shandong Mapping Geographic Information Industrial Park
15. Advanced Ceramic Innovation Park, Zibo Hi-Tech Zone
16. China-U.S. Clean Energy Cooperation Area
17. Qingdao Eurasian Economic and Trade Cooperation Industrial Park
18. Weihai Sino-Korea Health Care and Pension Industrial Park

二、高技术产业和高端制造（19个）

- 19、邹城经济开发区智能机器人研发生产项目
- 20、磐石容器集团有限公司重型装备制造项目
- 21、山东明航智能物流装备股份有限公司高端装备运输车项目
- 22、山东昊安金科新材料有限公司高端装备制造项目
- 23、高唐绿荫环保科技有限公司秸秆综合利用装备制造项目
- 24、阿特斯阳光电力集团光伏组件及太阳能电池片生产项目
- 25、山东新升光电科技有限责任公司工业蓝宝石项目
- 26、山东远瑞金属材料有限公司电力电子新材料项目
- 27、山东飞源科技有限公司电子产品新材料扩建及六氟化钨生产项目
- 28、山东中机模具有限公司汽车内饰复合材料研发生产项目
- 29、山东新华制药股份有限公司现代医药国际合作中心项目
- 30、鲁抗生物医药循环经济产业园高端原料药生产项目
- 31、东营瑞达生物科技有限公司乳免疫蛋白精深加工项目
- 32、淄博国利新电源科技有限公司镍氢动力电池建设项目
- 33、郓城利特新能源科技有限公司动力电池和电容器项目
- 34、威海拓展纤维有限公司碳纤维产业园项目
- 35、山东万泰创业投资有限公司高档面料及系列服装项目
- 36、山东坤钰新材料有限公司碳纤维复合材料生产项目

II. HIGH-TECH INDUSTRIES AND HIGH-END MANUFACTURING (19)

19. Intelligent Robot R&D and Production Project, Zoucheng Economic Development Zone
20. Panshi Heavy Equipment Project of Panshi Container Group Co., Ltd.
21. High-end equipment transport vehicle project of Shandong Minghang Intelligent Logistics Equipment Co., Ltd.
22. Gaotang Greenery Environmental Protection Technology Co., Ltd. Straw Comprehensive Utilization Equipment Manufacturing Project
23. Shandong Hao'an Goldtech New Materials Co., Ltd. Upscale Equipment Manufacturing Project
24. Canadian Solar PV Modules and Solar Cells Production Project
25. Shandong Xinsheng Photoelectric Technology Co., Ltd. Industrial Sapphire Project
26. Shandong Yuanrui Metal Material Co., Ltd. New Power Electronics Materials Project
27. Shandong Feiyuan Technology Co., Ltd. New Electronic Material Extension and Tungsten Hexafluoride Production Project
28. Shandong Zhongji Mould Co., Ltd. Auto-interior Decorative Composite R&D and Production Project
29. Shandong Xinhua Pharmaceutical Co., Ltd. Modern International Medical Cooperation Center Project
30. Shandong Lukang Pharmaceutical Co., Ltd. High-end Crude Drug Manufacturing Project
31. Dongying Ruida Biological Technology Co., Ltd. Milk Immune Proteins Deep-processing Project
32. Zibo Guoli New Power Source Technology Co., Ltd. NI-MH Power Battery Construction Project
33. Yuncheng Lite New Energy Technology Co., Ltd. Power Battery and Capacitor Project
34. Weihai Tuozhan Fiber Co., Ltd. Carbon Fiber Industrial Park Project
35. Shandong Wantai Enterprise & Investment Co., Ltd. Upscale Fabric and Clothing Project
36. Shandong Kunyu New Materials Co., Ltd. Carbon Fiber Composite Manufacturing Project

37、东营港经济开发区聚酯纤维 PET 项目

三、现代服务业和社会事业（17 个）

38、国泰租赁有限公司战略投资引进项目

39、青岛国信集团海洋产业母基金项目

40、山东省投资有限公司美元矿业价值投资基金项目

41、山东跨境电商总部产业园项目

42、“智慧阳信”城市建设项目

43、青岛智能停车一体化平台项目

44、山东呼叫中心基地项目

45、枣庄市峄城区冠世榴园生态文化旅游综合开发项目

46、曲阜文化国际慢城项目

47、山东高速潍坊港临港物流产业园项目

48、山东济铁菏泽铁路物流中心项目

49、利津经济开发区铁路物流园项目

50、山东高速西海岸智慧物流产业园项目

51、黄河三角洲（阳信）公铁联运现代物流中心项目

52、新华锦延世大学青岛医疗院项目

53、菏泽德智国际医养园项目

54、山东海洋科技大学（潍坊）公共实训基地项目

37. Dongying Port Economic Development Zone Polyester Fiber PET Project

III. MODERN SERVICE INDUSTRY AND SOCIAL UNDERTAKING (17)

38. Guotai Leasing Limited Company Strategic Investment Introduction Program

39. Qingdao Conson Development Group Marine Industry Fund of Funds Project

40. Shandong Investment Co., Ltd. U.S. Dollar Mining Value Investment Fund Project

41. Shandong Cross-border E-commerce Headquarters Industrial Park Project

42. “Smart Yangxin” City Construction Project

43. Qingdao Intelligent Parking Integration Platform Project

44. Shandong Contact Center Base project

45. Comprehensive Development project for Eco-culture Tourism of the “World Crown
Liuyuan” in Yicheng District of Zaozhuang City

46. Qufu International Cultural Slow City Project

47. Port-vicinity Logistics Industry Park project in Shandong Hi-speed Weifang Port

48. Heze Railway Logistics Center project

49. Railway Logistics Park project in the Lijin Economic Development Zone

50. Shandong Hi-speed West Coast Intelligent Logistics Industry Park project

51. Yellow River Delta (Yangxin) Highway-railway Modern Logistics Center project

52. Hiking & Yonsei University Qingdao Medical Center

53. Heze Dezhi International Healthcare Park project

54. Ocean Science University of Shandong (Weifang) Public Practice Training Base
project

四、现代农业和食品加工业（11 个）

- 55、青岛国信集团海洋牧场项目
- 56、荣成市沙窝岛国家远洋渔业基地项目
- 57、乳山华信食品有限公司海产品养殖及精深加工项目
- 58、黄三角绿色高效牛业融合发展示范园项目
- 59、邹城市肉鸭、食用菌、林果产业化项目
- 60、菏泽芦笋资源综合利用产业化项目
- 61、山东凤祥冻品熟食加工项目
- 62、山东盛泰生物科技有限公司膳食纤维及甜味剂项目
- 63、山东信莱大豆生物科技产业园项目
- 64、山东伯乐生物科技股份有限公司蛋白纤维生产项目
- 65、青州市盛景花卉小镇项目

五、基础设施和 PPP 项目（7 个）

- 66、鲁南高铁项目
- 67、济青高铁项目
- 68、山东高速潍坊港泊位工程项目
- 69、黄河三角洲农业高新区通用机场项目
- 70、胶州洋河通用航空机场项目
- 71、安丘市城区路桥工程
- 72、威海城市基础设施工程包项目

IV. MODERN AGRICULTURE AND FOOD PROCESSING INDUSTRY (11)

- 55. Marine Ranching project of the Qingdao Conson Development (Group)
- 56. National Distant Water Fishery Base project in Shawo Island of Rongcheng city
- 57. Seafood Cultivation and Fine and Intensive Processing project by the Rushan Huaxin Food Co., Ltd
- 58. Green and Efficient Cattle Integration Development Demonstration Park project in Yellow River Delta
- 59. Meat duck, edible mushroom and forest-fruit industrialized project in Zoucheng
- 60. Heze Asparagus Resource Comprehensive Utilization Industrialization project
- 61. Frozen Cooked Food Processing project by the Shandong Fengxiang Food Co., Ltd
- 62. Dietary Fiber and Sweetening Agent by the Shandong Sehngtai Bio-technology Co., Ltd
- 63. Shandong Xinlai Soybean Biotechnology Industry Park project
- 64. Protein fibre manufacturing project by the Shandong Bole Biotechnology Co., Ltd
- 65. Qingzhou Shengjing Flowers and Plants Town project

V. INFRASTRUCTURE AND PPP PROJECT (7)

- 66. Lunan High-speed Rail project
- 67. Jinan-Qingdao High-speed Railway project
- 68. Berth Engineering on Weifang Port of Shandong Hi-speed Rail project
- 69. General Airport project for Agriculture High-tech Zone in Yellow River Delta by the Shandong Xin Cube Group
- 70. General Airport project in Yanghe Town of Jiaozhou
- 71. Road & Bridge Engineering project in urban An'qiu
- 72. Urban Infrastructure Engineering package project in Weihai

六、节能环保和绿色发展（7个）

- 73、山东省盐业集团海水淡化及浓海水综合利用项目
- 74、山东泉林嘉有肥料有限责任公司黄腐酸有机肥产业融合项目
- 75、山东风动能电力科技有限公司风力发电项目
- 76、招新能源投资（上海）有限公司光伏发电项目
- 77、潍坊昌邑市生活垃圾焚烧发电工程项目
- 78、菏泽华星生物电力有限公司秸秆发电厂项目
- 79、山东里阳环保能源科技有限公司废旧轮胎资源化综合利用项目

七、境外投资合作（9个）

- 80、昌邑市康洁环卫工程有限公司海外垃圾收集及道路清扫保洁项目
- 81、威海国际经济技术合作股份有限公司赤道几内亚马拉博国际机场工程承包建设项目
- 82、山东铁临物流有限公司海外投资项目
- 83、巴基斯坦瓜达尔自由区中国临沂商城项目
- 84、苏丹新纪元农业发展有限公司农业产业园区项目
- 85、青岛印尼综合产业园
- 86、中柬（青岛）特别经济区
- 87、柬埔寨山东桑莎（柴桢）经济特区
- 88、中阿（富吉拉）商贸物流园区

八、开发区（12个）

- 89、青岛国家高新技术产业开发区
- 90、烟台高新技术产业开发区
- 91、黄河三角洲现代农业高新技术产业示范区
- 92、胶东临空经济示范区胶东空港综合保税区
- 93、山东东营综合保税区

VI. ENERGY SAVING, ENVIRONMENTAL PROTECTION AND GREEN DEVELOPMENT (7)

73. Seawater desalination and concentrated brine comprehensive utilization of Shandong Province Salt Industry Group
74. Fulvic acid organic fertilizer industry integration project of Shandong Quanlin Jiayou Fertilizer Co., Ltd.
75. The vertical axis wind power generation project of Shandong Pneumatic Power Technology Co., Ltd.
76. Fishing light complementary photovoltaic power generation project of Zhaoxin Energy Investment (Shanghai) Co.,
77. Sewage incineration generation engineering project of Changyi, Weifang
78. Straw power plant project of Heze Huaxing Biological Power Co., Ltd.
79. Waste tire recycling comprehensive utilization project of Shandong Liyang Environmental Protection Energy Technology Co., Ltd.

VII. OVERSEAS INVESTMENT AND COOPERATION (9))

80. Overseas rubbish collection and road sweeping & cleaning project of Changyi Kangjie Environmental Sanitation Engineering Co., Ltd.
81. Contracting and construction project of Malabo international airport in Guinea, equator of Weihai International Economic & Technical Cooperative Co., Ltd.
82. Overseas investment project of Shandong Tielin Logistics Co., Ltd.
83. “China Linyi Trade City” project in Pakestan`s Gwadar free zone
84. Agricultural industrialized park project of Sudan New Epoch Agricultrual Development Co., Ltd.
85. Qingdao-Indonesia Comprehensive Industrial Park
86. China-Cambodia (Qingdao) Special Economic Zone
87. Cambodia-Shandong Sunshell (Svay Rieng) Special Economic Zone
88. China-UAE (Fujairah) Trade Logistics Park

VIII. DEVELOPMENT ZONES (12)

89. Qingdao National Hi-tech Industrial Development Zone
90. Yantai Hi- tech Industrial Development Zone
91. The Yellow River Delta Modern Agricultural Hi-tech Industrial Demonstration Zone
92. Jiaodong Airport Comprehensive Free Trade Zone of Qingdao Jiaodong Airport Economic Demonstration Zone
93. Shandong Dongying Comprehensive Free Trade Zone

- 94、山东周村经济开发区
- 95、山东临淄经济开发区
- 96、山东诸城经济开发区
- 97、山东潍坊经济开发区
- 98、山东新泰经济开发区
- 99、山东沂水经济开发区
- 100、山东东阿经济开发区

94. Shandong Zhoucun Economic Development Zone
95. Shandong Linzi Economic Development Zone
96. Shandong Zhucheng Economic Development Zone
97. Shandong Weifang Economic Development Zone
98. Shandong Xintai Economic Development Zone
99. Shandong Yishui Economic Development Zone
100. Shandong Dong`e Economic Development Zone

CHARACTERISTIC INDUSTRIAL PARK

特色产业园区 01

NO.1

一、园区名称

济南中央商务区

二、园区概况

济南中央商务区规划范围为北至工业南路、南至经十路、西至洪山路、东至奥体西路，总面积约 3.2 平方公里。中央商务区的建设初步确定为“一轴、一心、三区”开发格局。发展定位为金融机构主聚集、省级总部企业主营业、高端服务业主发展区。目前，中央商务区及泛商务区内已入驻重点企业近 450 家，总部带领效应进一步显现。

三、园区投资环境

中央商务区及泛商务区内共 11 处载体已初步建成，其中商务区内有 3 处已明确了招商重点，主要引进金融机构、企业总部、科研中心、各类事务所、高档酒店、高端商业等。区域配套设施完善，相关优惠政策正在制订中。

四、项目内容

中央商务区发展重点为打造“两核一芯一辅”产业组合，“两核”以总部经济和金融+为产业核心，“一芯”以金融产业为动力，吸引高估值、轻资产的平台型领军创智企业，逐渐形成“创新、创业、创意”三创融合发展的示范区，“一辅”以发展现代商务服务业为服务助推。当前招商侧重于总部企业及金融相关企业等轻资产企业的入园。

NO.1

I. Name of the project

Ji'nan Central Business District

II. Introduction of the project unit

Planning area for Ji'nan Central Business District covers the district with the north to the Gongye South Road, the south to the Jingshi Road, the west to Hongshan Road, and the east to Olympic West Road, which is an area of 3.2 square kilometers. The construction of the Central Business District was initially identified as the development pattern of "one axis, one center and three zones", while the development orientation is the main gathering area of financial institutions, the main business area of provincial headquarters and the main development area of high-end service industry. Currently, the Central Business District, along with its around business district has attracted nearly 450 key enterprises for settlement, and the leading effect of the headquarters has been further presented.

III. Investment environment

In the Central Business District, along with its around business district, 11 establishment carriers have been initially completed in construction, among which 3 carriers in the CBD have clarified their investment focus, which is the introduction of Financial institutions, corporate headquarters, research centers, various types of offices, luxury hotels, high-end business, etc. With perfect facilities in the district, relevant preferential policies are being developed.

IV. Project content

The development focus of the CBD is the establishment of the industrial combination of "2 cores, 1 intelligence and 1 auxiliary". Herein, "2 cores" indicate the industrial cores of headquarter economy and Financial+; "1 innovation" is, taking financial industry as the driving force, to attract the leading intelligent and innovative enterprises of high valuation, light assets and good platform in order to gradually form the fusion development demonstration area of "innovation, entrepreneurship and creativity"; "1 auxiliary" takes the development of modern business services as the support and promotion. The current investment focus is the the admission of headquarters of enterprises and financial related enterprises and other enterprises of light assets.

V. Way of cooperation

Joint investment and cooperation

NO.2

一、园区名称

山东济南国际医学中心 (JIMC)

二、园区概况

项目位于济南市槐荫区，北至黄河与北绕城高速，南至槐荫与市中边界线，西至津浦铁路与济南西编组站，东至京台高速与腊山河西路，总规划面积约 35 平方公里。规划范围内共涉及村庄 43 个，约 8500 户，约 33500 人。

三、园区投资环境

园区正在进行村庄整合、土地整理、道路建设等基础设施建设。已完成 400 亩产业储备用地与 470 亩安置保障用地征收，以及市政道路一期工程建设，为园区发展提供了基础保证。

四、项目内容

1、发展目标：以精准医学和普惠中医为特色，集预防、养生、保健、治疗、康复为一体的国际中西医融合创新先行区。

2、产业功能：集医学教学、护理保健、康复疗养、教育科研、学术交流等功能于一体，以此为基础逐渐培育医疗健康产业及配套服务，打造具有资源和要素配置能力的国际诊疗中心，构建健康产业体系。

3、功能分区：分为国际诊疗区、康复疗养区和智能制造区。

NO.2

I. Name of the project

Jinan International Medical Center, Shandong (JIMC)

II. Introduction of the project unit

The project is located in Huaiyin District of Ji'nan City, north to the Yellow River and North Ring Expressway, south to the Huaiyin and Shizhong District boundary, west to Jin-Pu Railway and west Jinan railway marshalling station, east to Jing-Tai Expressway and Lashan River West Road, with the total planning area of about 35 square kilometers. Planning area involves a total of 43 villages, about 8500 households, and 33500 people.

III. Investment environment

The park is carrying out the infrastructure construction including the integration of villages, land consolidation and road construction. A series of works has been completed including the collection of 400 acres of industrial land reserve and 470 acres of resettlement, and the municipal road project construction of 1st stage, which provide the park development with the fundamental guarantee.

IV. Project content

1. Development goal: With the characteristics of precision medicine and Beneficial traditional Chinese medicine, it is to establish a international leading and innovative area of the fusion of traditional Chinese and western medicine with the integration of prevention, nourishing, health care, treatment and rehabilitation.

2. Industrial functions: it integrates the functions of medical teaching, nursing, rehabilitation, education, scientific research and academic exchanges, based on which health care industry and supporting services shall be gradually fostered, an international center for diagnosis and treatment with the capability of resources and elements distribution shall be established, and the health industry system shall be constructed.

3. Functional zoning: it shall be divided into international clinical area, rehabilitation area and intelligent manufacturing area.

V. Way of cooperation

Joint investment

VI. Contact information

Postal code: 250000

NO.3

一、园区名称

潍坊生物医药科技产业园

二、园区概况

潍坊生物医药科技产业园自 2006 年开始建设，是山东省重点建设的国家创新药物孵化基地。主导产业是生物医药产业，重点以生物医药、现代中药、化学药品、海洋药物、医疗器械及相关领域为发展方向。目前累计引进企业 178 家，2016 年 1-10 月份生物医药规模工业企业主营业务收入 63.6 亿元，同比增长 2.8%，利税 3.83 亿元，同比增长 8.9%。

三、园区投资环境

园区总规划占地面积 3000 亩，由研发孵化区、成果转化加速区和产业化区组成。研发孵化区占地面积约 330 亩，主要建设国际一流的公共技术服务平台、生物医药中试平台、生物医药专业孵化器、专家公寓和企业研发中心集群，配套蒸汽、纯水、污水处理、餐饮、娱乐等设施。成果转化占地面积约 2670 亩，主要建有标准的孵化单元实验室、办公写字单元，配套有信息网络中心、培训中心等服务设施，为企业进行项目的研发、孵化提供专业化和配套完善的服务。园区聚集了山东沃华医药、山东华辰生物等一批产业领军企业和国家千人计划、泰山学者等各类高层次创新创业人才二百余人，园区内企业间合作氛围浓厚，发展潜力巨大。

四、项目内容

重点引进现代中药、海洋生物、生物农药、生物诊疗、医疗器械等相关领域的研发及产业化企业。

五、合作方式

合资、合作

NO.3

I. Name of the project

Weifang Biomedical Industry Park

II. Introduction of the project unit

Weifang Biomedical Science and Technology Industrial Park, since the beginning of construction in 2006, is the significant national innovation drug incubation base constructed by Shandong Province. Its leading industry is the biomedical industry, focusing on bio-medicine, modern Chinese medicine, chemicals, marine drugs, medical devices and related fields as the development direction. At present, a total of 178 companies have been introduced in. The main business income of sized biomedical industrial enterprises in the period of January to October in 2016 is 6.36 billion yuan, indicating an increase of 2.8% on year-on-year basis; the profit and tax is 383 million, indicating an increase of 8.9% on year-on-year basis.

III. Investment environment

The park covers a total area of 3000 acres, which is composed of R&D incubation zone, achievement transformation acceleration zone and industrialization zone. R&D incubation zone covers an area of about 330 acres, focusing on the construction of international first-class public technology service platform, biomedical pilot platform, biomedical professional incubator, expert apartments and enterprise R&D center cluster, with the supporting facilities of steam, pure water, sewage treatment, catering, entertainment and others. Achievement transformation acceleration zone covers an area of about 2670 acres, focusing on the construction of standard incubator unit laboratory and office units, with the supporting service facilities of information network center, training center and others, which is to provide professional and complete services for the project development and incubation of enterprises. The Park has gathered Shandong Wohua Pharmaceuticals, Shandong Huachen Biological Technology and a number of industry leading enterprises and more than 200 high-level innovative and entrepreneurial talents, among whom experts of “Thousand Talents Project” and Taishan scholars can be found. The Park enjoys a strong atmosphere of cooperation among enterprises, and the development potential of it is huge.

IV. Project content

It focuses on the introduction of R&D enterprises and industrialization enterprises in fields of modern Chinese medicine, marine biology, biological pesticides, biological diagnosis and treatment, medical equipment and other related fields.

V. Way of cooperation

Joint investment and cooperation

VI. Contact information

NO.4

一、园区名称

威海（荣成）海洋高新技术产业园

二、园区概况

威海（荣成）海洋高新技术产业园区位于石岛管理区与人和镇交界处，规划总面积 37 平方公里，其中陆地 17 平方公里、海上面积 20 平方公里。2014 年，园区获批山东省级农业高新技术产业示范区，2015 年被科技部认定为国家级农业科技园区。

三、园区投资环境

园区已完成基础设施投入 15 亿元，规划了海洋生物科创园，新建了海洋高新技术孵化中心，成立了慧谷科技企业孵化器和山东慧谷高新技术交易公司。

四、项目内容

园区规划建设海洋科技创新孵化、会展交易、海洋生物医药、海洋生物制品、临港服务和海洋生态养殖六大功能区，打造山东首家海洋农业高新技术产业聚集区。已引进海洋生物医药、功能性食品、生物肽提取等项目 50 多个，总投资 80 多亿元。

NO.4

I. Name of the project

Weihai Rongcheng marine high-tech industrial park

II. Introduction of the project unit

Weihai Rongcheng marine high-tech industrial park, located at the boundary of Shidao management area and Renhe Town, covers a planning area of 37 square kilometers, in which 17 square kilometers are on the land while 20 in the sea. In 2014, the Park has been approved as the Shandong provincial agricultural high-tech industry demonstration zone, and has been identified by the Ministry of Science and Technology as a national agricultural science and technology park in 2015.

III. Investment environment

The Park has completed an 1.5-billion-yuan investment in infrastructure. Marine Biological Science and Innovation Park has been in plan, Marine Hi-Tech Incubation Center has been newly constructed and T-Park technology business incubator and Shandong T-Park Hi-Tech Trade Co., Ltd. has been established.

IV. Project content

6 functional zones are in plan of the Park including marine science and technology innovation incubator, exhibition and trade, marine biomedicine, marine biological products, port services and marine ecological breeding, in order to build Shandong's first marine agricultural high-tech industry gathering area. The Park has introduced more than 50 projects including marine biomedicine, functional food and biological peptide extraction, with a Total investment of more than 8 billion yuan.

V. Way of cooperation

Joint investment and cooperation

NO.5

一、园区名称

潍坊光电产业园

二、园区概况

潍坊光电产业园是以光电子、电声产业为主的科技企业研发生产基地，规划占地4551亩，投资200亿元。2011年获批国家创新型半导体发光产业集群试点，2013年，被科技部列为重点扶持的10家产业集群之一。2015年，园区声光电子产业主营业务收入220亿元，利税30亿元。现有企业150余家。

三、园区投资环境

拥有1个国家级孵化器、1个省级孵化器、3个光电产业加速器、2家国家级实验室、2家博士后工作站和3家院士工作站。以浪潮华光、中微微电子、元旭光电、歌尔光电、贞明半导体等骨干企业为代表，形成了“衬底—外延片—芯片制备—器件封装—应用系统”等完整产业链，以歌尔声学、楼氏电子、怡通电子、三田科技等骨干企业为代表，形成了“电声器件—集成模块—终端产品—生产设备定制—声学整体解决方案”的完整产业链，成为全国最大、国际知名的电声产业集群。建设有国家电声及固体照明产品质量监督检验中心、山东省3D打印暨先进制造创新服务平台、山东省工业设计创新服务平台等科技服务平台。

四、项目内容

园区培育壮大产业集群规模，以创新链关键技术、产业链关键产品为核心，促进集群链条完善、规模扩张。一方面，围绕衬底、外延片生长、芯片设计、集成电路等半导体产业链核心环节，重点引进高层次人才、高端创新创业团队，引进项目注重对现有半导体发光产业的补链功能。另一方面，利用歌尔声学龙头带动作用，进行有针对性的配套项目招商，完善电声产业链，壮大园区电声产业实力。

NO.5

I. Name of the project

Weifang Photoelectric Industrial Park

II. Introduction of the project unit

Weifang Photoelectric Industrial Park is a scientific and technological enterprise R&D and production base, mainly based on optoelectronics and electro acoustic industry, which covers an planning area of 4,551 acres and an investment of 20 billion yuan. It was approved as the National innovative semiconductor lighting industry cluster pilot in 2011, and was listed in 10 major support industry clusters by Ministry of Science and Technology in 2013. The main business income of acoustic, optical and electronic industry of the Park came to 22 billion yuan in 2015, its profit and tax being 3 billion yuan. By now, the number of enterprises in the Park has come to more than 150.

III. Investment environment

The Park has 1 national incubator, 1 provincial incubator, 3 optoelectronics industry accelerators, 2 national laboratories, 2 postdoctoral workstations and 3 academician workstations. With Inspur Huaguang Optoelectronics Co., Ltd., AOD Optoelectronics Co., Ltd., NovoShine Co., Ltd., Goer Light Co., Ltd., Zhenming Optotech Co., Ltd. and other key enterprises being the representatives, the Park has formed a complete industrial chain of “substrate - epitaxial wafer - chip fabrication - device packaging - application system”. With Goer Acoustics Co., Ltd., Knowles Co., Ltd., Yitong Electronic Co., Ltd., Santian Tek Co., Ltd., and other key enterprises being the representatives, the Park has formed a complete industrial chain of “electroacoustic device - integrated module - end product - production equipment customization - acoustic total solution”. It has become the nation's largest, internationally renowned electroacoustic industry cluster. National center for quality supervision and testing of electroacoustic and solid lighting products, Shandong 3D printing and advanced manufacturing innovation service platform, Shandong industrial design innovation service platform and other technological service platforms have been established in the Park.

IV. Project content

The Park works on cultivating and expanding the scale of industrial cluster, and taking key technologies of innovation chain and the key products of the industrial chain as the cores to promote the completion of the industrial chain and the expansion of scale. On the one hand, focusing on the core processes of semiconductor industry chain, such as substrate, epitaxial wafer production, chip design, integrated circuit and others, it emphasized on the introduction of high level talents and high-end innovation and entrepreneurial teams, and the focused on the function of industrial chain supplementation to the current semiconductor lighting industry in the introduction of projects. On the other hand, taking advantage of the leading effect of Goer Acoustics Co., Ltd., it carried out the targeted supporting project investment to complete the electroacoustic industry chain and to strengthen the capability of electroacoustic industry in the Park.

V. Way of cooperation

Joint investment and cooperation

NO.6

一、园区名称

济南新材料产业园区中德（济南）产业园

二、园区概况

中德（济南）产业园项目由济南新材料产业园区与德国巴伐利亚化学产业集群有限公司合作建设，以德国中小科技型新材料企业和其他优质产业项目为引进主体，按照德国模式、风格和企业需求建设。项目规划占地面积 1000 亩，其中一期占地 160 亩，建筑面积约 10 万平方米。按照双方约定，该产业园由德国巴伐利亚州化学产业集群负责产业规划、设计和招商引资，济南新材料产业园区负责工程建设，双方共同负责运营管理。

三、园区投资环境

基础服务设施：累计投资 17 亿元，建成供电、供水、天然气、供热、铁路专线、排污、一级标准消防站等重大基础设施。

科研服务配套：与山大国家胶体研究中心、山东大学材料学院、山东师范大学工程研究中心等高校、科研院所合作，建立产学研联盟。

平台服务配套：建设以产业为中心，集研发、生产、办公、经营、生活于一体的产业新城。园区现有鑫茂齐鲁科技城、济南新材料产业科技园、济南新材料交易中心、传化泉胜智能公路港等发展平台，为高新技术企业提供优越的硬件环境。

生活服务配套：建设工作、商务、居住、生活、娱乐“一刻钟步行低碳圈”，为入园企业提供宜居、宜商、宜工、宜研的良好生活环境。

四、项目内容

中德（济南）产业园以德国中小科技型新材料企业和其他优质产业项目为引进主体，发展目标是：建立一个以德国企业为主、辐射欧洲的对外招商平台，以巴伐利亚州化学产业集群为主、关联其他 18 个德国产业集群的产业发展平台，以中小型高新技术企业为主、孵化或吸引大企业进入的企业发展平台。

NO.6

I. Name of the project

Sino-German Industrial Zone (Jinan) of Ji'nan New Material Industrial Park

II. Introduction of the project unit

Sino-German Industrial Zone (Jinan) is co-constructed by Ji'nan New Material Industrial Park and Bavaria Chemical Industry Group Co., Ltd. of Germany, taking small and medium sized scientific and technological new material enterprises from Germany and other qualified industrial projects as the major in introduction. It has been constructed in accordance with German model, style and business needs. The planning area of the project is 1,000 acres. Herein, the 1st stage of the project covers 160 acres, with a construction area of about 100 thousand square meters. In accordance with the agreement of the two parties, Bavaria Chemical Industry Group Co., Ltd. of Germany shall be responsible for industrial planning, design and investment of the industrial zone while Ji'nan New Material Industrial Park shall be responsible for project construction. Both sides shall be responsible for operation and management.

III. Investment environment

Basic service facilities: with the cumulative investment of 1.7 billion yuan, it has established major infrastructure including power supply, water supply, natural gas, heat supply, railway special line, sewage, first class standard fire station, etc.

Scientific research service facilities: in cooperation with universities and research institutes including SDU National Research Center for Colloid, School of Materials Science and Engineering of Shandong University, Engineering Research Center of Shandong Normal University and others to form the Industry-University-Research Alliance.

Platform service facilities: it has established the new industrial city with the industry as the center and with the integration of research and development, production, office, business and living. Development platforms including Xin Mao Qilu Science and Technology City, Ji'nan New Material Industrial Technology Park, Ji'nan New Material Trade Center, Transfar Quansheng intelligent highway port and others have been introduced into the Park, which can provide superior hardware environment for high tech enterprises.

Life service facilities: it has established the “one-quarter walk low carbon circle” with the integration of work, business, residence, living and entertainment, which can provide a suitable living environment for the enterprises in the park, being suitable for living, business, labor and study.

IV. Project content

Sino-German Industrial Zone (Jinan), taking small and medium sized scientific and technological new material enterprises and other qualified industrial projects as the major in introduction, has the development goal of: establishment of a foreign investment platform with German enterprises as the main and radiation in Europe, establishment of an industrial development platform taking Bavaria Chemical Industry Group Co., Ltd. as the main in relation with the other 18 German industrial clusters, and establishment of an enterprise development platform taking small and medium sized hi-tech enterprises as the main with the incubation or the introduction of large enterprises.

NO.7

一、园区名称

山东邹城工业园区

二、园区概况

邹城工业园区始建于2003年，2006年省委、省政府批准为省级开发区邹城工业园区，辖国家级重点镇太平镇，区镇总面积130.6平方公里，社会总人口13.2万人；园区规划面积23平方公里，入园规模以上工业企业59家。2015年完成地方财政收入6.08亿元。

三、园区投资环境

邹城工业园区全面营造规范透明的政务环境、依法有序的法治环境、和谐稳定的社会环境、公平诚信的市场环境，为项目提供重要支撑；园区建设有完善的基础配套设施，将雨水、污水、热力、燃气等管网配套至项目所在地红线处；对有特殊要求的项目由园区配置供电双回路；并为企业提供土地、税收、规费、环保、科技创新等优惠政策。

四、项目内容

园区重点规划建设了四个百亿级产业园，一是以江苏沙钢集团控股的山东荣信煤化有限公司为龙头的鲁南化工产业园；二是以华鲁控股集团投资的华鲁生物产业园为龙头的生物制造产业园；三是以中材集团投资控股的山东泰山玻纤邹城有限公司为龙头的新材料产业园；四是以山东太阳宏河纸业股份有限公司为龙头新型造纸产业园。园区拟招引符合园区四大产业规划，与规划产业形成互补，完善上下游配套链条的企业。

NO.7

I. Name of the project

Shandong Zoucheng Industrial Park

II. Introduction of the project unit

Zoucheng Industrial Park was founded in 2003, and was approved as Zoucheng Industrial Park District which is a Provincial Development Zone, in which Taiping Town, a national key town, has been involved. The total area of the Park and the town is 130.6 square kilometers, with a population of 132 thousand in society. The Park covers a planning area of 23 square kilometers, with 59 industrial enterprises above designated size being introduced in. In 2105, a local financial income of 608 million yuan has been achieved.

III. Investment environment

Zoucheng Industrial Park comprehensively creates a normative and transparent government affairs environment, a law-ruled and well-ordered legal environment, a harmonious and stable social environment, and a fair and honest market environment, to provide important support for the project. The Park has the complete infrastructure facilities constructed in it, with the rainwater, sewage, heat, gas and other pipe networks covering until the red line of the project location. For the special requirements of the project, double circuit can be provided by the park power supply. The park will also provide land, taxation, fees, environmental protection, science and technology innovation and other preferential policies for enterprises.

IV. Project content

The Park has emphasized on the plan and construction of 4 ten-billion-level industrial zones, which are: Lunan Chemical Industry Park, in which Shandong Rongxin Coal Chemical Co., Ltd., held by Jiangsu Shagang Group, plays the leading role; Bio Manufacturing Industrial Park, in which Hualu Bio Industrial Park, invested by Hualu Holdings, plays the leading role; New Material Industrial Park, in which Shandong Taishan Glass Fiber Zoucheng Co., Ltd., held and invested by Sinoma Group, plays the leading role; and New Paper Industry Park, in which Shandong Taiyang Honghe Paper Co., Ltd. plays the leading role. The Park plans to introduce the enterprises that are suitable for the industrial plan of the four zones, that are complementary with the planning industry and that can complete and perfect the upstream and downstream supporting chain.

一、园区名称

山东省海阳核电装备制造工业园区

二、园区概况

山东省海阳核电装备制造工业园区是以海阳核电站为依托的山东省首个核电装备制造工业园区。园区位处海阳市东南端，南临黄海，居于海阳核电站和海阳港之间的沿海区域，规划控制面积 80 平方公里。

三、园区投资环境

园区起步区 7.5 平方公里的基础设施建设正在加快推进，供水、供电已连接到位，两条 17.9 公里主干道、总长 15 公里的 6 条道路已建成通车。

四、项目内容

园区重点发展与核电相关的大型设备制造、核级相关配套设备制造、工程设计与管理、自主研发等项目以及大重工、大物流等临港经济，逐步打造集核电设计、研究、加工、制造、运营服务为一体的国内最重要的核电产业基地和全国知名的海洋装备制造业基地。

I. Name of the project

Haiyang Nuclear Power Equipment Manufacturing Industrial Park, Shandong

II. Introduction of the project unit

Haiyang Nuclear Power Equipment Manufacturing Industrial Park, Shandong, based on Haiyang Nuclear Power Plant, is the first nuclear power equipment manufacturing industrial park in Shandong Province. The Park is located in the southeast of Haiyang City, south by the Yellow Sea, which is a sea side zone in between Haiyang Nuclear Power Plant and Haiyang Port, with a planning controlling area of 80 square kilometers.

III. Investment environment

Infrastructure construction of the 1st stage of the Park, which covers an area of 7.5 square kilometers, is accelerating. Water and power supply have been completed, and two 17.9 km main road and 6 roads with a total length of 15 km have been completed and been opened to traffic.

IV. Project content

The Park focuses on the development of large-scale equipment manufacturing related to nuclear power, nuclear related equipment manufacturing, engineering design and management, independent R&D and other projects, and port economy including heavy industry and large logistics in order to gradually create the most significant nuclear power industry base in China and the national well-known marine equipment manufacturing base with the integration of nuclear power design, research, processing, manufacturing, operation and service.

一、园区名称

威海南海新区高端装备制造产业园

二、园区概况

园区重点发展高端海洋装备制造业、汽车及零部件等相关产业。2016年，全区生产总值达到87亿元，税收收入达到8.94亿元。园区现有企业107家，从业人数7518人。

三、园区投资环境

园区配套设施标准已完成“十通一平”，五纵四横主干路网基本形成，能源供应及通信等设施基本满足发展需求。对园区高新技术项目和大项目给予资金补助，对入园项目在前期手续办理、鼓励企业创新等方面提供优惠政策。目前区内的高端技术装备制造业主要集中在海洋工程装备、新能源汽车及汽车配件等领域。

四、项目内容

拟引进国内外拥有先进技术的高端海洋装备制造龙头企业，以带动区内相关产业发展。通过加强与国内外汽车集团战略合作，逐渐形成完整的汽车及零部件配套体系。

I. Name of the project

Nanhai New District High-End Equipment Manufacturing Industrial Park, Weihai

II. Introduction of the project unit

The Park focuses on the development of high-end marine equipment manufacturing, automobile and spare parts and other related industries. In 2016, the Gross Regional Product has reached 8.7 billion yuan while the tax revenue has reached 894 million yuan. The Park has 107 enterprises, employing a total of 7518 people.

III. Investment environment

The Park has already completed the facilities standards of “ten links and one leveling”. it has basically formed the pattern of main road distribution with five vertical and four horizontal roads. Energy supply and communications facilities can meet the basic needs of development. The Park is also to grant funds to the high-tech projects and large projects in the park, to provide preferential policies for the entry of the project in the early stages of processing, encouraging enterprises to innovate. At present, the advanced technology and equipment manufacturing focuses on marine engineering equipment, new energy vehicle, auto parts and other fields.

IV. Project content

The Park intends to introduce advanced domestic and foreign marine equipment manufacturing leading enterprises to promote the development of related industries in the Park. Through strengthening the cooperation with domestic and foreign automobile groups, the Park is to gradually form the complete vehicle and parts matching system.

一、园区名称

青岛崂山虚拟现实产业园

二、园区概况

青岛崂山虚拟现实产业园位于青岛市崂山区株洲路 169 号，规划用地面积 15738.7 平方米。由青岛巨峰科技创业投资有限公司投资建设，搭建创业孵化、园区运营、项目招商、产业投资等服务平台，打造一流的孵化空间及科技创业投资园区。

三、园区投资环境

园区分两期建设，其中，一期为六栋单体，每栋五层，D 栋配地下室、消防泵房及配电室，建筑面积 18227.27 平方米，已建设完成，处于装修阶段，分于 2017 年投入使用。二期正在设计方案阶段，规划建筑面积 28000 平方米，地上建筑面积 20000 平方米，地下建筑面积 8000 平方米。园区一期

四、项目内容

园区建成后，将重点引入以虚拟现实产业链为主的研发企业，提供开放式办公室、封闭式办公室、公共会议室等办公场地，录影棚、录音棚、路演大厅、产品展厅、多功能交流区等活动场地，餐厅、超市、咖啡厅等，配套设施齐全。

I. Name of the project

Virtual Reality Industrial Park, Laoshan District, Qingdao

II. Introduction of the project unit

Virtual Reality Industrial Park, Laoshan District, Qingdao, located at No. 169 Zhuzhou Rd, Laoshan District, Qingdao, covers a planning area of 15738.7 square meters. Invested and constructed by Qingdao Jufeng Science and Technology Venture Capital Co. Ltd., the Park has established the service platforms including entrepreneurial incubation, Park operation, project investment and industry investment to create a first-class incubation space science and technology venture park.

III. Investment environment

The construction of the Park will be in 2 stages. Herein, the 1st stage will be six single buildings, each of 5 floors and D building will be of basement, fire pump room and distribution room, with a construction area of 18227.27 square meters. The 1st stage construction has already been completed and is now in the decoration, and will be put into use in 2017. The 2nd stage is in design phase, with a planning construction area of 28000 square meters, in which ground building covers 20000 square meters while underground building covers 8000 square meters.

IV. Project content

The Park, after construction, will emphasize on the introduction of R&D enterprises taking VR industrial chain as the main, and will provide office place including open office, closed office and public meeting room, recording studio, recording studio, roadshow activities hall, exhibition hall, multifunctional products exchange and other venues and restaurant, supermarket and coffee shop to thus provide complete facilities.

一、园区名称

科创慧谷（青岛）科技园

二、园区概况

科创慧谷（青岛）科技园成立于 2012 年，由孵化器、加速器和总部领航区三部分组成。园区以电子信息产业为主导，2013 年 6 月份正式开园以来，已经吸引了 100 多家项目落户，园区现有从业人员 578 人，销售收入 9000 万元，实现利税 800 多万元。

三、园区投资环境

科创慧谷（青岛）科技园依托清华大学雄厚的技术实力和产业资源，以及清控科创在创业、产业、投资方面的丰富经验和国际化资源，打造全链条科技创新服务体系。目前建成孵化载体面积 6 万多平方米，构建了园区公共服务平台、园区骨干网和全园区无线覆盖、园区导视系统和微信公共服务平台，引进 10 多家创业服务机构，筹建了园区专业化技术服务平台。园区目前拥有高新技术企业 2 家，新三板上市企业 1 家，高新区创新型企业 2 家、人才特区项目 2 个、创新创业领军人才 1 人，企业累计获得百余项知识产权。

四、项目内容

科创慧谷（青岛）科技园围绕青岛国家高新区的产业规划，立足清华大学优势科技创新平台，以电子信息产业为主导，以科技金融服务和科技创新服务产业为支撑，积极推动和构建科技服务、软件信息、生物医药、海工装备研发、高端智能制造、新能源和新材料等产业体系，重点聚焦软件信息与大数据、移动互联网、海洋生物与新能源、3D 打印、机器人技术等领域的高新技术企业的招商与引进。

五、合作方式

通过对外合作招商，引进优质项目资源，并提供国际资源对接及针对性的企业服务。此外，搭建项目资源共享平台，进行优质项目资源对接。同时，针对重点产业，搭建产业合作平台，为项目提供交流、推广、合作的平台。

NO.11

I. Name of the project

T-Park (Qingdao) Science and Technology Park

II. Introduction of the project unit

T-Park (Qingdao) Science and Technology Park, founded in 2012, is composed of three parts: incubator, accelerator and headquarters. The park, dominated by electronic information industry, has attracted more than 100 projects to settle in ever since it was opened in June 2013. The park has 578 employees, sales revenue of 90 million yuan, profits and taxes of more than 8 million yuan.

III. Investment environment

T-Park (Qingdao) Science and Technology Park, based on the profound technological capability and industrial resources of Tsinghua University and the rich experience and international resources of TIHI in aspects including entrepreneurship, industry and investment, creates a brand new chain in science and technology innovation service system. At present, the Park has completed the construction carrier of more than 60,000 square meters, and has established park public service platform, park backbone network and park wireless coverage, park guide system and WeChat public service platform. More than 10 entrepreneurship service institutions have been attracted to the Park, and it is planning to construct the park specialized technical service platform. The park currently has 2 high-tech enterprises, 1 three new board listed company, 2 innovative enterprises in high-tech zones, 2 talent zone projects, 1 innovation and entrepreneurship leading talent. Accumulated a total of hundreds of intellectual property rights have been achieved by the enterprises.

IV. Project content

T-Park (Qingdao) Science and Technology Park, centered on industrial planning of Qingdao National Hi-Tech District and based on advantage technology innovation platform of Tsinghua University, taking electronic information industry as the main and taking science and technology financial services and technology innovation service industry as the support, actively promotes and constructs scientific and technological services, software information, bio medicine, marine equipment research and development, high-end intelligent manufacturing, new energy and new materials and other industrial systems, and focuses mainly on investment and introduction of hi-tech enterprises in software information and big data, mobile Internet, marine biology and new energy, 3D printing, robotics and other fields.

V. Way of cooperation

The Park introduces the qualified projects and resources through outside cooperation and investment, and provides connections with the international resources and targeted enterprise services. Additionally, the Park constructs the project resource sharing platform to carry out the connections with qualified project resources. At the same time, focusing on key industries, the Park establishes the industrial cooperation platform, which is provided for the communication, promotion and cooperation of projects.

I. Name of the project

Weihai Service Trade Industrial Park (Weihai Oriental Wisdom Valley)

II. Introduction of the project unit

The Industrial Park is located in the core area of Weihai Economic and Technological Development Zone, covering a total area of 500 acres (namely 330 thousand square meters). The Park takes reform and innovation as the driving force, internationalization as the characteristic, the development of service outsourcing, internet of things, cultural creativity, e-commerce and new information industry as the main direction to create an international information industry park. At present, projects including Softbank service outsourcing base from Japan, South Korea CNT call center project and Enjoye technology incubator project have settled in the park.

III. Investment environment

The Industrial Park is 33 km away from Weihai International Airport, 3 km from Weihai Xingang passenger station, 2.8 km from the Weihai high-speed railway station and 2.5 km away from the Weihai bus station. 5 bus lines and 2 public transport sites are around the Park, which indicates a traffic extending in all directions, convenient and quick. All kinds of living facilities around the park are complete and perfect, being readily available.

IV. Project content

Key development industries: Service outsourcing industry cluster, cross border e-commerce industry cluster, IOT industry cluster, intelligent manufacturing industry cluster, marine science and technology industry cluster and cultural creative industry cluster

Investment direction: Software outsourcing, cross-border e-commerce, marine economy, cultural and creative industry, IOT and intelligent manufacturing.

一、园区名称

台儿庄古城非物质文化博览园

二、园区概况

台儿庄非物质文化遗产博览园位于国家级文化产业试验园区内，紧靠台儿庄古城东侧。总占地面积约为 1000 亩，目前规划建设的重点项目有非遗博览中心、非遗演艺中心、非遗会展中心、非遗创作培训传承区、非遗文化长廊和非遗生产性保护基地。

三、园区投资环境

前期工作准备就绪。该项目立项、环评、规划手续齐全，有土地预审函。目前，已委托同济大学完成了整个园区的概念性规划。委托中国建筑设计研究院完成了该项目的建筑工程设计。已投资完成了部分土地的拆迁和征收。修建了鲁班路、东顺路等区域内的相关基础配套设施。

交通便利。非遗博览园的交通便利，京沪高铁、京福高速贯穿台儿庄，2.5 小时直达上海、北京，快速通道连接枣庄和徐州。

四、项目内容

一是非遗活态展示区。内设非遗精品展示馆、非遗传承人绝活展示馆、非遗手工体验坊等。二是非遗静态展示区。内设文献展厅、数字展厅，互动体验区、大型影视展映厅、非遗博览中心沙盘等。三是儿童非遗游乐馆。设置有科技展厅、卡通非遗展品集市、卡通非遗故事剧场、非遗游乐园、非遗亲子互动游戏区等。四是是非遗演艺中心、非遗会展中心、非遗创作培训传承区、非遗文化长廊、非遗生产性保护基地。

NO.13

I. Name of the project

Taierzhuang City Intangible Culture Expo Park

II. Introduction of the project unit

Taierzhuang City Intangible Culture Expo Park, located in the National Cultural Industry Experimental Zone closely to the east of Taierzhuang City, covers the area of a total of 1,000 acres. The major projects in plan and construction of the Park at present are Intangible Culture Expo Center, Intangible Culture Performing Arts Center, Intangible Culture Convention and Exhibition Center, Intangible Culture Creating and Training Heritage Area, Intangible Culture Corridor and Intangible Culture Productive Protection Base.

III. Investment environment

Preparatory works of the Park have been completed. The project, environmental impact assessment and planning procedures of the project are complete and it has been certificated by land pre-trial letter. At present, Tongji University has been commissioned to complete the conceptual planning of the entire park and China Architectural Design and Research Institute commissioned the completion of the project construction design. Demolition and expropriation of part of the land have been invested and completed. Relevant infrastructure in the region, including Luban Rd and Dongshun Rd, has been constructed.

It enjoys a convenient transportation. The Intangible Culture Expo Park enjoys a convenient transportation, with the Beijing-Shanghai high-speed railway, Beijing Fuzhou Expressway running through Taierzhuang indicating 2.5 hours to Shanghai or Beijing. Express Lanes connect it with Zaozhuang and Xuzhou.

IV. Project content

The 1st part is the Intangible Culture Live Demonstration Area, in which Intangible Culture Boutique Exhibition Hall, Intangible Culture Inheritor Unique Skill Exhibition Hall, Intangible Culture Manual Workshop have been settled. The 2nd part is the Intangible Culture Static Exhibition Area, in which Literature exhibition hall, Digital exhibition hall, Interactive experience area, Large film screenings hall, sand table of Intangible Culture Expo Center have been settled. The 3rd part is the Intangible Culture Child Amusement park, in which Science and Technology Exhibition Hall, Cartoon Exhibit Market of Intangible Culture, Cartoon Theatre of Intangible Culture, Intangible Culture Amusement park, Intangible Culture Parent-child interactive play area have been settled. The 4th part is the Intangible Culture Performing Arts Center Intangible Culture Convention and Exhibition Center, Intangible Culture Creating and Training Heritage Area, Intangible Culture Corridor and Intangible Culture Productive Protection Base.

NO.14

一、园区名称

山东测绘地理信息产业园

二、园区概况

该园区是山东省国土资源厅批准成立的“山东测绘地理信息产业基地”的装备制造园区，总规划 7 平方公里，一期可利用土地 2039 亩。该园区由国土资源部推动，山东省国土资源厅大力扶持，潍坊市人民政府和坊子区人民政府运营管理、招商引资、开发建设。

三、园区投资环境

目前，园区基础设施完善，实现了“七通一平”。人机交互智能控制系统、航空涡轮增压器、工业机器人、银澎云计算中心、新能源电动叉车等 50 个项目已入驻园区。单个入园工业项目固定资产投资须达到 5000 万元(含购买配套服务中心投资)以上，投资强度原则上不低于 280 万元/亩，预期总税收每年不低于 20 万元/亩。

四、项目内容

计划五年内投入 150 亿元，打造立足山东、辐射全国、面向世界的地理信息装备制造业聚集发展基地。园区重点引进地理信息产业项目，航空产业项目，现代服务业项目及高新技术项目。

I. Name of the project

Shandong Mapping Geographic Information Industrial Park

II. Introduction of the project unit

The Park is the equipment manufacturing park of Shandong mapping geographic information industry base, which is approved by Shandong Provincial Department of Land and Resources. The planning area of the Park is in total 7 square kilometers, in which available land area of the 1st stage is 2,039 acres. The Park, promoted by Department of Land and Resources, greatly supported by Shandong Provincial Department of Land and Resources, has its operation, administration, investment, development and construction carried out by Weifang Municipal People's Government and Fangzi District People's Government.

III. Investment environment

At present, the park has a complete infrastructure which realized the "seven links and one leveling". More than 50 projects have settled in the Park including interactive intelligent control system, aviation turbocharger, industrial robots, NPOR cloud computing center, new energy electric forklift, etc. Each single admission industrial project shall have a fixed assets investment more than 50 million yuan (including the purchase of ancillary service center investment), and the investment intensity shall be no less than 2.8 million yuan per acre in principle, and the total tax is expected to be not less than 200 thousand yuan per acre.

IV. Project content

The Park plans to invest 15 billion yuan in 5 years to create a geographic information equipment manufacturing industry cluster development base based in Shandong, radiating nationwide and facing the world. The Park focuses on the introduction of geographic information industry project, aviation industry project, modern service industry project and high technology project.

一、园区名称

淄博高新区先进陶瓷创新园

二、园区概况

淄博高新区先进陶瓷创新园位于石桥办事处北营村东方工业园内，占地约 165 亩，于 2012 年初投入使用，规划建筑面积 293000 平方米，可容纳 200 余家企业进行办公。园区的建设对进一步整合高技术陶瓷领域内的创新资源，加快产业结构调整，推动区内企业自主创新能力的提升和特色产业集群的快速形成具有重要意义。

三、园区投资环境

园区一期工程为研发、综合公共配套区域，二期工程为孵化、工程化示范区域。入驻企业包括山东天璨环保科技股份有限公司、山东迈格电子科技有限公司等 40 余家，园区有山东省工业陶瓷研究院、山东工业设计研究院、新材料电子商务服务平台等公共服务平台 8 个，从业人数 1000 余人。

四、项目内容

重点引进陶瓷、新材料设计研发企业，电子商务服务企业，工业设计企业。

I. Name of the project

Advanced Ceramic Innovation Park, Zibo Hi-Tech Zone

II. Introduction of the project unit

Advanced Ceramic Innovation Park, Zibo Hi-Tech Zone, located in Oriental Industrial Park, Beiyong Village, Shiqiao Office, covers an area of about 165 acres, and was put into use in early 2012. The planning construction is 293,000 square meters, which can contain the office of more than 200 companies. The construction of the Park has a significant meaning in the further integration of innovative resources in the field of high technology ceramics, acceleration of the promotion of industrial structure, promotion of the improvement of the ability of independent innovation of the regional enterprises and the rapid formation of characteristic industrial cluster.

III. Investment environment

The 1st stage project of the Park is the R&D area and integrated public supporting area, while the 2nd stage project is the incubation area and engineering demonstration area. More than 40 enterprises, including Shandong Tiancan Environmental Polytron Technologies Inc and Shandong Mygoal Electronic Technology Co., Ltd. The Park also has 8 public service platforms including Shandong Institute of Industrial Ceramics, Shandong Industrial Design Inst and new material e-commerce service platform, and has more than 1,000 employees.

IV. Project content

The Park focuses on the introduction of design and R&D enterprises in ceramics and new materials, e-commerce service enterprises and industrial design enterprise.

一、园区名称

中美清洁能源合作产业园

二、园区概况

园区是中美 2011 年第 22 届商贸联委会的重要成果，旨在鼓励中美两国企业开展贸易、研发、生产、培训、交流等多种形式的对接与合作。产业园位于东营经济技术开发区，规划面积 12 平方公里。重点发展清洁能源和传统能源清洁化两个产业集群，在强化“双清”制造业的基础上，努力向智能化、集成化服务领域拓展。目前已引进项目 35 个，全部建成投产后，可完成投资 330 亿元，新增产值 1000 亿元，可提供就业岗位 2 万个。

三、园区投资环境

园区从 2012 年下半年开始基础设施配套，已完成道路、桥涵、排水以及污水处理等基础设施建设，以及供电、供水、供热、供气、公交绿化等公用设施建设，部分载体建设已经初具规模。

产业园现有产业涉及高端装备制造、汽车零部件、生物医药、电子信息清洁能源、生产性服务业等产业，是开发区战略性新型产业的聚集地

四、项目内容

园区下一步将重点引进“双清”产业项目，积极承接和建设清洁技术应用示范项目。重点面向央企、大企业集团、世界知名企开展招商工作，同时做各类平台运营商的招商工作，包括：技术转移、培训、交流、科技服务、节能服务等领域。

NO.16

I. Name of the project

China-U.S. Clean Energy Cooperation Area

II. Introduction of the project unit

The Park, as a significant result of the twenty-second China US Joint Commission on commerce and trade in 2011, aims to promote the connections and cooperation in all forms including trade, R&D, production, training and communication among enterprises in China and US. The Park, located in Dongying Economic and Technological Development Zone, covers a planning area of 12 square kilometers. It focuses on development of clean energy industrial cluster and traditional energy cleaning industrial cluster, and tries to expand to the intelligent and integrated services based on the strengthening of the “2 cleanings” manufacturing industry. The number of projects that have been introduced in has reached 35. All completed and put into operation, the investment can reach 33 billion yuan, the new output value will increase to 100 billion yuan, and the Park can provide jobs of 20 thousand.

III. Investment environment

The Park started the construction of supporting infrastructure in the late 2012, and has by now completed the construction of infrastructure including road, bridge, drainage and sewage treatment and the construction of public facilities including power supply, water supply, heat supply, gas supply and public green area. The construction of part of the building carriers has come to certain size.

The Industrial Park has the existing industries involved in including high-end equipment manufacturing, automotive parts, bio medicine, electronic information, clean energy, producer services and other industries. It is a gathering place of strategic new industries in the Economic and Technological Development Zone.

IV. Project content

In next stage, the Park will focus on the introduction of “2 cleanings” industrial projects, and will actively undertake and construct clean technology application demonstration project. It will focus on the investment of central enterprises, large enterprise groups and world-renowned enterprises, and will involve the investment of various platform operators at the same time, including technology transfer, training, communication, science and technology service, energy saving service, etc.

NO.17

一、园区名称

青岛欧亚经贸合作产业园

二、园区概况

2016年3月，经商务部批复，明确欧亚经贸合作产业园区作为境内外双向合作园区战略地位。产业园先期规划8.25平方公里作为发展的先导区。是我国沿海地区在“一带一路”战略背景下，获得商务部批准的中国唯一的横跨欧亚大陆、境内外双向投资互动合作园区。

三、园区投资环境

青岛多式联运海关监管中心已开通中亚班列、中韩快线以及至俄罗斯、越南、荷兰的国际班列，形成以青岛为枢纽，贯通欧亚大陆东西南北、无缝对接海陆空铁的“一带一路”互联互通综合贸易枢纽。4F级胶东国际机场规划定位为东北亚区域枢纽机场、面向日韩的门户机场、环渤海地区国际航空货运枢纽机场，2019年正式转场运营。世界第七大港口青岛港距离园区20公里。

2012年12月，国家级胶州经济技术开发区获国务院批复；2014年2月，青岛市财富管理金融综合改革试验区获国家批复设立；2016年1月，中国（青岛）跨境电子商务综合试验区获国务院批复；2016年5月，青岛市作为现代物流创新发展试点城市获国家批复设立。

四、项目内容

借助上合组织实业家委员会及中东欧“16+1”、东盟“10+3”等国家间多双边高端交流机制平台开展园区推广路演工作，推进重点境外园区建设，力争用3-5年的时间，将欧亚经贸合作产业园区建设成为“面向欧亚、对接日韩、多式联运、关检联动、多边互动、区域合作”的国际贸易综合枢纽，努力成为“一带一路”战略“互联互通”的国际产能合作重要平台。

NO.17

I. Name of the project

Qingdao Eurasian Economic and Trade Cooperation Industrial Park

II. Introduction of the project unit

In March 2016, approved by Commerce Department, the Eurasian Economic and Trade Cooperation Industrial Park was confirmed as the strategic position of domestic and foreign two-way cooperation park. In the early stage, the Park has a planning area of 8.25 square kilometers as the guiding area of development. The Park is the only domestic and foreign two-way cooperation interactive park crossing Eurasian approved by Commerce Department in the coastal areas in the background of "One Belt and One Road" strategy.

III. Investment environment

Qingdao multimodal transport customs supervision center has opened China-Central Asian train, China-Korea Express and the international trains to Russia, Vietnam and Holland, forming a integrated trade hub of mutual connection and communication in "One Belt and One Road" strategy centered in Qingdao, crossing all direction on the Eurasian Continent and seamlessly connected to land, sea, air and railway. The Class-4F Jiaodong International Airport is positioned as an airline hub of Northeast Asia, a gateway airport facing Japan and Korea and an airline hub for international airfreight in the Circum-Bohai Sea region, and planned to put into formal operation in 2019. Qingdao port, the world's seventh largest port, is 20 km away from the park.

Qingdao port, the world's seventh largest port, is 20 km away from the park.

In December 2012, State-level Jiaozhou Economic and Technological Development Zone was approved by the State Council; in February 2014, Qingdao wealth management finance comprehensive reform pilot area was approved by the state and was established; in January 2016, China (Qingdao) cross-border e-commerce comprehensive test area was approved by the State Council; in May 2016, Qingdao city as a modern logistics innovation pilot city was approved by the state and was established.

IV. Project content

Taking advantage of National multilateral and bilateral high-end exchange mechanism platforms including SCO Council of Industrialists, Eastern Europe "16+1" and ASEAN "10+3", the Park carries out its promotion and roadshow works to promote the construction of key overseas parks, trying to construct the Eurasian Economic and Trade Cooperation Industrial Park into an international trade comprehensive hub of "facing Eurasian, connecting Japan and Korea, Multimodal transportation, customs-supervision connection, multilateral interaction and regional cooperation" in 3 to 5 years. The Park attempts to become an important platform for international production cooperation of mutual connection and communication in "One Belt and One Road" strategy.

一、园区名称

威海市中韩健康养老产业园

二、园区概况

本园区由乳山市滨海新区管理委员会负责实施。乳山市滨海新区管理委员会是市政府派出机构，配备编制 80 名，现有工作人员 100 余名。区内现有新兴产业、食品生物科技，旅游休闲等重点产业，各个行业从业人员约过万人，年可实现产值 100 亿人民币，实现利税过 10 亿人民币现有企业约 100 余家。

三、园区投资环境

园区位于银滩旅游度假区内，地理位置优越，各种基础设施配套完备，交通便利，劳动力充足，投资成本低。园区内阳光、沙滩、海水、温泉等旅游要素完备，“山、海、湾、滩、岛、泉”等生态资源丰富。拥有维多利亚、福如东海、多福山等 10 多家知名旅游企业，东方国际养生、万通百合老年公寓等 20 多家健康养生养老服务企业，乳山第二人民医院、银滩医院等健康医疗服务机构，国投中鲁、好当家、华隆食品等健康食品企业，形成休闲度假、养生养老、健康食品、健康服务于一体的健康服务产业链。

四、项目内容

主要依托园区内的旅游资源优势、产业基础优势、载体平台优势，通过与韩国健康养老产业的全方位对接，主要打造健康产业九大板块：旅游休闲度假板块、海洋文化体验板块、健康养生养老板块、生物科技板块、健康医疗器械板块、健康服务业板块、健康食品板块、仓储物流版块和海上牧场板块。规划建设“韩式”生态体系和健康园区，培育养生养老与医疗、保健共举的大健康产业模式。

I. Name of the project

Weihai Sino-Korea Health Care and Pension Industrial Park

II. Introduction of the project unit

Rushan Binhai New Area Management Committee is responsible for the implementation of the Park. As a municipal government agency, Rushan Binhai New Area Management Committee has its organization personnel of 80 persons, and more than 100 employees. The present major industries in the Park include emerging industries, food biotechnology, tourism and leisure, each has more than 10 thousand practitioners. An annual production of 10 billion yuan can be realized, and more than 100 enterprises can realize the profit and tax of more than 1 billion yuan.

III. Investment environment

The Park, located in Silver Beach tourist resort, has an excellent geographical position, and enjoys the complete supporting facilities and infrastructure, the convenient transportation, enough labors and low investment cost. The park has the complete sunshine, beach, sea water, hot springs and other tourism elements, and the rich ecological resources including “mountains, seas, bays, beaches, islands and springs”. The Park has attracted more than 10 famous tourism enterprises including Victoria, Furudonghai and Duofushan, and more than 20 health care and pension service enterprises including Oriental International Health and Wantong Lily apartment for the elderly, medical service organizations including the second people's Hospital of Rushan and Yintai Hospital and health food enterprises including SDIC Zhonglu, Homey and Huakong Food. It has created a health service industry chain with the integration of leisure, health care, health food and health service.

IV. Project content

The Park, based on advantages of tourism resources, industrial base and carrier platform in it, through the comprehensive connection with Korean health care industry, mainly creates the 9 sectors in health care industry including: tourism and leisure sector, marine cultural experience sector, health pension sector, biotechnology sector and health medical equipment sector, health services sector, health food industry and warehousing logistics sector and sea ranch sector. It plans to construct the “Korean” ecosystem and health park, and to cultivate the grand health industry model with the integration of health care, pension, medical care and health protection.

一、项目名称

邹城经济开发区智能机器人研发生产项目

二、项目单位简介

邹城经济开发区是 1992 年经山东省政府批准设立的省级经济开发区，功能定位高新技术产业基地、先进制造业基地、现代物流基地。目前总体规划面积 70 平方公里。内设国家级科技企业孵化器——邹城大学科技园和山东智能装备（机器人）产业园两个孵化平台。2004 年被中国国情调查研究中心推荐为“中国最具发展潜力开发区”，2006 年通过质量、环境双体系认证。近年来，综合发展竞争力列山东省经济开发区前列，先后被评为“全省对外开放先进园区”，“山东省知识产权园区”。

三、项目内容及建设规模

该项目瞄准库卡、安川、发那科、新松等知名智能装备制造制造商，计划引进工业机器人研发生产型企业，医用、搬运等生产辅助或生活服务型机器人研发生产企业，或基于智能装备集成系统解决方案企业，打造智能装备基地生产基地。

四、项目建设条件

目前邹城市已引进智能机器人制造生产企业 4 家，并围绕智能机器人制造产业打造政策支持、金融支持、技术支撑、人才培养、公共设备、商务支持六大产业发展平台，鼓励产业创新型企业到邹城市创业发展。

五、项目总投资

总投资 14300 万美元。

六、市场及经济效益分析预测

本项目全部投产后，每年可新增销售收入 6 亿元，实现利润 0.9 亿元。

NO.19

I. Name of the project

Intelligent Robot R&D and Production Project, Zoucheng Economic Development Zone

II. Introduction of the project unit

Zoucheng Economic Development Zone is a provincial economic development zone approved by the Shandong provincial government in 1992, with a functional identity of high and new technology industrial base, advanced manufacturing base and modern logistics base. The Zone has a total planning area of 70 square kilometers at present, in which two incubation platforms, namely Zoucheng University Science Park and Shandong Intelligent Equipment (Robot) Industrial Park, which are national science and technology enterprise incubators, have been settled. In 2004, it was recommended by China National Survey Research Center as the “China's most potential development zone”, and in 2006 it was certificated by International Quality System and International Environment System. In recent years, the comprehensive development competitiveness of the Zone has always been in leading among provincial economic development zones in Shandong. It was awarded as “Provincial Leading Park in Opening Up” and “Shandong Intellectual Property Park”.

III. Project content and construction scale

The Project, targeting at the famous intelligent equipment manufacturer including KUKA Robotics, Yaskawa, FANUC and Siasun, plans to introduce the industrial robot R&D and production enterprises, medical, transportation and other production auxiliary or life service robot R&D and production enterprises or intelligent equipment integration system solution based enterprises in order to build the base of intelligent equipment base.

IV. Construction condition

At present, Zoucheng has introduced 4 intelligent robot manufacturing enterprises, and is creating the 6 industrial development platforms including Policy support, financial support, technical support, personnel training, public facilities and business support centered in intelligent robot manufacturing industry to encourage the development of innovative enterprises in Zoucheng.

V. Total investment

USD 143 million

VI. Market and economic benefit analysis & forecast

RMB 600 million of sales revenue and RMB90 million of profit will be achieved annually upon its completion.

I. Name of the project

Panshi Heavy Equipment Project of Panshi Container Group Co., Ltd.

II. Introduction of the project unit

Panshi Container Group Co., Ltd., founded in 1998 with a registered capital of 50 million yuan, is a national high-tech enterprise mainly focusing on design and manufacturing of industrial pressure vessels in fields including electric power, petrochemical, metallurgy and others, and novel mine lifesaving equipment. The new factory covers an area of 170 thousand square meters, equipped with domestic first-class production equipment and tooling, in which maximum single lifting capacity is 700T. It is also equipped with strip surfacing, narrow gap welding center, boring and milling machine, multi head deep drilling, heat treatment furnace, etc..

III. Project content and construction scale

The factory covers an area of 170 thousand square meters (namely 255 acres), with a construction area of 120 thousand square meters, in which the workplace covers almost 110 thousand square meters (namely 160 acres). On the whole, the new factory can be used as the production base of large heavy equipment manufacturing industry, and can be also utilized as R&D and industrialization base of the maker projects. It can make the integration of pressure vessel industry upstream and downstream, and build a pressure vessel industry park, or can build a incubator of high-end projects.

IV. Construction condition

At present, the main plant construction has been completed, and the workshop has been installed with more than 50 cranes. It has obtained complete Development and Reform, environmental impact assessment and construction procedures.

V. Total investment

USD 150 million

VI. Market and economic benefit analysis & forecast

RMB 2 billion of sales revenue and RMB 300 million of profit will be achieved annually upon its completion.

山东明航智能物流装备股份有限公司位于邹平县韩店镇民营科技园,2015年8月成立,注册资本5000万元,是山东三星集团有限公司下属子公司,公司主要经营范围:车用机器人生产技术的研发;生产、销售汽车及零部件、运输装备、储存装备;普通货运。

三、项目内容及建设规模

项目总建筑面积为81890平方米(其中81890平方米层高超过8米),新建车间3座面积79800平方米、仓库1座面积2090平方米。建筑容积率为1.73,建筑系数为86.61%,绿化率为6%,无行政办公和生活服务设施。购置安装数控切割机、车床、镗床、自动焊机、行车、智能装配线等主要生产设备662台(套)。

四、项目建设条件

项目所在邹平县区域内交通运输、给水、排水、供电、供热、通讯方面为项目的通讯提供了便利的条件。手续齐全,现已建成车间一座。

五、项目总投资

总投资18996.91万美元

六、市场及经济效益分析预测

本项目建成达产后,年可实现销售收入525000万元,实现利润总额43928.07万元,上缴税收5491.01万元。项目可提供220个就业岗位。

NO.21

I. Name of the project

High-end equipment transport vehicle project of Shandong Minghang Intelligent Logistics Equipment Co., Ltd.

II. Introduction of the project unit

Shandong Minghang Intelligent Logistics Equipment Co., Ltd., located in Private Science and Technology Park, Handian Town, Zouping, was founded in August 2015 with a registered capital of 50 million yuan. It is a subsidiary of Shandong Sanxing Group Co., Ltd. The main business scope of the company focuses on: research and development of vehicle robot production technology, production and sales of automobile and spare parts, transportation equipment and storage equipment and ordinary freight.

III. Project content and construction scale

The total construction area of the project is 81890 square meters (in which the area of 81890 square meters has its floor height over 8 meters). 3 work shops has been newly constructed with an area of 79800 square meters, and 1 warehouse with an area of 2090 square meters. Construction volume rate is 1.73 while building factor 86.61% and greening rate 6%. No administrative office and living service facilities have been constructed. 662 main production devices including CNC cutting machine, lathe, boring machine, automatic welding machine, bridge crane and intelligent assembly line.

IV. Construction condition

Regional transportation, water supply, drainage, power supply, heating, and communication of Zouping where the project is located have provided the project with convenient conditions. With complete procedures, the construction of 1 workshop has been completed.

V. Total investment

USD 189,969,100

VI. Market and economic benefit analysis & forecast

After completed and put into production of the project, the annual sales income can reach 5.25 billion yuan, and the profit and tax can reach 439,280,700 yuan while tax payment can reach 54,910,100 yuan. The project can provide 220 jobs.

NO.22

一、项目名称

山东昊安金科新材料有限公司高端装备制造项目

二、项目单位简介

公司成立于2010年5月，注册资本9000万，现有职工200人，主要生产特种合金钢坯料、铁路组合辙叉、高速列车刹车盘、汽车刹车盘、发动机飞轮总成、矿山高温炉耐热部件、矿山耐磨配件、核电/火电阀体及叶轮等部件。公司技术达到国际领先水平，产品主要用于导弹、船用发动机部件、风力发电设备、舰艇、航母甲板以及螺旋流恒压泵等。2016年实现销售收入2000万元。

三、项目内容及建设规模

项目规划总建筑面积12万平方米。分两期投资，一期投资3亿元，主要建设铸钢热处理车间、锻造车间、物料库、研发中心、职工餐厅、宿舍及35KV变电站。目前锻造和加工车间已投产。

四、项目建设条件

项目拟建于乳山经济开发区，水、电、天然气、路、网设施齐全。项目已具备产业化生产条件。

五、项目总投资

总投资7000万美元

六、市场及经济效益分析预测

项目全部达产后，可实现销售收入为7.5亿元，利税1亿元，其中增加产品出口销售收入30%。

NO.22

I. Name of the project

Shandong Hao'an Goldtech New Materials Co., Ltd. Upscale Equipment Manufacturing Project

II. Introduction of the project unit

The company was founded in May 2010 with a registered capital of RMB90 million, and has a total of 200 employees currently, mainly engaged in manufacturing special alloy steel blank, railway frog assembly, high-speed train brake disc, automobile brake disc, engine flywheel assembly, heat resistant components of high temperature mine furnace, wear resistant mining parts, nuclear/thermal power valves and impeller, etc. The company is equipped with internationally advanced technologies, and its products are mainly used for guided missile, marine engine components, wind power generation equipment, naval vessel, aircraft carrier deck and spiral flow constant pressure pump, etc. The company realized RMB 20 million of sales revenue of in 2016.

III. Project content and construction scale

The planned overall floorage of the project is 120,000 m². It received a two-stage investment and RMB300 million for each stage. The content of the project is mainly to construct cast steel heat-treatment workshop, forging workshop, material warehouse, scientific research center, staff canteen, dormitory and 35KV electricity supply station. At present, forging and processing workshops have been put into operation.

IV. Construction condition

The project is planned to be built in Rushan Economic Development Zone, equipped with complete water, electricity, natural gas, road and network facilities. The project is well-equipped for industrial production.

V. Total investment

USD 70,000,000

VI. Market and economic benefit analysis & forecast

Upon its completion, RMB750 million of sales revenue of and RMB100 million of profit and tax of will be achieved, among which the sales revenue of exported products will account for 30%.

NO.23

一、项目名称

高唐绿荫环保科技有限公司秸秆综合利用装备制造项目

二、项目单位简介

高唐绿荫环保科技有限公司是一家集科研、新产品新技术开发、外经外贸于一体的企业，属于设备与环保技术服务行业。公司成立于2009年12月，主要经营范围为造纸、工程机械技术服务；工业、生活废水、废气环保技术服务；制浆造纸设备机械加工与销售；农业秸秆综合利用设备机械加工与销售。公司现有员工400余人。

三、项目内容及建设规模

1、新建机加工车间、铆焊车间、装配车间、原料库、成品库各2座，购置数控加工中心、切割机、轧辊磨床、液压压力机、动平衡机等机械加工制造、维修设备。

2、生产定型秸秆综合利用设备56480台，其中卫生纸机100台、320台洗浆机、240台碎草机、16280台播种施肥机、16280玉米秸秆收割机、23260台打捆机。维修能力每年4000吨，同时满足本企业和部分毗邻企业制浆造纸设备的维修。

四、项目建设条件

项目前期批复手续齐全，项目主要建设条件已落实。

五、项目总投资

总投资20000万美元

六、市场及经济效益分析预测

项目的建设能够调整企业的产业结构，提高制浆造纸设备的自主研发能力，同时会带动一批相关行业如造纸业、钢材业、机电业等行业的同步发展，有利于当地扩大就业范围，减轻国家负担，增加税收，推动当地国民经济的发展，社会效益显著。项目投产后，每年可新增销售收入33.38亿元，实现利润5.3亿元。

NO.23

I. Name of the project

Gaotang Greenery Environmental Protection Technology Co., Ltd. Straw Comprehensive Utilization Equipment Manufacturing Project

II. Introduction of the project unit

Gaotang Greenery Environmental Protection Technology Co., Ltd. is an enterprise integrated with the businesses of scientific research, new product & new technology development and foreign trade, belonging to the equipment and environmental protection technology service industry. The company was founded in December 2009, mainly engaged in papermaking and engineering mechanical technology service; environmental protection technology service for industrial & domestic wastewater and exhaust gas; pulping & papermaking equipment machining and marketing; agricultural straw comprehensive utilization equipment machining and marketing. The company has a total of more than 400 staff currently.

III. Project content and construction scale

1. Respectively construct 2 machining workshops, 2 riveting and welding workshops, 2 assembly workshops, 2 raw material storages and 2 finished-parts warehouses, and purchase a CNC machining center, cutting machines, roll grinders, hydraulic presses, dynamic balancing machines, etc. for mechanical processing & manufacturing and maintenance.

2. Manufacture and finalize 56,480 straw comprehensive utilization equipment, including 100 toilet paper making machines, 320 pulp washers, 240 grass choppers, 16,280 sowing & fertilizer distributors, 16,280 maize straw harvesters, and 23,260 strapping machines. It will be able to maintain 4000t equipment annually, and capable of satisfying the maintenance requirement of pulping and papermaking equipment of the enterprise and partial enterprises nearby.

IV. Construction condition

The preliminary approval procedures have all been handled and the main Construction conditions of the project have been settled.

V. Total investment

USD 200,000,000

VI. Market and economic benefit analysis & forecast

Upon completion, the project will be able to adjust the enterprise's industrial structure, improve its independent R&D ability of pulping and papermaking equipment, and will drive the synchronous development of relevant industries, such as paper making, rolled steel, electro-mechanics, etc., favorable for local job enlargement, reduction of the state burden, increase of tax revenue and development of local national economy, showing its remarkable social benefits. RMB 3.338 billion of sales revenue and RMB530 million of profit will be achieved annually upon its completion.

NO.24

一、项目名称

阿特斯阳光电力集团光伏组件及太阳能电池片生产项目

二、项目单位简介

阿特斯阳光电力集团由国家“千人计划”首批特聘专家瞿晓铨博士于 2001 年创办。集团总部位于加拿大安大略省，中国区总部位于江苏省苏州市高新区。注册资本 36446 万美元，资产总额 45 亿。2016 年预计组件发货量 5.5GW 左右，销售收入 240 亿人民币左右。

三、项目内容及建设规模

“十三五”前两年每年在当地市场获得 300MW 的销量，出口 200MW；后三年每年在当地获得 500MW 的销量，出口 500MW。“十三五”期间总投资额约 11.4 亿元人民币，其中注册资本约为 5 亿元。组件销售以国内国外各一半的配比量划分，一期每年将为滕州市带来约 8600 万美元出口额，二期投产后每年出口额可达 2.1 亿美元。

四、项目建设条件

项目目前已完成前期考察并与当地市政府进行了对接洽谈，考察了建设用地，初步具备建设条件。下步待用地计划经省发改委批复后即可办理立项、选址。

五、项目总投资

总投资 17000 万美元

六、市场及经济效益分析预测

本项目全部投产后，每年可新增销售收入 36 亿元，出口额 2.1 亿美元/年，实现利润 5 亿元。

NO.24

I. Name of the project

Canadian Solar PV Modules and Solar Cells Production Project

II. Introduction of the project unit

Canadian Solar was founded in 2001 by Dr. Shawn Qu, one of the first-batch specially invited experts of the national “Recruitment Program of Global Experts”. The group is headquartered in Ontario of Canada, and established its China headquarters in Suzhou New & Hi-tech Industrial Development Zone of Jiangsu. It had a registered capital of USD364.46 million and a Total investment of USD4.5 billion. In 2016, the estimated shipment amount of modules was nearly 5.5GW and the sales revenue was about RMB 24 billion.

III. Project content and construction scale

In the first two years of the “13th Five-Year Plan”, the project annually gained a sales volume of 300MW in local market and exported 200MW; in the other three years, it annually gained a sales volume of 500MW in local market and exported 500MW. During the “13th Five-Year Plan”, the project received a Total investment of about RMB1140 million, including a registered investment of RMB500 million. Dividing equally the domestic and overseas sales volume of modules, the sales of modules will bring an amount of exports of nearly USD86 million for Tengzhou every year in the first stage and annually USD210 million amount of exports after the second-stage project is put into operation.

IV. Construction condition

At present, the undertaking unit has conducted a preliminary investigation on the project, discussed with the local municipal government, and had a research on the construction land, and it is proved that the project meets the initial requirements for construction. In the following, the project may be established and sited after the land-use plan is approved by the Provincial Development and Reform Commission.

V. Total investment

USD 170,000,000

VI. Market and economic benefit analysis & forecast

RMB 3.6 billion of sales revenue, \$ 210 million of export volume will be achieved annually upon its completion, which will then achieve the profit of RMB 500 million.

NO.25

一、项目名称

山东新升光电科技有限责任公司工业蓝宝石项目

二、项目单位简介

山东新升光电科技有限责任公司于 2016 年成立，注册资金 1 亿元，项目一期为年产 120 吨工业蓝宝石生产规模，现已建成现代化车间，并已投入试运行。工业蓝宝石主要用于制备半导体衬底材料，还可广泛用于制备光学器件材料、窗口材料、耐磨零部件和珠宝首饰等，而今已拓展到电子产品的窗口材料中，包括手机 HOME 键、摄像头保护盖、手机屏幕、智能手表屏幕等，是现代工业尤其是光电子产业重要的基础材料。

三、项目内容及建设规模

该项目拟分步实施，从蓝宝石晶体产业链的源头做起，按照先建设“纵向”蓝宝石晶体深加工产业链，后发展“横向”LED 半导体照明产业链的思路逐步扩展。规划目标建成拥有晶体生长炉 500 台，年产工业蓝宝石 600 吨的规模及配套深加工生产线。

四、项目建设条件

土地资源丰富，项目一期占地 50 亩，仍有近 300 亩土地可利用；水、电、暖等条件便利，使用自备电力及热源。

五、项目总投资

总投资 10000 万美元

六、市场及经济效益分析预测

按扩大产能 120 吨计算，可新增销售收入约 2 亿多元，实现利润 0.4 亿元。

NO.25

I. Name of the project

Shandong Xinsheng Photoelectric Technology Co., Ltd. Industrial Sapphire Project

II. Introduction of the project unit

Shandong Xinsheng Photoelectric Technology Co., Ltd. was founded in 2016 with a registered capital of RMB100 million. The first stage of the project has a production scale of annually 120t of industrial sapphire, and modern workshops have been constructed and put into trail operation. Industrial sapphires are mainly used for manufacturing semiconductor substrate materials, and also be widely used for making optical device materials, window materials, wear-resisting parts & components and jewelry, etc., and now have been expanded to window materials for electronic products, including the Home button of cell phones, camera lens protective cap, cell phone screen, smart wrist watch screen, etc., serving as an important basic material of the modern industry, especially the photoelectric industry.

III. Project content and construction scale

The project is planned to be completed by steps, starting from the source of the industrial chain of sapphire crystal, and then gradually expand the business from constructing “vertically” a sapphire crystal deep processing industrial chain to developing “horizontally” a LED semiconductor lighting industrial chain. The objective is to construct a production line with 500 crystal growing furnace, an annual production scale of 600t of industrial sapphire and supporting deep processing capability.

IV. Construction condition

The project possesses rich land resources, covering an area of 50 mu for the first stage and remaining nearly 300 mu of land available; it enjoys convenient conditions, such as water, electricity, heat, etc., and is equipped with independent power supply and heat source.

V. Total investment

USD 100,000,000

VI. Market and economic benefit analysis & forecast

Assuming the production capacity expanded is 120t, the project will achieve about RMB200 million of sales revenue and RMB40 million of profit.

I. Name of the project

Shandong Feiyuan Technology Co., Ltd. New Electronic Material Extension and Tungsten Hexafluoride Production Project

II. Introduction of the project unit

The company was founded in April 2015, with a registered capital of RMB55 million and total assets of RMB250 million and possesses 289 employees. It enjoys advanced technologies and is equipped with strong economic strength. It has constructed the project of 4300t/a high-purity new materials for electronic products (including 3000t/a electronic-grade sulfur hexafluoride, 500t/a electronic-grade carbon tetrafluoride, 500t/a electronic-grade nitrogen trifluoride and 300t/a triflic acid) and has put it into trial production.

III. Project content and construction scale

The main content of the project is the construction of workshops and warehouses as well as equipment procurement & installation. Upon completion, it will be equipped with the production capability of 1500t/a sulfur hexafluoride, 500t/a carbon tetrafluoride, 4000t/a nitrogen trifluoride, 100t/a fluorine-containing surfactant and 100t/a tungsten hexafluoride.

IV. Construction condition

At present, the procedures for project establishment, planning, safety assessment, environmental impact assessment, construction permit, etc. have been handled, and the project meets the requirement for construction.

V. Total investment

USD 120,000,000

VI. Market and economic benefit analysis & forecast

RMB1.184 billion of sales revenue and RMB111 million of profit will be achieved annually upon its completion.

山东中机模具有限公司汽车内饰复合材料研发生产项目

二、项目单位简介

山东中机模具有限公司拥有固定资产 4500 万元，主要从事各类模具的设计与加工和磨削专用设备的研发与制造；现有员工 86 人，其中工程技术人员 32 人，具有高级专业技术职称人员 13 人；年销售收入 1.2 亿元，利润 2000 万元。2013 年成立山东骏翔新材料科技发展有限公司，注册资本 2000 万元人民币，主要从事全生物降解复合材料汽车内饰件的研制、开发和生产，与上汽电动汽车、荣威签订年配套 20 万辆的全生物降解复合材料汽车内饰件协议。

三、项目内容及建设规模

项目净用地 152 亩，规划建筑面积 6.3 万平方米，主要建设生产车间、研发中心、仓库和综合楼等。全部投产后年可生产乘用车内饰件 500 万套。

四、项目建设条件

项目位于乳山市新兴产业园，水、电、天然气、路、网设施齐全。目前项目 1、2 号单个 1 万平方米钢构车间主体全部完工。

五、项目总投资

总投资 8000 万美元

六、市场及经济效益分析预测

项目建成后，全部达产年可实现产值 6 亿元人民币，实现利税 1 亿元人民币。公司拥有多项国家专利，产品质优价廉，技术含量高，除应用汽车领域外，产业链还可延伸至航空、高铁、农业、纺织、建材、装饰领域，能够为企业带来具大的经济效益。

I. Name of the project

Shandong Zhongji Mould Co., Ltd. Auto-interior Decorative Composite R&D and Production Project

II. Introduction of the project unit

Shandong Zhongji Mould Co., Ltd. owns RMB45 million of fixed assets, mainly engaged in designing and processing of various moulds as well as R&D and manufacturing of special grinding equipment; possesses 86 employees currently, including 32 engineering technicians and 13 personnel with senior professional and technical titles; have RMB120 million of annual sales revenue and RMB20 million of annual profit. In 2013, Shandong Junxiang New Materials Technology Development Co., Ltd. was founded with a registered capital of RMB20 million, mainly engaged in R&D and production of full-biodegraded composite automotive upholstery, and has signed the agreement on full-biodegraded composite automotive upholstery for 200,000 automobiles with Shanghai Automotive Industry Corporation (Group) – Roewe.

III. Project content and construction scale

The project covers a net developable area of 152 mu with a planned floorage of 63,000 m², mainly aiming to construct manufacturing workshops, R&D centers, warehouses and a complex building, etc. After being put into full operation, it will be able to produce 5 million sets of automotive upholstery.

IV. Construction condition

The project is located in Rushan Emerging Industry Park, well-equipped with water, electricity, natural gas, road and network facilities. The main engineering of No.1 and No.2 single 10,000 m² steel-structured workshop has been completed.

V. Total investment

USD 80,000,000

VI. Market and economic benefit analysis & forecast

Upon the completion, it would be able to achieve an annual output value of RMB600 million and a profit and tax of RMB100 million. The company owns several national patents, offers products with superior quality, competitive price and high technologies. Besides the automobile application area, its industrial chain involves aviation, high-speed railway, agriculture, spinning, building material and decoration, capable of bringing huge economic benefits.

NO.29

一、项目名称

山东新华制药股份有限公司现代医药国际合作中心项目

二、项目单位简介

山东新华制药股份有限公司成立于1943年11月，注册资本4.57亿元，是H股、A股上市公司，是我国重点骨干大型制药企业、亚洲最大的解热镇痛类药物生产与出口基地，以及国内重要的心脑血管类、抗感染类及中枢神经类等药物生产企业。现有员工6000余人，企业总资产45亿元。2015年公司实现营业收入36亿元，利润1.2亿元，利税4.5亿元。

三、项目内容及建设规模

1.主要建设内容：建设固体制剂加工车间及配套仓储物流中心。该项目按照cGMP标准设计和建设，建成后将进行美国FDA、欧盟等质量体系认证，产品在完成NDA和ANDA注册后销往规范市场，设备先进、工艺处方和质量管理完全符合国际标准。

2.建设规模：项目总建筑面积7.6万平方米，年产固体制剂200亿片（粒、袋），包括片剂、硬胶囊剂、软胶囊剂、颗粒剂、分散片、泡腾片等多种剂型。

四、项目建设条件

项目立项、环评、规划、土地、能评等建设手续齐全。所在园区水、电、汽、道路、消防等配套齐全。目前，项目厂房已经完成主体封顶，正开展内部净化装修和设备安装；配套仓库正在开展设备购置；全部项目预计2017年3季度具备生产、使用条件。

五、项目总投资

项目总投资13000万美元。

六、市场及经济效益分析预测

本项目全部达产后，年可新增销售收入20亿元，利润3亿元。

七、合作方式

合资、委托加工、产品转让等均可。

NO.29

I. Name of the project

Shandong Xinhua Pharmaceutical Co., Ltd. Modern International Medical Cooperation Center Project

II. Introduction of the project unit

Shandong Xinhua Pharmaceutical Co., Ltd. was founded in November 1943 with a registered capital of RMB457 million, and is a listing company of H shares and A shares, serving as a backbone large-scale pharmaceutical manufacturer in China, the largest manufacturing & exporting base of analgesic & antipyretic drugs in Asia, and an important domestic manufacturer of the drugs for cardiovascular and cerebrovascular diseases, anti-infection, central nervous system, etc. The company now has more than 6,000 employees with total assets of RMB4.5 billion. In 2015, the company achieved a operating revenue of RMB3.6 billion, a profit of RMB120 million, and a profit and tax of RMB450 million.

III. Project content and construction scale

1. Main construction contents: to construct solid preparation processing workshops and a supporting warehouse logistics center. The project will be designed and constructed in accordance with the Good Manufacturing Practice (GMP), attain the quality system certification from the USA Food and Drug Administration (FDA) and the European Union, etc. upon its completion, and its products will be sold to standard markets after getting the New Drug Application (NDA) and Abbreviated New Drug Application (ANDA) registration, so that the company's advance equipment, preparation technology & prescription and quality management fully comply with the international standards.

2. Construction scale: The project has an overall floorage of 76,000m², and is planned to manufacture 20 billion tablets (pills or packs) of solid preparations annually, including various forms of drug, such as tablet, hard capsule, soft capsule, granule, dispersible tablet, effervescent tablet, etc.

IV. Construction condition

All the construction procedures for project establishment, environmental impact assessment, planning, land utilization, energy technology assessment, etc. have been handled, and the area is well-equipped with water, electricity, gas, road, fire fighting facilities. At present, the main engineering of the project has been completed, and the internal purification and decoration as well as equipment installation are in progress; equipment procurement for the supporting warehouse is in progress; and the entire project is planned to be equipped with full manufacturing and working conditions in the third quarter of 2017.

V. Total investment

USD 130 million

VI. Market and economic benefit analysis & forecast

RMB 2 billion of sales revenue and RMB 300 million of profit will be achieved annually upon its completion.

VII. Way of cooperation

Joint investment, manufacturing consignment, or product transfer

VIII. Contact information

Contact address: No.1, Lutai Avenue, New & High-tech Industrial Development Zone, Zibo

Contact person: Guo Yongjun

NO.30

一、项目名称

鲁抗生物医药循环经济产业园高端原料药生产项目

二、项目单位简介

山东鲁抗医药股份有限公司成立于 1966 年，注册资本 58158 万元，A 股上市公司（股票代码 600789）；主要从事人用、兽用抗生素产品的生产和销售，是国内重要的抗生素生产基地，国务院确定的全国 1000 家重点企业和 520 家优先扶持的国有大型企业之一。现有员工 6000 余人，具有大专以上学历技术人员 2600 余人；截止到 2015 年底公司拥有总资产 40 亿元，2015 年实现销售收入 24 亿元，利税 1.35 亿元。

三、项目内容及建设规模

1.主要建设内容：大观霉素、超级泰乐菌素、半合青类冻干无菌原料药、酶法阿莫西林、乙酰螺旋霉素等 20 余个原料药及中间体以及高浓废水及菌渣综合处理循环利用、兽药研发中心等 7 个配套公用系统项目。

2.项目建设规模：该项目占地面积 300 亩，全部项目建设完成后形成年产 1783 吨人用合成原料药及医药中间体和 24 万十亿单位大观霉素原料药的生产能力。

四、项目建设条件

项目资金已落实，已完成备案、规划、能评、环评、安评等前期手续，所在园区前期已有泰乐菌素、盐霉素等产品入驻，运行情况良好，各项公用配套设施（水、电、汽、气）齐全，可以满足鲁抗生物医药循环经济产业园建设项目的生产需求。

五、项目总投资

项目总投资 12900 万美元。

六、市场及经济效益分析预测

本项目全部投产后，年可实现销售收入 8.96 亿元，实现利润 1.12 亿元。

七、合作方式

以资金、产品、技术入股，进行合资合作。

八、联系方式

NO.30

I. Name of the project

Shandong Lukang Pharmaceutical Co., Ltd. High-end Crude Drug Manufacturing Project

II. Introduction of the project unit

Shandong Lukang Pharmaceutical Co., Ltd. was founded in 1966 with a registered capital of RMB581.58 million, and is a listed company of A shares (stock code: 600789); mainly engaged in manufacturing and marketing of antibiotic products for the use of both human and animal, serving as a key production base for antibiotics in China and one of the 1000 key enterprises determined by the State Council and 520 state-owned large-scale enterprises enjoying preferential supporting policies. It has more than 6,000 employees, including over 2600 technical staff with college degree or above; as of the end of 2015, the company possessed a total assets of RMB4 billion, and achieved RMB2.4 billion of sales revenue of and RMB135 million of profit & tax.

III. Project content and construction scale

1. Main construction contents: over 20 items of crude drugs and intermediates, such as spectinomycin, super tylosin, semi-synthetic freeze-dried sterile crude drug, amoxicillin synthesized by enzymatic method, acetylspiramycin, etc., and 7 supporting public system projects, including comprehensive treatment and cyclic utilization of high-concentration wastewater and mushroom dreg, veterinary medicine R&D center, etc.

2. Project construction scale: the project covers an area of 300mu, and upon the full completion, the project will form a production capability of annual 1,783t of synthetic crude drugs and medical intermediates for human use as well as 240,000 billion u of spectinomycin crude drugs.

IV. Construction condition

The project fund has been settled, the preliminary procedures, including project filing, planning, energy technology assessment, environmental impact assessment, safety assessment, etc. have been handled, and products, such as tylosin and salinomycin, have been put into production in the earlier stage and are running in good condition, all types of public supporting facilities (water, electricity, gasoline, gas) are well-equipped, being capable of meeting the requirements for production of the Lukang bio-pharmaceutical circular economy industrial park construction project.

V. Total investment

USD 129,000,000

VI. Market and economic benefit analysis & forecast

RMB 896 million of sales revenue and RMB 112 million of profit will be achieved annually upon its completion.

VII. Way of cooperation

Joint investment and cooperation in the form of capital, product or technology investment

NO.31

一、项目名称

东营瑞达生物科技有限公司乳免疫蛋白精深加工项目

二、项目单位简介

东营瑞达生物科技有限公司位于东营农业高新技术产业示范区生态科技城内，成立于2014年5月21日，注册资金2500万元，是一家从事高端生物技术研发、生产，国际高科技项目引进与推广、国际商业项目合作等为一体的新兴高新技术企业。

三、项目内容及建设规模

占地45亩，建筑面积1.8万平方米。主要建设生产车间和配套公共设施，购置奶油分离机、RO纯水制取装置、膜分离装置等生产设备，同时完善消防、安全等配套设施；建设国家一、二类蛋白药物的临床试验及研制中心。

四、项目建设条件

项目中试完成。

五、项目总投资

总投资8700万美元

六、市场及经济效益分析预测

项目凭借品种繁多、门类齐全的高技术、高附加值的系列产品，颠覆传统乳业，带动和促进我国农业、养殖业、乳品业、食品业、医药、保健、日化等行业的发展，建立和形成一条完全崭新的有强大生命力的可持续发展的产业链。

I. Name of the project

Dongying Ruida Biological Technology Co., Ltd. Milk Immune Proteins Deep-processing Project

II. Introduction of the project unit

Dongying Ruida Biological Technology Co., Ltd. is located in the Ecological Science & Technology City of Dongying Agricultural New & High-tech Industrial Demonstrative Zone, founded on May 21, 2014 with a registered capital of RMB25 million, serving as an emerging high-tech enterprise engaged in high-end biotechnology R&D and production, and integrated with international high-tech project introduction & promotion and international commercial project cooperation, etc.

III. Project content and construction scale

The project covers an area of 45mu with a floorage of 18,000m². The contents of the project mainly include: construct manufacturing workshops and supporting public facilities, purchase cream separator, RO pure water preparation device, membrane separation device, and other manufacturing equipment, and improve the facilities for fire fighting and safety; construct national clinical test and development centers for Class-I and Class-II protein drugs.

IV. Construction condition

The pilot test of the project has been finished.

V. Total investment

USD 87,000,000

VI. Market and economic benefit analysis & forecast

Relying on wide varieties, complete high technologies and series products with high value-added, the project made breakthroughs in the traditional dairy industry, drove and promoted the development of various industries in China, such as agriculture, breeding industry, dairy industry, food industry, pharmaceutical industry, health care and household necessities, etc., and established and formed a brand new strong sustainable industrial chain.

NO.32

一、项目名称

淄博国利新电源科技有限公司镍氢动力电池建设项目

二、项目单位简介

公司创立于2010年12月，注册资本1亿元，主要致力于电容型镍氢动力电池的研发与生产。自2011年5月19日第一块电容型动力电池诞生以来，公司相继成功研发出两大类、10个品种的产品，可广泛作为纯电动公交车、纯电动轿车、工程车、巡逻车、火车、轮船、飞机、各类军事装备以及其它工业与公共设施系统的动力电源或储能电源使用。

三、项目内容及建设规模

项目占地154亩，年产12亿Ah电容型镍氢动力电池建设项目。项目占地面积102667平方米（合154亩），总建筑面积114060平方米其中：生产车间61740平方米，保养中心7056平方米，仓库5880平方米，办公楼19784平方米综合楼19600平方米。

四、项目建设条件

需新征土地150亩，初步选址于淄博高新区电子信息产业园区，交通便利，水电等配套齐全、容量充足，周边布局有多家新能源行业的相关企业，产业条件优越。

五、项目总投资

总投资15500万美元

六、市场及经济效益分析预测

项目全部建成达产后，预计年新增销售收入60亿元，新增就业岗位200个，经济效益和社会效益都很可观。

七、合作方式

NO.32

I. Name of the project

Zibo Guoli New Power Source Technology Co., Ltd. NI-MH Power Battery Construction Project

II. Introduction of the project unit

The company was founded in December 2010 with a registered capital of RMB100 million, mainly engaged in R&D and production of capacitive nickel-metal hydride (NI-MH) power battery. Since the production of the first capacitive power battery on May 19, 2011, the company successfully developed two categories and 10 types of products in succession which can be widely used for power battery or stored energy of all-electric buses, all-electric cars, technical vehicles, cruisers, trains, steamships, all types of military equipment as well as other industrial and public facility systems.

III. Project content and construction scale

Covering 154mu of landing area, the project is a construction project with an annual production of 1.2 billion Ah capacitive NI-MH power batteries. It covers an area of 102,667m² (equivalent to 154mu) with an overall floorage of 114,060m², among which, manufacturing workshop accounts for 61,740m², maintenance center accounts for 7,056 m², warehouse accounts for 5,880 m², office building accounts for 19,784 m² and complex building accounts for 19,600m².

IV. Construction condition

The project requires an extra land area of 150mu and is planned to be sited in Zibo New & High-tech Electronic Information Industrial Park where the transport is very convenient, supporting facilities such as water and electricity etc. are well-equipped, and several enterprises relevant to the new energy industry are located nearby, showing superior industrial conditions.

V. Total investment

USD 155,000,000

VI. Market and economic benefit analysis & forecast

After the entire project is completed and reaches the standard, it is predicted that an annual sales revenue of RMB6 billion can be realized, 200 employment positions will be provided, and considerable economic and social benefits will be achieved.

VII. Way of cooperation

Joint investment and cooperation

一、项目名称

郓城利特新能源科技有限公司动力电池和电容器项目

二、项目单位简介

郓城利特新能源科技有限公司，注册资本 8000 万元，现有员工 200 余人。从事石墨烯材料的研究、生产、销售；蓄电池、锂电池的生产销售。具有设计年产 2000 万只高性能储能动力电池和超级电容储能器生产能力。

三、项目内容及建设规模

项目占地 300 亩，以中组部“千人计划”海外特聘专家侯士峰博士为技术核心，主要生产启动型、动力型、储能型、牵引性免维护蓄电池、新型石墨烯基离子动力电池和超级电容器。

四、项目建设条件

石墨烯基锂离子动力电池产品性能优越，随着低碳经济日益受到重视，未来超级电容器的市场潜力巨大。

五、项目总投资

总投资 10000 万美元

六、市场及经济效益分析预测

项目投产后，年实现销售收入 35 亿元，实现利税 6 亿元，投资回收期 1.8 年。

I. Name of the project

Yuncheng Lite New Energy Technology Co., Ltd. Power Battery and Capacitor Project

II. Introduction of the project unit

Yuncheng Lite New Energy Technology Co., Ltd. has a total of over 200 employees, with a registered capital of RMB80 million, engaged in researching, manufacturing and marketing of graphene materials; manufacturing & marketing of storage battery and lithium battery. The company is equipped with capability of producing 2,000 high-performance energy storage batteries and super-capacitors annually.

III. Project content and construction scale

The project covers an area of 300mu, and is under the core technological guidance of Dr.Hou Shifeng, an expert of the Organization Department of the Central Committee of the CPC specially invited through the “Recruitment Program of Global Experts”. The contents of the project mainly include the production of start-up, power, storage and traction maintenance-free batteries, as well as new graphene base ion power batteries and super capacitors.

IV. Construction condition

Graphene base ion power batteries have superior product performance, and with the increasing importance attached to the low-carbon economy, supercapacitors will have high market potentials in the future.

V. Total investment

USD 100,000,000

VI. Market and economic benefit analysis & forecast

Upon the completion, the project will annually achieve RMB3.5 billion of sales revenue and RMB600 million of profit & tax, and the payback period will be 1.8 years.

一、项目名称

威海拓展纤维有限公司碳纤维产业园项目

二、项目单位简介

威海拓展纤维有限公司成立于 2002 年，注册资本 6.5 亿元，现有总资产 16 亿元，拥有员工 600 余人，是专门从事碳纤维及其制品研制与开发的军工高新技术企业。公司拥有碳纤维制备及工程化国家工程实验室、博士后科研工作站、中俄新材料合作研发中心及山东省碳纤维及制品工程技术研究中心等技术研发平台。

三、项目内容及建设规模

碳纤维产业园项目位于威海市临港区 202 省道西侧、江苏中路南侧，规划占地约 2500 亩，一期规划总建筑面积约 30 万平米，计划将碳纤维产业园项目打造成国家级碳纤维及复合材料技术创新中心，产值过千亿元，形成名符其实的“国家碳纤维及其复合材料产业基地”。

四、项目建设条件

园区已于 2016 年开工建设，主要建设内容为孵化区内碳纤维研究院、职工公寓以及中试车间。

五、项目总投资

总投资 25000 万美元

六、市场及经济效益分析预测

本项目全部验收完毕、投产并形成规模后，方可见市场经济效益。

I. Name of the project

Weihai Tuozhan Fiber Co., Ltd. Carbon Fiber Industrial Park Project

II. Introduction of the project unit

Weihai Tuozhan Fiber Co., Ltd. was founded in 2002 with a registered capital of RMB650 million, and has RMB1.6 billion of total assets and over 600 employees, serving as a military high-tech enterprise specialized in R&D of carbon fiber and its products. The company possesses several technical research platforms, including the national engineering laboratory of carbon fiber preparation and engineering, the postdoctoral research center, the Sino-Russia new material cooperative R&D center and Shandong carbon fiber and product engineering and technological research center.

III. Project content and construction scale

The Carbon Fiber Industrial Park Project is located in the west of Provincial Road 202 and south of Middle Jiangsu Road, Weihai International Port Economic and Technological Development District, planned to be covering an area of about 2,500mu of which first stage will have a planned overall floorage of 300,000 m². It is planned to be built into a national carbon fiber and composite technology innovation center with an output value of over RMB100 billion, so as to form a real “national carbon fiber and its composite industrial base”.

IV. Construction condition

The construction of the park has started in 2016, and the construction contents mainly include constructing the carbon fiber research institute in the incubating area, staff dormitories and pilot plants.

V. Total investment

USD 250,000,000

VI. Market and economic benefit analysis & forecast

The considerable economic benefits will be seen after the project is completed, accepted and put into production, and the scale is reached.

I. Name of the project

Shandong Wantai Enterprise & Investment Co., Ltd. Upscale Fabric and Clothing Project

II. Introduction of the project unit

Shandong Wantai Enterprise & Investment Co., Ltd. was founded in May 2004, possessing two subsidiaries, No.1 Cotton Textile Mill and No.2 Cotton Textile Mill, with a registered capital of RMB40 million, and under the control of China Orient Asset Management Co., Ltd. The factory area of the enterprise is located in No.58, Qingtan Road, Shizhong District, Zaozhuang, covering an area of 550mu. It is a large-scale textile enterprise with 46 years of history, and has more than 5200 employees currently, including over 80 technicians of each specialty.

III. Project content and construction scale

Construct production plants with a floorage of 428,000m² and manufacturing workshops with a floorage of 317,100 m², so as to achieve the goal of annual producing 57.5 million meters warp and weft elastic upscale fabric and 50 million pieces of upscale double elastic fabric clothing.

IV. Construction condition

The project is sited in Zaozhuang Economic Development Zone where the infrastructures, such as road, power supply, water supply, communications, etc. are well-equipped to a high standard and the conditions of “seven accesses and site leveling” (seven accesses: water supply, water drainage, power supply, road access, communication, central heating, and natural gas or coal gas) are realized which enhanced the carrying capacity and attracted the settlement of a series of projects in the development zone.

V. Total investment

USD 200,000,000

I. Name of the project

Shandong Kunyu New Materials Co., Ltd. Carbon Fiber Composite Manufacturing Project

II. Introduction of the project unit

The company was founded in August 2015 with a registered capital of RMB50 million, under the full control of Decheng Holding Industrial Co., Ltd., a subordinate enterprise of the State-owned Assets Supervision and Administration Commission, mainly engaged in carbon fiber products R&D, manufacturing and marketing, overhead cable manufacturing and marketing and petroleum engineering supporting service. As of September 2016, the company possessed RMB490 million of total assets, RMB137.23 million of fixed assets, and an asset-liability ratio of 35.18%.

III. Project content and construction scale

The company covers a land area of 43mu with an overall floorage of 28,820m². The contents of the project include constructing 2 manufacturing workshops, 1 warehouse, a R&D building, and other facilities, and purchasing 962 (sets of) production equipment. After the project is put into production, it will annually produce 40,000km overhead conductor mandril made of carbon fiber reinforced polymer composites, 3,000,000m sucker rods made of high-strength and high-toughness carbon fiber continuous composites, and 2,000,000m reinforcement plates made of carbon fiber composites.

IV. Construction condition

The construction procedures for project establishment, land utilization, planning and environmental impact assessment have been handled, and the construction of the project is planned to start in December 2016.

V. Total investment

USD 185,000,000

一、项目名称

东营港经济开发区聚酯纤维 PET 项目

二、项目单位简介

东营港经济开发区是 2006 年 4 月份经省政府批准设立的省级经济开发区，是国家级石油化工产业区，是黄河三角洲开发建设重点发展区，规划面积 232 平方公里，重点发展生态化工、电力能源、现代物流和战略新兴等临港产业。开发区所依托的东营港是国家一类开放口岸，是国务院批复的黄河三角洲区域中心港。

三、项目内容及建设规模

建设 30 万吨/年聚酯纤维 PET 项目，建设内容包括装置反应部分以及配套设施。

四、项目建设条件

东营港经济开发区拥有良好的政策环境。目前，东营港已实现对外开放，疏港高速公路已全线开通，园区基础设施配套完善，拥有区位、土地、淡水、交通等多项优势，具备承接大型项目的条件。

五、项目总投资

总投资 15000 万美元

六、市场及经济效益分析预测

项目全部投产后，每年可新增销售收入 33 亿元，利润 2 亿元。

NO.40

一、项目名称

山东省投资有限公司美元矿业价值投资基金项目

二、项目单位简介

山东省投资有限公司成立于 2015 年，是山东省鲁信投资控股集团有限公司的全资子公司，注册资本人民币 3 亿元，经营范围为外汇资产受托管理、对外委托投资、境内外金融产品 & 股权投资、发起设立股权投资基金及基金管理公司、委托金融机构贷款等业务。

三、项目内容及建设规模

美元矿业价值投资基金目标规模 10 亿美元，首期规模 1.1 至 1.15 亿美元。其中，山东省鲁信投资控股集团有限公司全资子公司鲁信投资有限公司拟认缴 1 亿美元，加拿大斯普洛特资产管理集团你认缴 0.1 至 0.15 亿美元，后续出资将根据实际投资需求募集。基金专注于海外矿业上市公司财务性投资，包括海外矿业上市公司长期股权投资、债权投资，二级市场投资等。

四、项目建设条件

经过 2015 年的探底和 2016 年上半年的触底回升，综合考虑经济运行和矿业变化周期，预期未来 5 年矿产资源市场处于谷底上下波动、并逐步进入上升阶段，目前处于矿业逆周期投资并购的较好时间窗口。

五、项目总投资

美元矿业价值投资基金我方首期认缴金额为 1 亿美元，后续出资将根据实际投资需求募集

六、市场及经济效益分析预测

矿业下行周期内，预期年化平均收益率不低于 7%；矿业平行周期内，预期年化平均收益率不低于 10%；矿业上行周期内，预期年化平均收益率不低于 20%。

七、合作方式

公司选择加拿大斯普洛特资产管理集团作为合作伙伴，共同出资成立美元矿业价值投资基金，共同成立基金管理公司。

NO.40

I. Name of the project

Shandong Investment Co., Ltd. U.S. Dollar Mining Value Investment Fund Project

II. Introduction of the project unit

Founded in 2015 with a registered capital of RMB300 million, Shandong Investment Co., Ltd. is a wholly-owned subsidiary of Shandong Luxin Investment Holdings Group Co., Ltd., and its business scope involves commissioned foreign exchange assets management, investment commission, financial product and equity investment at home and abroad, establishment of equity investment fund and fund management company, commission of loans to financial institutions, etc.

III. Project content and construction scale

The planned scale of the U.S. Dollar Mining Value Investment Fund Project is USD1 billion, with USD110-115 million in the first stage. Among which, Shandong Investment Co., Ltd., the wholly-owned subsidiary of Shandong Luxin Investment Holdings Group Co., Ltd., plans to contribute USD100 million, Canada Sprott Asset Management plans to contribute USD10-15 million, and the follow-up contribution will be raised in accordance the actual investment requirement. The fund focuses on financial investment in listed mining enterprises overseas, including long-term equity investment, debt investment, secondary market investment, etc.

IV. Construction condition

After touching the bottom in 2015 and rising again in the first half of 2016, taking economic operation and mining industry's changing cycle into overall consideration, it is predicted that the mining resource market will keep fluctuating around the bottom and gradually step into a rising stage in the next 5 years, so that this moment is a good timing of investment and M&A in the conversion period of mining.

V. Total investment

Our company plans to contribute USD100 million to the first stage of the U.S. Dollar Mining Value Investment Fund Project, and the follow-up contribution will be raised in accordance the actual investment requirement.

VI. Market and economic benefit analysis & forecast

During the downturn of mining, the estimated average annual yield will be no less than 7%; during the stable period, the estimated average annual yield will be no less than 10%; and during the rising stage, the estimated average annual yield will be no less than 20%.

VII. Way of cooperation

The company chose Canada Sprott Asset Management as the cooperative partner to jointly invest and establish the U.S. Dollar Mining Value Investment Fund, and to jointly establish the fund management company.

NO.47

一、项目名称

山东高速潍坊港临港物流产业园项目

二、项目单位简介

山东高速交通物流投资有限公司成立于 2011 年 5 月，注册资本 3 亿元。2014 年 9 月份，山东高速物流集团有限公司向该公司增资，增资后公司注册资本 11.949 亿元。投资公司负责港口及物流园项目的建设开发及后期运营管理，当前正处于工程建设攻坚阶段。公司目前从业人员 47 人，2016 年实现收入 15000 万元，实现利润 150 万元。

三、项目内容及建设规模

物流园项目位于潍坊滨海经济开发区沿海防护堤以南、新弥河坝以东、森达美物流园以西及以南的连片区域内，项目总占地约 1.3 万亩。一期 4000 亩主要规划建设鲁辽陆海联运客运枢纽中心、商品车分拨中心、工程机械和农用机械配送基地、集装箱场站集中区、综合保税物流中心、智慧物流配送中心、冷链物流中心、建材加工贸易区等。

四、项目建设条件

项目建设地点距济青高速公路 45 公里，距胶济铁路 50 公里，邻近疏港公路和疏港铁路，区位优势明显，交通便利，市场空间大。潍坊市滨海区产业基础好，配套设施齐全，综合成本低，政府招商引资优惠政策吸引力强，项目建设条件良好。

五、项目总投资

总投资约 31208 万美元。

六、市场及经济效益分析预测

本项目投产后，每年可新增销售收入 5.41 亿元，实现利润 1.39 亿元。

七、合作方式

引进战略投资者，创新运用资本手段拓展融资渠道，实施股权融资、带资建设及股权信托等融资方式，实现资金来源多元化，合理运用资本杠杆功能，实现以小博大，进而达到合作双方共赢共享。

NO.47

I. Name of the project

Port-vicinity Logistics Industry Park project in Shandong Hi-speed Weifang Port

II. Introduction of the project unit

Shandong Hi-speed Transport Logistics Investment Co., Ltd was founded in May, 2011 with the registered capital of 300 million yuan. And then the registered capital has been increased to 1.1949 billion yuan due to the capital increase by the Shandong Hi-speed Logistics Co., Ltd in September, 2014. The investment company is responsible for the construction, development and operation management in later period of the port and the logistics park which is now under the crucial problem solving stage. There are now 47 employees at present of the company, and then the income of RMB 150 million and profit of RMB 1.5 million has been achieved in 2016.

III. Project content and construction scale

The logistics park is located in the continuous area of south of the coastal fending groyne of the Weifang Binhai Economic Development Zone, east of the New Mi River dike, west and south of the Sime Darby Logistics Park with the total project area of about 13,000 mu. The 4000mu for Phase I is planned to construct the Shandong-Liaoning Land-sea Passenger Transport hub, allocation center for commercial vehicles, dispatch base for engineering machinery and agricultural machinery, the concentration district for containers yard, the comprehensive bonded logistics center, intelligence logistics dispatch center, cold chain logistics center, the trade zone for construction material processing and others.

IV. Construction condition

The construction place of the project is 45 kilometers away from the Jinan-Qingdao Expressway, 50 kilometers away from the Jiaozhou-Jinan Railway and close to the Dredging Harbor Highway and the Dredging Harbor Railway which is still with obvious position advantage, convenient transportation and large market space. Binhai District of Weifang has a sound industrial base and perfect supporting facilities, requiring low comprehensive cost and being very attractive to foreign businesses and investment with the help of the preferential policies issued by the government, thus it is well-equipped for project construction.

V. Total investment

USD 312,080,000

VI. Market and economic benefit analysis & forecast

RMB541 million of sales revenue and RMB139 million of profit will be achieved annually upon its completion.

VII. Way of cooperation

To introduce strategic investors, extend financing channels using innovative capital means, carry out equity financing, capital construction, equity trust and other financing methods to achieve the diversification of capital source, and then the capital leverage function will be rationally utilized to catch a whale by throwing a sprat and then to achieve mutual-win and sharing for both parties.

一、项目名称

青岛国信集团海洋牧场项目

二、项目单位简介

青岛国信蓝色硅谷发展有限责任公司是青岛国信集团一级子公司，成立于2012年，注册资本10.1亿元，资产总额18.44亿元，员工约20人。公司先后承担海洋国家实验室、市政道路、南泊河河道改造等项目建设，目前正推进海洋牧场、海洋食品精深加工产业园、蓝谷孵化园等项目。2016年营业收入约2793万元，利润总额约2283万元，税收约1176万元。

三、项目内容及建设规模

拟于即墨市田横岛周边海域建设30万亩海洋牧场，项目含人工鱼礁、底播海珍品、网箱养殖、筏式养殖及投放经济鱼苗等，并在相关陆地、海岛建设苗种繁育、工厂化养殖、冷链物流以及休闲渔业等配套设施，并针对海洋食品精深加工拟建设国信海洋食品精深加工产业园，综合发展苗种繁育、养殖、加工、冷链物流及海岛旅游、休闲渔业一体化完整产业链，打造“高端、生态、龙头、品牌”的格局。

四、项目建设条件

2016年已与即墨市召开海洋产业投资专题会，即墨市将大力支持海洋牧场、休闲渔业和海洋食品精深加工等项目开发，正积极推进项目投资开发协议签订工作。

五、项目总投资

总投资约71945.55万美元。

六、市场及经济效益分析预测

项目全部投产后，将满足居民对优质海珍品及高品质休闲渔业服务的需求，主营业务为海珍品苗种繁育、海产品销售、观光渔业、海岛旅游等，具有广阔的市场前景。

七、合作方式

以合作共赢、共同发展为原则，欢迎外资积极参与项目投资建设，并支持在技术、管理、服务等多方面进行合作。

NO.55

I. Name of the project

Marine Ranching project of the Qingdao Conson Development (Group)

II. Introduction of the project unit

Qingdao Blue Silicon Valley Development Co., Ltd is the branches at the subordinate level, founded in 2012 with the registered capital of 1.01 billion, the total asset of 1.844 billion yuan and about 20 employees. The company has undertaken the construction of the National Laboratory for Marine, municipal roads, waterway transformation of the Nanbo River and other projects successively, and now it is carrying forward the marine ranching, fine and intensive processing industry park for marine food, blue silicon valley incubator park and other projects. In 2016, the operation income is about 27.93 million yuan, the total profit is about 22.83 million yuan and the tax is about 11.76 million yuan.

III. Project content and construction scale

A marine ranching of 300,000 mu is planned to be constructed in the adjacent sea area of the Tianheng Island of Jimo City, the project including artificial fish reef, bottom sowing precious marine product, cage culture, raft culture, economical fry putting and others, construction of larval rearing, industrial aquaculture, cold chain logistics, recreational fishery and supporting facilities in relevant land and sea land. And Conson Fine and Intensive Processing Industry Park for Marine Food is planned to be built for marine food so as to develop the entire industry chain integrated larval rearing, cultivation, processing, cold chain logistics, sea island tourism, recreational fishery into one and to build the pattern of “high-end, ecological, leading and branding”.

IV. Construction condition

In 2016, thematic conference on investment in marine industry has been conducted with the Jimo city, which means the development of the marine ranching, recreational fishery and fine and intensive processing of marine food and other projects are supported by the Jimo city, and the signing of the development agreement for the investment of the project is in progress.

V. Total investment

USD 719,455,500

VI. Market and economic benefit analysis & forecast

After the whole project is put into production, it will satisfy the demand of residents for superior precious marine product and high qualified recreational fishery services. The main businesses are larval rearing of precious marine products, marketing of marine food, sightseeing fishery, sea island tourism and others, which is with extensive market prospect.

VII. Way of cooperation

In the principle of cooperation, mutual win and common development, we welcome foreign investment to participate in the investment and construction of the project, and to cooperate in technology, management, services and other aspects.

NO.56

I. Name of the project

National Distant Water Fishery Base project in Shawo Island of Rongcheng city

II. Introduction of the project unit

Jinghai Group was founded in 1978 with 3800 employees at present and 3.63 billion yuan of the total asset, which is mainly engaged in distant water fishing, mariculture, marine health manufacturing, ship repairing and building and fishing port trade. In 2015, the total business income is 200 to 160 million yuan and the taxation of profit is 360 million yuan. The company has been awarded as the “important leading enterprise in agriculture industrialization country”, “healthful aquaculture demonstration farm at ministerial level”, “fine and intensive processing industry park for distant water marine food and cold chain logistics base in Shandong province” and other honorable titles successively. Rely on the Center Fishing Port in Shawo Island, the first batch of national civilized fishing ports and other functional areas, the region has been approved to be the distant water fishery base at the national level by the Ministry of Agriculture.

III. Project content and construction scale

To build the “one base, two ports, three areas, four parks and five centers”, “one base” refer to the distant water supply base of ship fuel and materials (tax exemption), “two ports” refers to the Center Fishing Port in Shawo Island at the national level, outfitting quay and specialized wharf for marine products, “three areas” refers to the international comprehensive trade area for distant water food, public comprehensive bonded area, recreational fishery and service industry area, “four parks” refers to the fine and intensive processing park for distant water food, cold chain logistics park for distant water food, Binhai leisure ecological tourism park in fishing port and repairing and building park for distant water ships, “five centers” refers to the international distant water fishery exhibition center, international transportation center for containers of marine food, test and research center for marine food processing in distant water, e-commerce center for fishery in distant water and testing center for ships in distant water.

IV. Construction condition

The good geographical advantage and unique natural conditions are the support. The marine and land transport for the company is convenient, which can radiate the Shandong Peninsula inside and lead to the national strategic area to the Pacific Ocean outside and it is very easy to attract fishing boats of Korea, Russia and other countries that manufactured in the north Pacific Ocean and the western and central Pacific Ocean to take it as the port for supply and even base port for trade.

V. Total investment

USD 300,000,000

VI. Market and economic benefit analysis & forecast

An annual increased marketing volume of 20 billion yuan can be achieved after the complete production of this project.

I. Name of the project

Seafood Cultivation and Fine and Intensive Processing project by the Rushan Huaxin Food Co., Ltd

II. Introduction of the project unit

Huaxin Food was jointly invested by the Rushan Zhengyang Food Co., Ltd, the Beijing Hongta Innovation Investment Co., Ltd and the Fujian Huachang Food Co., Ltd with the Total investment of 1 billion yuan, the planned construction area of 150,000 square meters, which has mainly constructed the “full industry” seafood industry park that integrated seafood cultivation, R&D, fine and intensive processing and logistics into one. At present, there are more than 1600 employees and the sales revenue can reach 1.3 billion yuan and the export and import trade can be 300 million yuan in 2016.

III. Project content and construction scale

The investment of Phase I is 200 million yuan, the planned construction area is 77,000 square meters and seafood processing workshop, packaging workshop, maintenance workshop, dynamic workshop, refrigeration storage, office building and others are newly built. There are 9 various kinds of new production lines respectively, which are mainly engaged in the intensive processing of shellfish, algae and fish products. 300 million yuan has been invested to build new premises in the workshop, workshop and R&D center in Phase II for new collagen peptide, biological enzyme and other biological, scientific and marine organism pharmaceutical projects. 500 million yuan has been invested to mainly cultivate the three industries of mariculture, marine fishing and leisure fishery so as to promote the implementation of the construction of the modern fishery park area, marine ranching, cold chain logistics of aquatic food, leisure fishing base and other major projects and now 40,000 mu of marine ranching has been developed.

IV. Construction condition

This project is planned to be constructed in the Rushan Economic Development Zone which is with complete facilities of water, electricity, natural gas, road and network. The project is well-equipped for industrial production.

V. Total investment

USD 145,000,000

VI. Market and economic benefit analysis & forecast

RMB 1.5 billion of sales revenue and RMB 500 million of profit will be achieved annually upon its completion.

NO.59

I. Name of the project

Meat duck, edible mushroom and forest-fruit industrialized project in Zoucheng

II. Introduction of the project unit

Zoucheng city is located in the southwest of Shandong province, which belongs to the continental monsoon climate zone in East Asia with four distinctive season, concentrated rainfall, synchronized rain and heat, quite abundant light, heat and rainfall resource and rich agriculture and animal husbandry resource. At present, there are three leading enterprises in livestock breeding and intensive processing, ten enterprises of fodder manufacturing, 12.6 million square meters of edible mushroom planting area, more than 20 enterprises of intelligent edible mushroom planting and processing with the annual value of production of more than 2 billion yuan. In addition, there is cherry, strawberry, jujube, walnut and other large-scale forest-fruit planting basis.

III. Project content and construction scale

This project includes the full industry chain project for intensive processing of meat duck, and aims at building into the full industry base for meat duck of the world level that integrated seedling culture, incubation, breeding, intensive processing and cold chain logistics for meat duck into one based on the breeding and intensive processing in Zoucheng. Develop the intensive industry of edible mushroom, extract relevant ingredient of edible mushroom following the direction of health care products and pharmaceutical usage based on the edible mushroom industry base in Zoucheng, and develop the intensive processing industry of forest-fruits based on the abundant forest-fruit resources in Zoucheng.

IV. Construction condition

Scale development of the industry has been primarily formed based on the good industry base in Zoucheng, and enterprises of strong strength, strong research and development capacity and great brand efficiency need to be introduced which will then contribute to the further optimization and upgrading of the agricultural industrialization in Zoucheng so as to build the industry base of world class.

V. Total investment

USD 286 million

VI. Market and economic benefit analysis & forecast

RMB1.5 billion of sales revenue and RMB230 billion of profit will be achieved annually upon its completion.

NO.60

I. Name of the project

Heze Asparagus Resource Comprehensive Utilization Industrialization project

II. Introduction of the project unit

Heze Juxinyuan Food Co., Ltd was mainly engaged in the intensive processing of asparagus and asparagus biological products and other by-products. The company has 2200 employees, total capital is 1.79716 billion yuan, among which, the fixed asset is 790.63 million yuan and the current asset is 1.00653 billion yuan.

III. Project content and construction scale

The construction area is 250,000 square meters with 300 sets of the purchased and installed equipment. The annual production of rutin is 920 tons, asparagus enzymes is 6420 tons, asparagus α microcrystalline cellulose is 5000 tons, health care products and skin care products are 2000 sets after the completion of the project.

IV. Construction condition

Cao Town is the great town in asparagus planting that is with abundant resources. This project has fully utilized the leftovers of asparagus for intensive processing to extract the additional value so as to perfect the industry chain link.

V. Total investment

USD 171,000,000

VI. Market and economic benefit analysis & forecast

The annual sales revenue can achieve 2 billion yuan and the taxation profit is 600 million yuan after the total production of the project.

NO.61

一、项目名称

山东凤祥食品发展有限公司冻品熟食加工项目

二、项目单位简介

山东凤祥食品发展有限公司成立于1997年4月,注册资本21223.89万元。截止2015年底,拥有资产总计32947.63万元,固定资产27242.08万元,资产负债率84%。主要经营速冻食品、冷冻调制禽肉制品生产、销售;肉制品生产、销售;自营和代理各类商品和技术的进出口业务;预包装食品兼散装食品批发、零售等业务。

三、项目内容及建设规模

项目年设计生产冻品鸡肉深加工产品6万吨。主要建设内容包括新建餐饮熟食车间和出口熟食车间各一座,以及动力中心、垃圾站、水泵房、油罐区、物料库等附属设施;滚揉机、斩拌机、制冰机、绞肉机等生产机械设备653台(套)。

四、项目建设条件

目前,本项目已完成备案、环评、能评、安评、规划、土地等前期手续。项目用地无需拆迁,无地上建筑物,场地平坦,水、电、气等建设条件良好。该项目所需资金已落实,已于2016年10月开工建设。

五、项目总投资

总投资7630万美元

六、市场及经济效益分析预测

本项目建成投产后,正常年可实现销售收入147355万元,毛利润23015万元,所得税后利润17262万元,直接创造就业岗位1450个,同时也可带动当地建筑建材、交通物流、车辆维修、金融、餐饮、住宿、娱乐等相关服务行业的发展,为当地居民间接创造更多的就业机会,促进居民增收。

NO.61

I. Name of the project

Frozen Cooked Food Processing project by the Shandong Fengxiang Food Co., Ltd

II. Introduction of the project unit

Shandong Fengxiang Food Co., Ltd was founded in April, 1997 with the registered capital of 212.2389 million yuan. The total asset of the company is 329.4763 million yuan, the fixed asset is 272.4208 million yuan and the asset-liability ratio is 84% by the end of 2015. The company is mainly engaged in quick-frozen food, manufacturing and marketing of frozen modulated poultry products, manufacturing and marketing of meat products, import and export business of various kinds of commodities and technologies under self-support and agency, wholesale and retail of pre-packaged food and food in bulk and other businesses.

III. Project content and construction scale

The intensive processing of frozen chicken is designed to be 60,000 tons. The main construction content including one set of newly-built catering cooked food workshop and exported cooked food workshop respectively, the dynamic center, garbage station, water pump room, oil tank area, material store and other supporting facilities, and 653 sets of tumbling machine, chopper mix, ice machine, meat grinder and other manufacturing equipment.

IV. Construction condition

At present, the recording, environmental assessment, energy assessment, safety assessment, plan, land and other procedures in the earlier stage has been completed for the project. The land for this project requires no removal and there is no building on the ground, the site is flat, and the water, electricity, gas and other Construction conditions are goods. Capital required for this project has been implemented and the construction is estimated to be started in October, 2016.

V. Total investment

USD 76,300,000

VI. Market and economic benefit analysis & forecast

After the construction and production of the project, the normal annual marketing revenue can be 1.47355 billion yuan, gross profit can be 230.15 million yuan, profit after tax can be 172.62 million yuan and the direct employment positions can be 1450. In addition, the local building, construction, transport, logistics, vehicles maintenance, finance, catering, recommendations, entertainment and other relevant service industries can be developed so as to create more employment opportunities for local residents and to increase the income.

一、项目名称

山东盛泰生物科技有限公司膳食纤维及甜味剂项目

二、项目单位简介

公司成立于2011年12月，是潍坊盛泰药业有限公司的控股子公司。主要从事葡萄糖浆、麦芽糖浆等液体糖及布拉酵母等生物制品的生产销售。总资产2亿元，注册资本3000万元，液体糖年产能30万吨。2013年，完成主营业务收入1.6亿元，实现利税633万元；2014年，主营业务收入2.6亿元，利税1067万元；2015年，主营业务收入3.4亿元，利税1364万元；今年1-11月份，已完成主营业务收入4.8亿元，实现利税1935万元。

三、项目内容及建设规模

项目建设用地120亩，车间、仓库等厂房建筑总面积30000平方米，新购置液化喷射器、灭酶喷射器、板框过滤机、多效蒸发器、转化罐、结晶机、离心分离机、震动流化床等先进生产设备300台套。设计特殊膳食纤维及功能性甜味剂年产能20万吨。

四、项目建设条件

公司生产历史长，产销规模大，专业技术成熟可靠，生产所需主要原料可就地取材，公司现拥有省级研发中心1处，下设4个实验室和1个中试车间，各类实验仪器装备精良，为技术创新工作搭建了良好平台。

五、项目总投资

项目总投资5亿元。

六、市场及经济效益分析预测

项目建成并完全达产后，预计年可新增销售收入20亿元，新增利润5000万元，新增税收5000万元，预期经济效益良好。

NO.62

I. Name of the project

Dietary Fiber and Sweetening Agent by the Shandong Sehngtai Bio-technology Co., Ltd

II. Introduction of the project unit

The company was founded in December, 2011 which is the holding subsidiary of the Weifang Shengtai Medicine Co., Ltd. The company is mainly engaged in the manufacturing and marketing of corn syrup, malt syrup and other liquid sugar and saccharomyces boulardii and other biological products. The total asset is 200 million yuan, the registered capital is 30 million yuan and the annual production capacity of liquid sugar is 300,000 tons. The main business income was 160 million yuan and the achieved profit is 6.33 million yuan in 2013, the main business income was 260 million yuan and the taxation of profit is 10.67 million yuan in 2014, the main business income was 340 million yuan and the taxation of profit is 13.64 million yuan in 2015 and the main business income has reached 480 million yuan and the taxation of profit has been 19.35 million yuan from January to November this year.

III. Project content and construction scale

The construction area is 120 mu, the total construction area for the workshop and warehouse and other premises is 30000 square meters. There are 300 sets of newly purchased liquid injector, enzyme deactivation injector, plate filter, multi-effect evaporator, inversion tank, crystallizer, centrifuge, vibration fluid bed and other advanced manufacturing equipment. The annual production capacity of special dietary fiber and functional sweetening agent is designed to be 200,000 tons.

IV. Construction condition

The company is with a long history, large manufacturing and marketing scale, mature and reliable professional skills. The main ingredients required for manufacturing are obtained from local resources. There are now one R&D center at the provincial level, four labs and one pilot workshop with excellent various kinds of lab instruments which has built the good platform for technological innovation.

V. Total investment

USD 500,000,000

VI. Market and economic benefit analysis & forecast

After the construction and production of the project, the annual newly-added marketing revenue is estimated to be 2 billion yuan, the newly added profit is 50 million yuan and the newly added tax is about 50 million yuan which is excellent economic effect.

I. Name of the project

Protein fibre manufacturing project by the Shandong Bole Biotechnology Co., Ltd

II. Introduction of the project unit

The company was founded in March, 2015 with the registered capital of 50 million yuan and the factory area of 49,000 square meters. One complete CMC manufacturing line has been completed with various manufacturing equipment of 560 sets. And the current production capacity of apparatus is 10000 tons/year. And there are now 20 technicians, 100 sets of HPLC, gas chromatography, ultraviolet spectrophotometer and other testing equipment at present. The high-standard pilot workshop that is 1280 square meters in the technical center can be used for amplification study for new products and new process which enables the strong technical power.

III. Project content and construction scale

The project is located in the Economic Development Zone in Zibo District, and the annual protein fiber production is 2×50000 tons and the construction has been divided into two phases. Among which, Phase I is 50000 tons/year and Phase II is 50000 tons/year. The main construction is composed of manufacturing workshop and other facilities and its supporting, canteen and other supporting facilities, public facilities and general layout & transportation with the total construction area is 127,800 square meters.

IV. Construction condition

The site selection of the project complies with the overall plan for land utilization, urban master planning and specialized planning, and the project approval, land and other procedures are basically completed.

V. Total investment

USD 141,000,000

NO.66

一、项目名称

鲁南高铁项目

二、项目单位简介

鲁南高速铁路有限公司于 2016 年 9 月成立，注册资本暂为 10 亿元。经营范围为：鲁南高铁建设和旅客运输；房地产投资开发、销售与租赁，设备物资采购及销售，铁路技术咨询服务，铁路和道路货物运输、仓储、广告、餐饮、旅游服务，物业管理、停车场业务；各类产品的批发、零售等。

三、项目内容及建设规模

鲁南高速铁路为双线客运专线，设计行车速度 350 公里/小时，建设总里程约 494 公里，投资估算 750 亿元。新建正线桥梁 104 座，总长 357366m，其中特大桥 66 座，大桥 28 座；新建正线隧道 9 座，总长度 12560m；全线路基土石方 2790 万 m³；站房 17 座，其中新建站房 14 座，改扩建站房 3 座。新建站房为厉家寨站、莒南北站、临沂北站、费县北站、蒙山站、泗水南站、曲阜南站、兖州南站、济宁北站、嘉祥北站、巨野北站、郯城南站、菏泽东站、庄寨站，改扩建站房为日照站、奎山镇站、曲阜东站。

四、项目建设条件

2016 年 3 月 8 日和 12 月 20 日临沂至曲阜段和日照至临沂段可研批复，预计其他两段可研将于 2017 年获得批复。

五、项目总投资

总投资约 750 亿元人民币，约合 107.91 亿美元。

六、市场及经济效益分析预测

鲁南高速铁路项目全线采用分段建设模式，由日照至临沂段、临沂至曲阜段、菏泽至曲阜段、菏泽至兰考段组成。

七、合作方式

鲁南高铁项目按照“我省为主、多方参股、平等协商、依法合规”的原则思路，积极开拓融资渠道，吸引国内外有实力企业、民间资本及战略投资机构参与投资建设。

NO.66

I. Name of the project

Lunan High-speed Rail project

II. Introduction of the project unit

The Shandong Hi-speed Group Co., Ltd was founded in September, 2016 with the temporary registered capital of 1 billion yuan. The scope of businesses: Lunan hi-speed rail construction and passenger transportation, real estate investment and development, marketing and renting, equipment materials purchasing and marketing, railway technology consultation service, railway and road cargos transportation, storage, advertisements, cantering, tourism service, property management, parking lot business, wholesale, retail and others of various kinds of products.

III. Project content and construction scale

Lunan High-speed Rail is the double passenger dedicated line, the running speed is designed to be 350 kilometers/hour, the total distance is about 494 kilometers and the investment is estimated to be 75 billion yuan. There are 104 newly-built main track bridges with the total distance of 357,366m, among which, there are 66 super-large bridges, 28 bridges, 9 newly-built main track tunnels with the total distance of 12,560m. The subgrade earthwork for the full route is 27.9 million m³, the station house is 17, among which, there are 14 newly-built station houses and 3 re-organized and expanded station houses. The newly-built station houses are: Lijiazhai station, North Junan station, North Linyi station, North Fei county station, Mengshan station, South Sishui station, South Qufu station, South Yanzhou station, North Jining station, North Jiaxiang station, North Juye station, South Yuncheng station, East Heze station and Zhuangzhai station, and re-organized and expanded station houses are: Rizhao station, Kuishan town station and East Qufu station.

IV. Construction condition

The feasibility study of the Linyi –Qufu section and the Rizhao-Linyi section will be approved on March 8th, 2016 and December 20th, 2016 respectively and the feasibility study of the other two sections are estimated to be approved in 2017.

V. Total investment

The Total investment is about 75 billion yuan which is about \$10.791 billion.

VI. Market and economic benefit analysis & forecast

The model of segmental construction has been adopted for the whole line of the Lunan High-speed Rail project, which is composed by the Rizhao-Linyi section, Linyi-Qufu section, Heze-Qufu section and Heze-Lankao section.

VII. Way of cooperation

Following the principle and though of “Shandong province-oriented, shared by multi-parties, comply with the law and stipulations”, the Lunan Hi-speed Rail project has explored financing channels and attract powerful enterprises, non-governmental capital and strategic investment institutes both at home and abroad to participate in the investment and construction actively.

NO.68

一、项目名称

山东高速潍坊港泊位工程项目

二、项目单位简介

山东高速交通物流投资有限公司成立于2011年5月，增资后注册资本11.949亿元。公司主要负责港口及物流园项目的建设开发及后期运营管理，当前正处于工程建设攻坚阶段。公司目前从业人员47人，2016年实现收入15000万元，实现利润150万元。

三、项目内容及建设规模

本项目建设开发潍坊港中港区港池南侧2402米码头岸线以及后方配套陆域，共布置9泊位，码头结构为5万吨级，包括通用、集装箱、货滚甩挂、客滚等功能。设计通过能力总计3200万吨/年、客滚车0.2万辆/年、客运1.5万人/年、商品车滚装为0.8万辆/年。计划分两期实施：一期工程建设的#18~#21泊位，建设岸线1072米；二期工程建设的#13~#17泊位，建设岸线1330米。

四、项目建设条件

项目建设地点距济青高速公路45公里，距胶济铁路50公里，临近疏港公路和疏港铁路，区位优势明显，交通便利，市场空间大。潍坊市滨海区产业基础好，配套设施齐全，综合成本低，政府招商引资优惠政策吸引力强，项目建设条件良好。

五、项目总投资

总投资约43634万美元。

六、市场及经济效益分析预测

本项目投产后，每年可新增销售收入6.98亿元，实现利润1.64亿元。

七、合作方式

创新运用资本手段拓展融资渠道，实施股权融资、带资建设等方式，实现资金来源多元化，合理运用资本杠杆功能，实现以小博大，进而达到合作双方共赢共享。

NO.68

I. Name of the project

Berth Engineering on Weifang Port of Shandong Hi-speed Rail project

II. Introduction of the project unit

Shandong High-speed Logistics Investment Co., Ltd was founded in May, 2011 with registered capital of 1.1949 billion yuan after capital increase. The company is mainly responsible for the construction, development and latter operation management of the port and the logistics park project which is now under the problem solving stage for the construction of the project. There are now 47 employees at present of the company, and then the income of RMB 150 million and profit of RMB 1.5 million has been achieved in 2016.

III. Project content and construction scale

The 2402 meters of the frontage and supporting land behind south of the harbor basin of the Central Port area in Weifang Port has been constructed and developed by this project, which includes 9 berths with the wharf structure of 50,000 tons level for common, container, roll-on-roll-off ship, ro-ro passenger ship and other functions. The total traffic ability is designed to be 32 million tons/year, the ro-ro passenger vehicles are to be 2000 vehicles/year, the passenger transport is 15,000 personnel/ year and the roll-roll shipment of commercial vehicles is 8000 vehicles/year. It is planned to be implemented in two Phases: #18~#21 berth is to be planned for the Phase I project with the shoreline of 1072 meters, and #13~#17 berth is to be planned for the Phase II project with the shoreline of 1330 meters.

IV. Construction condition

The construction position of this project is 45 kilometers away from the Jinan-Qingdao Expressway, 50 kilometers away from the Jiaozhou-Jinan Railway and close to the Dredging Harbor Highway and the Dredging Harbor Railway which is still with obvious position advantage, convenient transportation and large market space. Binhai District of Weifang has a sound industrial base and perfect supporting facilities, requiring low comprehensive cost and being very attractive to foreign businesses and investment with the help of the preferential policies issued by the government, thus it is well-equipped for project construction.

V. Total investment

Invested a total of nearly USD 436,340,000

VI. Market and economic benefit analysis & forecast

RMB 698 million of sales revenue and RMB 164 million of profit will be achieved annually upon its completion.

VII. Way of cooperation

To extend financing channels using innovative capital means, carry out equity financing, capital construction and other financing methods to achieve the diversification of capital source, and then the capital leverage function will be rationally utilized to catch a whale by throwing a sprat and then to achieve mutual-win and sharing for both parties.

NO.69

一、项目名称

黄河三角洲农业高新区通用机场项目

二、项目单位简介

山东鑫立方集团成立于 2012 年，是经东营市人民政府批准，东营农业高新技术产业示范区管理委员会出资设立的公司化管理、市场化经营的有限责任公司，注册资本 1 亿元。主要经营范围包括农、林、畜产业投资，城乡基础设施、新农村、小城镇建设项目投资，市政基础设施及配套工程，农田水利建设，自有资产租赁、物业服务。

三、项目内容及建设规模

项目规划面积 1000 亩，拟在黄三角农高区滨海新区内建设通用航空机场 1 处，满足兼顾直升机、小型固定翼飞机和通勤飞机起降要求，同时修建停机坪、航站楼、陆侧道路、停车场和其它相关配套设施。

四、项目建设条件

即将启动项目选址工作。

五、项目总投资

总投资 22000 万美元

六、市场及经济效益分析预测

该通用机场主要功能定位为旅游功能、高端商务功能、公共服务，集文化体育、观光旅游、高端商务、森林防火、农业病虫害防治及抢险救灾需要等功能于一体，主要服务于东营市，黄河入海口的三角洲地带。

NO.69

I. Name of the project

General Airport project for Agriculture High-tech Zone in Yellow River Delta by the Shandong Xin Cube Group

II. Introduction of the project unit

Shandong Xin Cube Group was founded in 2012, which was one limited liability company with corporation management and market-oriented management invested by the Management Committee of the Agriculture High-tech Industry Demonstration Zone in Dongying approved by the Dongying Municipal Government with the registered capital of 100 million yuan. The main scope of businesses including investment on agriculture, forestry and livestock industries, urban and rural infrastructure, investment on new countryside and small towns, municipal infrastructure and supporting engineering, irrigation and water conservancy construction, self-owned capital renting and property services.

III. Project content and construction scale

The planning area of this project is 1000mu, which is planned to construct one general airport within the Binhai New Area of Agriculture High-tech Zone in Yellow River Delta so as to satisfy the taking off and landing demand of helicopter, small fixed wing aircraft and commuter airplane, and the parking apron, terminal, landside road, parking lot and other relevant supporting facilities.

IV. Construction condition

The site selection work for the project is to be started.

V. Total investment

USD 220,000,000

VI. Market and economic benefit analysis & forecast

The main function position of this general airport is for tourism, high-end commerce and public services which has integrated the culture and sports, sightseeing tour, high-end commerce, forest fire prevention, agricultural pest prevention and control, emergency rescue and disaster relief and others into one which mainly served Dongying city and the delta region for the Yellow River estuary.

一、项目名称

胶州洋河通用航空机场项目

二、项目单位简介

胶州洋河通用航空机场项目由青岛灯塔酿造有限公司、胶州城市投资发展有限公司、沈阳航空航天大学共同投资建设，计划投资 10 个亿，主要进行航空旅游、飞行培训、休闲度假、森林防火、农林喷洒及应急救援、农林采摘，建设通用航空产业示范区将在很大程度上拉动当地经济、促进洋河发展。项目建成后，对经济贡献约在 8 个亿左右，新增就业人数 600 人，镇 GDP 增量约为 12 个亿。

三、项目内容及建设规模

建设一处通用机场，分两期建设，一期拟投资 5 亿元，建设长 800 米，宽 30 米跑道，联络道共三条，建设航站楼、停机坪、办公场所等基本配套设施，占地约 300 亩，达到通航起降点标准；二期扩建跑道长至 1500 米，达到 A 类通用机场标准，进行配套产业升级，聚集优势资源打造通用航空产业示范区。

四、项目建设条件

目前项目已经全部启动，相关用地指标已经划定，正在进行立项。

五、项目总投资

总投资 10 亿元。

六、市场及经济效益分析预测

本项目全部投产后，每年可新增销售收入 2 亿元，实现利润 1 亿元。

NO.70

I. Name of the project

General Airport project in Yanghe Town of Jiaozhou

II. Introduction of the project unit

The General Airport project in Yanghe Town of Jiaozhou was jointly constructed through the investment of the Qingdao Beacon Brewing Co., Ltd, the Jiaozhou Urban Investment Development Co., Ltd and Shenyang Aerospace University, the investment is planned to be 1 billion yuan for aviation tourism, flight training, recreational resort, forest fire prevention, agriculture and forest spraying, emergency rescue and agriculture and forestry picking. The construction of the general aviation industry demonstration zone will improve the local economy and promote the development of Yangtong to the maximum. After the completion of the project, it will contribute almost 800 million yuan to the economy, and the newly increased employees will be 600 with an increase of 1.2 billion to the GDP in the town.

III. Project content and construction scale

One general airport will be constructed which has been divided into two phases, 500 million yuan is planned to be invested for Phase I with the runway of 800 meters long and 30 meters wide. There are three linking taxiways for the construction of the terminal, parking apron, office and other basic supporting facilities with the total floor space of about 300mu which has reached the turning off and landing standard for navigation. The length of the runway for Phase II has been extended to 1500 meters which has reached the standard of Type A general airport, and supporting industries have been upgraded to gather superior resources to build the demonstration zone for aviation industry.

IV. Construction condition

The project has been started completely by now, relevant land indexes have been designated which is under the project approval stage.

V. Total investment

RMB 1 billion

VI. Market and economic benefit analysis & forecast

RMB 200 million of sales revenue and RMB 100 million of profit will be achieved annually upon its completion.

NO.73

一、项目名称

山东省盐业集团海水淡化及浓海水综合利用项目

二、项目单位简介

山东省盐业集团有限公司是集盐及盐化工产品产销、海产品养殖、非盐商品经营、建筑、商贸、物流等产业于一体的综合性企业集团。公司始建于1949年1月，注册资本2.16亿元，为省属国有独资公司，同时加挂山东省盐务局牌子，授权行使本级政府盐业行政主管机构职能。2015年底，集团资产总额42.57亿元，职工7499人，销售收入33.21亿元，实现利税5.14亿元。

三、项目内容及建设规模

1、项目建设内容。建设5万吨/天海水淡化厂；建设处理7.5万吨/天浓海水综合利用工业示范基地。

2、项目建设规模。项目占地约1500亩，总投资15000万美元，可实现年产淡水1800万吨、盐产品50万吨、溴及溴深加工产品1万吨、镁系精细化合物3万吨等。

四、项目建设条件

项目建设地点拟在集团公司所属山东莱央子盐场，临近海洋土地资源广阔，项目水、电、汽及生活配套设施条件良好。盐业集团已组织起一支较强的技术团队，项目管理及建设经验丰富；拥有相关核心技术储备，具备承担该示范项目的建设条件。

五、项目总投资

总投资15000万美元。

六、市场及经济效益预测

项目建设在我省渤海湾沿岸，属严重缺水地区，淡水市场前景好；浓盐水综合利用是与盐业密切结合的产品方案，市场成熟，符合国家产业政策。预计项目建成后，年新增销售收入5.6亿元，实现利润2.5亿元。

NO.73

I. Name of the project

Seawater desalination and concentrated brine comprehensive utilization of Shandong Province Salt Industry Group

II. Introduction of the project unit

Shandong Province Salt Industry Group Company Limited is a comprehensive enterprise group integrating salt and salt chemical products production and sales, seafood aquaculture, non salt commodity management, construction, trade, logistics, and etc.. Established in January of 1949 with registered capital of RMB216,000,000, it is provincial solely state-owned company. It has also the brand name of Shandong Salt Affairs Bureau of China, and is authorized to exercise administrative agency function of local government at the same level for salt industry. By the end of 2015, the Group had its total assets reach RMB4,257,000,000, owned 7499 employees with sales revenue of RMB3,321,000,000, and had its taxation of profit realize RMB514,000,000.

III. Project content and construction scale

1. Construcion content. Construct seawater desalination factory with capacity of 50,000t/day; construct industrial demonstration base for concentrated brine comprehensive utilization with capacity of 75,000t/day.

2. Construction scale. The project covers an area of about 1500 Mu, with Total investment of USD150,000,000, and can produce18,000,000mts of fresh water, 500,000mts of salt products, 10,000mts of bromine and its highly processed products, 30,000mts of fine magnesium coumpounds, and etc..

IV. Construction condition

The constructed project is planed to be located in Shandong Caiyangzi Saltworks belonged to the group company, where has vast adjacent sea land resources and is well-equipped with water, electricity, gas and living facilities. The Salt Industry Group has organized a powerful technical team with abundant project management and construction experiences; it owns relevant core technical reserve, and is qualified to take charge of this demonstration project.

V. Total investment

USD 150,000,000

VI. Market and economic benefit analysis & forecast

The project is located in the coastal area of Bohai Bay in our province, where the water is in shortage seriously and has a prosperous fresh water market; concentrated brine comprehensive utilization is the product scheme which is closely related to salt industry, and has a mature market and is conform to national industrial policy. RMB 560 million of sales revenue and RMB 250 million of profit will be achieved annually upon its completion.

NO.74

一、项目名称

山东泉林嘉有肥料有限责任公司黄腐酸有机肥产业融合项目

二、项目单位简介

山东泉林嘉有肥料有限责任公司是国内最大的黄腐酸系列肥料生产基地，产品包括生命源水溶性腐植酸、腐植酸盐类、黄腐酸叶面肥、腐植酸液体肥等系列，现已发展为年产各类黄腐酸肥料达 60 万吨的大型企业。公司利用天然植物生产黄腐酸技术荣获国家技术发明二等奖，产品荣获“国家重点新产品”荣誉称号。

三、项目内容及建设规模

1、建立 450 个标准化秸秆收储千吨点，建设 4 条年产 5 万吨颗粒黄腐酸有机肥生产线和 1 条年产 10 万吨液态黄腐酸有机肥生产线。

2、年收储秸秆 90 万吨，年产 30 万吨黄腐酸有机肥。

四、项目建设条件

项目前期批复手续齐全，项目主要建设条件已落实。

五、项目总投资

总投资 20000 万美元。

六、市场及经济效益分析预测

项目的建设可以实现秸秆真正意义上的科学还田，推动综合利用发展，改良土壤、改善作物品质，实现粮食增产，有效“固碳”，缓解温室效应。秸秆变为商品及收储，可以实现农民增收，解决农村剩余劳动力就业问题，推动农村产业融合发展。项目投产后，可以实现正常年销售收入 5.1 亿元，经济和社会效益显著。

I. Name of the project

Fulvic acid organic fertilizer industry integration project of Shandong Quanlin Jiayou Fertilizer Co., Ltd.

II. Introduction of the project unit

Shandong Quanlin Jiayou Fertilizer Co., Ltd. is the largest fulvic acid series of fertilizers production base in China, with products including life source soluble humic acid, humic acid salts, fulvic acid foliar fertilizer, humic acid liquid fertilizer and other series, and has developed to be a large enterprise with production capacity of 600,000mts of various fulvic acid fertilizers yearly. The company has won the second prize of national technology invention for its technology of fulvic acid production from natural plants, and its products have won the honorary title of “national key new product”.

III. Project content and construction scale

1. Establish 450 standard thousands of ton level of straw collecting and storage sites, construct 4 production lines for granular fulvic acid organic fertilizer with production capacity of 50,000mts yearly and 1 production line for liquid fulvic acid organic fertilizer with production capacity of 100,000mts yearly.

2. Collect and store 900,000mts of straw yearly, and produce 300,000mts of fulvic acid organic fertilizer yearly.

IV. Construction condition

The preliminary approval procedures have all been handled and the main Construction conditions of the project have been settled.

V. Total investment

USD 200,000,000

VI. Market and economic benefit analysis & forecast

The construction of this project can realize the real sense of straw`s returning to field scientifically, promote comprehensive utilization development, improve soil and crop quality, realize grain yield increase, achieve effective “carbon sequestration”, and mitigate greenhouse effect. Straw becoming commodity or being stored can increase farmers` income, solve employment problem for rural surplus labor force, and push forward rural industrial integration development. The project, after being put into operation, can realize RMB510,000,000 of normal annual sales revenue, and has a significant economic and social benefits.

I. Name of the project

The vertical axis wind power generation project of Shandong Pneumatic Power Technology Co., Ltd.

II. Introduction of the project unit

With registered capital of RMB120,000,000, Shandong Pneumatic Power Technology Co., Ltd. is engaged in investment, construction and management on new energy development project, electric power engineering consulting, the popularization and research of energy technology, the development, popularization and sales of photovoltaic power generation equipment, installment and maintenance of mechanical equipment, fire protection engineering construction, monitoring installation project, and design and technological development and sales on automatic control equipment.

III. Project content and construction scale

Mainly construct a power tower, 175m high and with base diameter of 85m, with main content including the construction of 8 parts: tower base, supporting frame, office rooms (with five floors and octagonal structure), major axis, wind wheel, generator transmission and etc.; docking 1,100,000V of substation and laying 9.5km of cables. This project, after being put into operation, can save coal of 60,000mts and reduce CO₂ emissions of 115,000mts yearly based on estimated gross generation of 200,000,000kwh, realize annual sales revenue of RMB122,000,000, achieve total profit of RMB68,610,000 and tax revenue of RMB19,500,000.

IV. Construction condition

Feasibility report has been issued for this project at present, various formalities including Energy Impact Assessment, Environment Impact Assessment, construction project planning design condition, land prequalification, lightning protection device design technology evaluation opinion, constructed project earthquake fortification requirement audit opinion, cultural department approval opinion and etc..

V. Total investment

USD 110,000,000

VI. Market and economic benefit analysis & forecast

After being put into operation, the project can create annual sales revenue of RMB122,000,000, and total profit of RMB68,610,000.

NO.76

I. Name of the project

Fishing light complementary photovoltaic power generation project of Zhaoxin Energy Investment (Shanghai) Co., Ltd.

II. Introduction of the project unit

Zhaoxin Energy Investment (Shanghai) Co., Ltd. was registered and established by Zhaoshang New Energy Group Co., Ltd. soely in March of 2015 in Shanghai free trade zone, with registered capital of 100,000,000, and is a professional investment company in solar photovoltaic power generation field.

III. Project content and construction scale

The project covers an area of 1500mu, takes full advantage of water surface, and does not affect underwater farming. Construct 900,000m² of photovoltaic power generation farm, build 12,000m² of office building, substation and ancillary facilities. The generated power, with 35KV voltage level after inverter and booster, is connected to near 220KV substation.

IV. Construction condition

Site adjustment has been completed, and various formalities are being handled.

V. Total investment

USD 100,000,000

VI. Market and economic benefit analysis & forecast

This project, after all being put into production, can increase new annual sales revenue of RMB500,000,000 and achieve net profit of RMB120,000,000, create a preferable ecological environment while provide clean electric power, realize land efficiency increase, benefit society, promote the harmony development of local economy, and has significant social and environmental benefit.

VII. Way of cooperation

Joint investment and cooperation

NO.77

一、项目名称

潍坊昌邑市生活垃圾焚烧发电工程项目

二、项目单位简介

该公司成立于2010年12月22日，注册资本1200万元，资产总额28271万元。经营范围主要是工业污水、生活污水处理技术研发及项目建设，农业废弃物、固体废弃物的处理等市政工程的技术研发及项目施工运营。公司现有从业人员210人，2014年销售收入2912万元，实现利税1019万元。公司自主研发的城乡生活垃圾资源化利用项目达到国际先进水平，荣获2010年度“山东省重大节能成果奖”。

三、项目内容及建设规模

主要建设内容：该项目占地100亩，主要建设三条生活垃圾分选线。

项目建设规模：购置35t抽凝式蒸汽锅炉、20t抽凝式蒸汽锅炉、6000kW凝汽式汽轮发电机组、3000kW凝汽式汽轮发电机组、烘干机等设备10台（套）。建成后，日处理生活垃圾600吨。

四、项目建设条件

该项目已经列入山东省PPP项目库，并与当地政府有关部门达成了土地使用权协议。目前，正在办理前期手续。

五、项目总投资

总投资10000万美元。

六、市场及经济效益分析预测

本项目全部投产后，每年可新增销售收入1.6亿元，实现利润0.33亿元。

七、合作方式

合资、合作

NO.77

I. Name of the project

Sewage incineration generation engineering project of Changyi, Weifang

II. Introduction of the project unit

Established in December.22 of 2010 with registered capital of RMB12,000,000 and total assets of RMB282,710,000, this company mainly deals with industrial waterwater and domestic sewage treatment technology development and project construction, and agricultral waste, solid waste disposal and other municipal engineering development and project construction and operation. The company has a total of 210 employees currently, and realized an income of RMB 29.12 million and a profit of RMB 10.19 million in 2014. Its self independently developed urban and rural domestic rubbish resource utilization engineering has reached international level, and has won 2010 annual “ Shandong Important Energy Saving Results Prize”.

III. Project content and construction scale

Major construction content: this project covers an area of 100mu, and mainly includes three domestic rubbish sorting lines.

Construction scale: purchase 10 sets of equipment including 35t extraction condensing steam boiler, 20t extraction condensing steam boiler, 6000kw condensing turbine power unit, 3000kw condensing turbine power unit, drying machine, and etc.. After establishment, 600mt of domestic rubbish can be treated daily.

IV. Construction condition

This project has been listed in PPP project repository of Shandong province, and the land use rights agreement has been reached with relevant department of local government. At present, the preliminary formalities are being handled.

V. Total investment

USD 100,000,000

VI. Market and economic benefit analysis & forecast

RMB 160 million of sales revenue and RMB 33 million of profit will be achieved annually upon its completion.

VII. Way of cooperation

Joint investment and cooperation

NO.78

一、项目名称

菏泽华星生物电力有限公司秸秆发电厂项目

二、项目单位简介

菏泽华星生物电力有限公司位于菏泽高新技术产业开发区，成立于2008年4月，注册资金5000万元，占地200亩，为山东鲁华能源集团有限公司控股子公司，资产总额31900万元，主要从事国内生物质热电联产项目投资开发及运营管理。目前，公司拥有员工150人，销售收入1.5亿元，利税4000万元。

三、项目内容及建设规模

1、主要建设内容：(1)主厂房：拟建主厂房由汽机房、除氧间、料仓间和锅炉房组成。(2)主要辅助生产建筑：灰库、烟道、冷却塔、化学水车间、烟囱、储料棚、检修车间、孰料皮带栈桥、灰库、循环水泵房、办公楼。

2、本项目建设规模：

建设规模为2台130t/h高温高压循环流化床锅炉，配2台30MW高温高压抽汽凝汽式汽轮发电机组。

四、项目建设条件

项目分两期建设，一期建设已完成并实现投产运行。二期项目立项、用地、环评等手续已基本办理完毕，基本具备建设条件。

五、项目总投资

总投资8800万美元。

六、市场及经济效益分析预测

本项目全部投产后，每年可新增销售收入2亿元，实现利润0.6亿元。

七、合作方式

合资、合作

NO.78

I. Name of the project

Straw power plant project of Heze Huaxing Biological Power Co., Ltd.

II. Introduction of the project unit

Located in Heze Hi-tech Industry Development Zone, established in 2008 with registered capital of RMB50,000,000, covering an area of 200mu, Heze Huaxing Biological Power Co., Ltd. is the holding subsidiary of Shandong Luhua Energy Group Co., Ltd.. with total assets of RMB319,000,000, it is mainly engaged in the investment, development, operation and management of domestic biomass cogeneration project. At present, the company owns 150 employees, has sales revenue of RMB150,000,000 and profit tax of RMB40,000,000.

III. Project content and construction scale

1. Major construction content: (1) the main workshop planned to be built includes steam engine room, deaerator room, bunker room and boiler room. (2) main auxiliary production buildings: ash warehouse, flue pipe, cooling tower, chemical water tanker room, chimney, storage shed, maintenance workshop, clinker belt conveyor trestle, ash warehouse, circulation pump room, and office building.

2. The construction scale of this project:

The construction includes 2 sets of 130t/h high temperature and high pressure circulation fluidized bed boiler, equipped with 2 sets of 30MW high temperature and high pressure extraction condensing steam turbine generator set.

IV. Construction condition

The project will be constructed in two phases, the first phase of construction has been completed and put into operation. The formalities of project approval, land, environmental impact assessment for the second phase of project have been completed basically, the basic conditions for construction are ready.

V. Total investment

USD 88,000,000

VI. Market and economic benefit analysis & forecast

RMB 200 million of sales revenue and RMB 60 million of profit will be achieved annually upon its completion.

I. Name of the project

Agricultural industrialized park project of Sudan New Epoch Agricultural Development Co., Ltd.

II. Introduction of the project unit

Sudan New Epoch Agricultural Development Co., Ltd. is invested jointly by China Shandong International Economic & Technical Cooperation Company and Shandong Lumian Group Co.,Ltd. in the Republic of Sudan, with registered capital of USD5,400,000, of which China Shandong International Economic & Technical Cooperation Company accounts for 51% stake and Shandong Lumian Group Co.,Ltd. accounts for 49% stake.

III. Project content and construction scale

In this project, it is planned to plant 100,000mu of cotton, all of which will be mainly sold in international market. The project area is an agricultural cultivation area irrigated by river water, and has a perfect irrigation system. Till now, self cultivation area of 13000mu, cooperative cultivation of the area of 9800mu, anti season cultivation of oil sunflower of 2000mu, totals about 25000mu has been completed for 2015.

IV. Construction condition

Based on planting and processing, positively explore the global trading of lint cotton, cotton seed, fertilizer, pesticides and other agricultural products, gradually build up a full set of agricultural industrialized chain combining production, processing, planting and trading. It has built seed processing plant and cotton processing factory, and has formed industrial park management at present.

V. Total investment

USD 50,130,000

VI. Market and economic benefit analysis & forecast

In 2015, make up the deficits and get surpluses, plan to gain USD500,000 in 2016, and increase it year by year.

VII. Way of cooperation

Cooperation

NO.85

一、园区名称

青岛印尼综合产业园

二、园区概况

园区成立于2014年1月，位于印度尼西亚苏拉威西岛省北莫罗瓦利，占地面积422公顷，主导产业为镍矿出口、镍铁冶炼及物业配套服务（如余热发电、码头物流、水气供应及餐饮等），园区已雇佣当地员工800余人，累计发放工资300多万美元。目前园区已有4家入园企业，园区与约153家承包商和供货商签订了工程建设、物资采购等合作协议，工程建设支出3000多万美元，物资采购支出1000多万美元，为当地的经济的发展做出了较大的贡献。

三、园区投资环境

目前园区场地已经平整，并继续进行填海工程，道路已经开通，可以通行大型工程机械；园区附近拥有8000载重吨驳船泊位可以借用作为水路运输渠道；通信利用当地无线移动通信网络及自建模拟通信网络；电力供应由园区内自备的柴油发电机进行离网发电来解决；水源引自于山间泉水，目前厂区以生活污水为主，尚无工业污水处理设备。4家入园企业中有2家负责高炉生产线和余热电站的投资和运营；1家负责电炉生产线的投资和运营；另外1家负责燃煤电厂的投资和运营；园区镍铁冶炼采用RKEF工艺，该工艺的原料适应性强；镍铁品位高，有害元素少；节能环保，可循环利用；镍渣热料入矿热炉；是处理红土镍矿的经典工艺。

四、项目内容

园内生产企业主要是招商引资，国内和本地企业都可以进。一方面有助于国内部分产能转移，进而实现国家海外战略资源的保障，另一方面有助于与当地人文等相融合，激发当地经济发展活力。承接国家一带一路战略，布局稀缺战略资源，形成聚集效应和配套后，继续发展其他产业，为当地留下内在发展动能，而不是仅仅一个工业园区。

NO.85

I. Name of the project

Qingdao-Indonesia Comprehensive Industrial Park

II. Introduction of the project unit

Established in January of 2014, located in North Morowali, Sulawesi Province, Indonesia, covering an area of 422 hectares, the Park is mainly engaged in Nickel ore exports, nickel iron smelting and property supporting services(such as waste heat generating, port logistics, water& gas supply, catering and etc.). The Park has hired over 800 local staff, with total wages of more than USD3,000,000. Till now, 4 enterprises have joined the Park. It has signed project construction, material procurement cooperation agreement with about 153 contractors and suppliers, the project construction expenditure reaches over USD30,000,000, material purchasing expenditure reaches over USD10,000,000, which has made a great contribution to the local economic development.

III. Investment environment

The Park has leveled its site, continued reclamation and opened the road, which can allow large engineering machinery to pass; the Park has 8000t barge berths nearby which facilitates water transportation; wireless mobile communication network and self built analog communication network have covered local area; self-contained diesel generator carries out off grid power generation to supply power; the water used in the Park comes from the mountain spring, the factory area has sewage mainly and has no industrial wastewater treatment equipment. Among the 4 enterprises who has joined in the Park, 2 of them are responsible for the investment and operation for the blast furnace production line and waste heat power station; 1 is responsible for the investment and operation of electric furnace production line; the left one is responsible for the investment and operation of coal fired power plant; the nickel iron smelting adopts RKEF process, which has strong raw material adaptability; the nickel iron has high quality and less harmful elements; is energy saving, environmental protective, and recyclable; has its nickel slag thermal material into the furnace; is the classic process to smelt laterite nickel ore.

IV. Project content

The production enterprises in the Park are mainly introduced with investment, and both domestic and local enterprises can join in. On the one hand, contribute to partial transfer of domestic production capacity, and thus to achieve the protection of China's overseas strategic resources, on the other hand, contribute to the integration with local humanity, and thus to stimulate the vitality of local economic development. Carry on China's The Belt and Road strategy, distribute scarce strategic resources, continue to develop other industries after forming agglomeration effect and supporting, to leave kinetic energy with inner development rather than just an industrial park for the local area.

V. Way of cooperation

Joint investment and cooperation

一、园区名称

中柬（青岛）特别经济区

二、园区概况

2016年11月青岛华通集团与柬埔寨天堂投资公司签署《中柬（青岛）特别经济区合作框架协议》。中方以资金入股，柬方以土地入股，双方成立合资公司，共同开发位于西哈努克市2000公顷土地。中柬双方股权比例为49:51，收益分配比例为67.5:32.5。华通集团将在2017年第一季度在柬埔寨设立投资公司，注册资本1000万美元；与柬埔寨天堂投资公司注册合资成立中柬（青岛）特别经济区开发公司，注册资本1亿美元。采取整体规划，分期建设的方式，计划用十年左右的时间将中柬（青岛）特别经济区建设成为一个集产业园区、旅游度假、高端商住、商服物流、休闲娱乐等产城一体化、人口规模10万人左右的现代化生态园区。

三、园区投资环境

该园区位于柬埔寨西哈努克市东北，距西港市25公里，距西港国际机场18公里，距西港国际港口22公里。规划建设的金边至西港高速公路从园区附近通过。华通集团计划一期投资5亿美元，用于园区三通一平及基础设施建设。该园区享受柬埔寨政府给予经济特区所有的优惠政策。入园企业享受柬埔寨发展理事会（CDC）提供一站式管理服务：投资申请、登记注册、清关、商检、合法原产地证明等。

四、项目内容

通过搭建产业平台，集聚青岛优势产业，发挥华通集团核心产业作用，重点发展电子制造、纺织服装加工、食品饮料、港口物流、职业教育、旅游服务等产业。园区基础设施建设所涉及水、电、气、通讯、及配套服务的交通、商业、医疗、教育等项目采取但不局限于独资、合资、合作方式；鼓励并欢迎高科技、低能耗、低污染项目入园。

NO.86

I. Name of the project

China-Cambodia (Qingdao) Special Economic Zone

II. Introduction of the project unit

In November of 2016, Qingdao Huatong Group and Cambodian Paradise Investment Company signed *Frame Agreement on the Cooperation for China-Cambodia (Qingdao) Special Economic Zone*. China side became shareholder with capital, and Cambodian side became shareholder with land, and both sides set up a joint venture to jointly develop the 2,000 hectares of land located in Sihanouk city. The proportion of equity ratio between China side and Cambodian side is 49:51, and the proportion of income distribution is 67.5: 32.5. Huatong Group will establish investment company with registered capital of USD10,000,000 in the first quarter of 2017; establish China-Cambodia (Qingdao) Special Economic Zone Development Company with registered capital of USD100,000,000 in the form of joint venture with Cambodian Paradise Investment Company. Take the overall planning and phased construction, plan to use ten years to build China-Cambodia (Qingdao) Special Economic Zone to become a modern ecological park with city-industry integration of industrial park, tourism resorts, high-end commercial residence, commercial services & logistics, leisure & entertainment, with population of 100,000 .

III. Investment environment

The Park is located in the northeast of Sihanouk, Cambodia, 25km away from the West Port City, 18km from West Port International Airport, and 22km from West Port International Port. The expresse way planned to be constructed from Phnom Penh to West Port will go near the zone. Huatong Group plans to invest USD500,000,000 in the first phase on the three supplies and one leveling and infrastructure construction. The zone enjoys the preferential policies given by the government of Cambodia for special economic zones. The enterprises joined in the zone will enjoy the one-stop management services provided by Cambodian Development Council: investment application, registration, customs clearance, commodity inspection, legal certificate of origin, etc..

IV. Project content

By establishing industrial platform, collect dominant industries of Qingdao, play core industrial role of Huatong Group, focus on the development of electronic manufacturing, textile and garment processing, food and beverage, port logistics, occupational education, tourism service and other industries. The projects including water, electricity, gas, communication, ancillary services involved in traffic, commerce, medical treatment, education and etc. for the construction of infrastructure in the Park will be solved by but not limited to sole proprietorship, joint venture or cooperation; encourage and welcome projects with high technology, low energy consumption and low pollution to join in.

V. Way of cooperation

Joint investment

NO.87

一、园区名称

柬埔寨山东桑莎（柴桢）经济特区

二、园区概况

园区占地 220 公顷，一期 100 公顷于 2012 年土建 2013 年 4 月投产，由桑莎联合中国境内面料、辅料、服装加工企业入驻，吸引日本有关公司参与，建设以服装加工为龙头，集纱线、面料、成衣、辅料、物流及研发于一体，服装产业上下游链条完整的加工制造园区。经三年多发展，目前园区厂房建筑面积 15 万平方米，园内 9 家企业，5000 多名员工，有裁剪、印花、成衣、包装、检品等工艺，年产服装 4000 多万件，另有窗饰、钢结构等产品，园区服装产品经柬埔寨港口出口日、美、欧等国家地区。园区建设快运行好，经柬埔寨王国政府批准为“山东桑莎（柴桢）经济特区”，山东省商务厅财政厅确认为“省级境外经贸合作园区”。

三、园区投资环境

位于柬埔寨东南部的柴桢省，距越南边境 18 公里，距越南胡志明市的港口、机场不足 100 公里，交通方便，货物进出不用开箱检查。由越南引入的电力线路沿柬 1 号公路从此经过，电力能够保证。柬埔寨成本相对低廉，区位优势明显，贸易环境宽松，享受发达国家对柬最惠国待遇，没有贸易壁垒和反倾销，利于拓展国际市场。

四、项目内容

通过租赁或购买方式为入驻企业提供土地、厂房及基础设施。入驻企业享受投资申请、登记注册、报关、商检、核发原产地证等特区内提供的“一站式”行政服务。根据柬埔寨有关政策享受有关免税政策。建区企业实行统一管理，为入驻企业提供前期考察、法律咨询、规划设计、登记注册、免税申请、建筑施工、设施维护、招工运营、园区安保，以及政府部门协调等服务。

NO.87

I. Name of the project

Cambodia-Shandong Sunshell (Svay Rieng) Special Economic Zone

II. Introduction of the project unit

The park covers an area of 220 hectares, the first phase of 100 hectares began civil engineering in 2012 and was put into production in April of 2013. It was entered by Sunshell and processing enterprises of fabric, accessories and garments processing enterprises in China. It has attracted Japanese companies to join in, and constructed a processing and manufacturing park with garment processing as leader, and combining yarn, fabric, finished clothing, accessories, logistics and Research & Development with complete upstream and downstream chains. After more than three years' development, the park has factory building area of 150,000m², with 9 enterprises and over 5000 employees in the park at present. It has cutting, printing, clothing, inspection, and other processes with the capacity of production of over 40,000,000 pieces of clothing yearly, it also has window decoration, steel structure and other products, and the clothing products in the park are exported to Japan, America, Europe and other countries and regions through Cambodian port. With fast construction and perfect running, the park was approved by the government of the Kingdom of Cambodia to be "Shandong Sunshell (Svay Rieng) Special Economic Zone", and confirmed by the Department of Commerce of Shandong Province and Shandong Province Finance Bureau to be "provincial overseas trading cooperation park".

III. Investment environment

Located in Svay Rieng Province, northeast of Cambodia, 18km away from the border of Vietnam, less than 100km from the port and airport of Ho Chi Minh City, Vietnam, it has a convenient traffic and the import and export of goods does not need unpacking inspection. The power lines highway No.1 along Cambodia introduced from Vietnam goes by here, and the power supply can be guaranteed. The cost in Cambodia is relatively low, and there is no trade barriers and anti-dumping, which avails the international market expanding.

IV. Project content

Provide land, factory and infrastructure for the settled enterprises through leasing or purchasing. The settled enterprises enjoy investment application, registration, customs clearance, commodity inspection, issuance of certificate of origin and other "one-stop" administrative services provided within the special economic zone, and enjoy tax exemption according to relevant policies of Cambodia. Take unified management and provide preliminary investigation, legal consultation, planning, registration, tax exemption application, building construction, facility maintenance, recruitment & operation, park security, coordination with governmental departments and other services for the enterprises in the park.

NO.88

一、园区名称

中阿（富吉拉）商贸物流园区

二、园区概况

总投资约 2.5 亿美元。项目分两期建成，一期拟于 2017 年 10 月开工，包括商贸和仓储物流两个主要园区，商贸园区建设中国商城面积 3.6 万平方米，可租面积约 23000 平方米，计划在 2019 年底建成并交付使用，预期年营业额不低于 4.5 亿美元。仓储物流园区建设海外轮胎专业库和物流仓储工程面积 4.2 万平方米，可容纳国内 1500-2000 家企业入住驻园区，年可实现进出口货物及贸易总额 8-10 亿美元。

三、园区投资环境

中阿（富吉拉）商贸物流园区项目中，商贸园区以商铺租赁和经营管理为招商主体，仓储物流园区以贸易、仓储、物流及跨境电商企业为招商主体。

四、项目内容

阿联酋自然资源丰富，政局长期稳定，地理位置优越，基础设施发达，社会治安良好，商业环境宽松，经济开放度高，是海湾和中东地区最具投资新引力的国家之一。其投资吸引力主要表现在：一是低税率，一般商品仅收 5%关税；二是港口物流便利，配套设施完善；三是一站式服务，网络化管理，服务快捷高效。此外，富吉拉市周边高速公路纵横，也是 2018 年即将通车的海湾铁路的起始点，其得天独厚的地理位置将海湾 6 国紧密相连，可有效辐射整个中东地区，有利于入园企业拓展贸易发展空间。

NO.88

I. Name of the project

China-UAE (Fujairah) Trade Logistics Park

II. Introduction of the project unit

Invested a total of nearly USD250,000,000. This project will be built in two phases, the first phase project is planned to be started in October of 2017, including two major trade and storage&logistics parks. With a building area of 36,000m², with leasable area of 23,000m², China Mall in the trade park is planned to be completed and delivered into use at the end of 2019, its estimated annual turnover will reach more than USD450,000,000. The storage logistics park will include 42,000m² of overseas tire professional warehouse and logistics storage project, which can accommodate 1500 – 2000 domestic enterprises in the park and realize USD800,000,000-1,000,000,000 of total trade amount from import, export and trade yearly.

III. Investment environment

In China-UAE (Fujairah) Trade Logistics Park project, the Trade Logistics Park makes shop leasing and operation management as the main attracting bodies, and the storage logistics park has trade, storage, logistics and cross-border e-commerce enterprises as the main attracting bodies.

IV. Project content

The UAE has rich natural resources, long-term political stability, predominant geological location, advanced infrastructure, sound social security, relaxed business environment and high economic openness, and is one of the most attractive countries for investment in the Gulf and the Middle East, which is mainly reflected in: first, low tax rate, only 5% tariff is collected for general merchandises; second, the convenient port logistics and perfect supporting facilities; third, one-stop service, network management and fast and efficient service. Additionally, Fujairah City has many highways around it, and is the starting point for the upcoming opened Gulf railway in 2018. With geological location richly endowed by nature, it closely links the 6 countries of the Gulf, and is able to radiate throughout the whole Middle East, which is convenient for the enterprises in the park to expand trade development.

NO.89

I. Name of the project

Qingdao National Hi-tech Industrial Development Zone

II. Introduction of the project unit

Qingdao National Hi-tech Zone was established in November of 1992, and was approved by Ministry of Science and Technology to expand in the north of Jiaozhou Bay to form its main park in August of 2006. In 2016, the park has around 4,500 various enterprises, the main park has realized industrial output value above designated size of RMB18,000,000,000, industrial added value above designated size of RMB3,350,000,000, fixed asset investment of RMB13,400,000,000, general public budget revenue of RMB1,210,000,000, and total import and export amount of USD11,800,000,000.

III. Investment environment

The park's public service facilities, commercial facilities and infrastructure have been improved continuously, and the regional comprehensive carrying capacity and city competitiveness have been enhanced further; it has fully completed the investment facilitation reform on the investment of enterprises, and has become the province's first "double ransoms and one open" pilot park and enterprise registration full electronic business pilot park.

IV. Project content

Based on supply-side reform, create "1+5" leading industry, aim at the leading enterprises like the world's top 500, China's top 100, and etc., and introduce a number of big industrial projects with big relevancy, high yield and core competitiveness. Around the construction of Shandong Peninsula National Innovation Demonstration Zone, focusing innovation-driven trend, carry out "entrepreneurship, innovation and maker" action, and make hi-tech zone become the innovation engine for the blue leap of Shandong Peninsula and the innovation harbour to the whole globe.

I. Name of the project

Yantai Hi- tech Industrial Development Zone

II. Introduction of the project unit

Established in 1990, Yantai High-tech Zone is a national hi-tech industrial development zone approved by the State Council, among the first China Asia Pacific Economic Cooperation Organization science and technology parks, and China's first Sino-Russian high-tech industrialized cooperation demonstration base. It focuses on the development of marine biology, medicine, aerospace technology, electronic information and other high-end manufacturing, and high-end service industries like R&D incubator, software outsourcing, headquarters economy, financial business, cultural creativity and etc.. Till end of 2015, the zone had 50,632 employees, sales revenue of RMB40,127,910,000, realized profit tax of RMB4,838,720,000, and it has total 3,399 enterprises in it till now.

III. Investment environment

With predominant location and beautiful natural environment, the zone is among the first batch of 4 green ecological demonstration city areas; with complete infrastructure, perfect city function, it has good project bearing conditions; has excellent service environment and prominent policy advantage; has abundant industrial base, and bright industrial features; has rich intellectual resources and sound service system, developing an improved innovation service system combined by incubator, technical innovation service platform, science and technology agencies, investment and financing institutions and etc.. the total area of various types of incubators and accelerators has broken 1,000,000m², and the number of national enterprise incubators has reached 4.

IV. Project content

Focus on the development of "high-end manufacturing mainly including biological technology, aerospace technology, electronic information, marine technology and etc., and high-end service industry mainly including incubation, software outsourcing, headquarters economy, financial commerce and etc." In attracting foreign businesses and investment, it is based on industrial development direction, and mainly introduces high-end manufacturing and high-end service industry.

I. Name of the project

The Yellow River Delta Modern Agricultural Hi-tech Industrial Demonstration Zone

II. Introduction of the project unit

Near the center of Dongying City suburbs, the Yellow River Delta Agricultural Hi-tech Industrial Demonstration Zone is China's second agricultural hi-tech zone, is included in the sequence of national hi-tech industrial development zones, enjoys the current policy for national hi-tech industrial development zones. It is planned to use 5-8 years to develop agricultural hi-tech industrial system which is based on agriculture and combining high-end service and strategic emerging industries, create hundreds of billion yuan level of emerging agricultural industrial cluster with leading technology, high-end items, advanced mode, perfect chain, circulating efficiency and complex function, develop repeatable and propagable experience mode in saline-alkali land comprehensive treatment, modern agricultural technology innovation and other fields, take lead in science and research platform construction, international technology exchanges and cooperation, and make a breakthrough in system and mechanism innovation of land, finance, talents and etc.

III. Investment environment

With sound supporting infrastructure including water, electricity, road, communication and etc., convenient traffic, obvious location advantage, good ecological environment, the park has great space and potential in developing agricultural hi-tech industry; it has successively introduced and developed 13 high level of talents teams, 21 incubation innovation enterprises, and has introduced and researched 137 new technologies and new varieties.

IV. Project content

Focus on the development of five industries including modern seed industry, agricultural high-end service, healthy food processing industry, agricultural biological industry, agricultural facility and equipment and intellectual agricultural machinery R&D and manufacturing.

一、园区名称

青岛胶东临空经济示范区胶东空港综合保税区

二、园区概况

2016年10月，青岛胶东临空经济示范区成为国家首批临空经济示范区。空港综保区是保税区与空港结合的有效形式，将是临空经济区发展的引擎，是为机场配套的必备功能区之一。通过发展综合保税业务，空港综保区同时发挥了航空运输效能和国家保税区优惠政策优势，加快各类高端生产要素向临空经济区聚集，直接带动机场区域及临空经济区和机场广大腹地区域的产业互动和转型升级。园区位于机场北侧，站前大道以西，潍蓝路以南，机场西快速以东，碧沟河以北。项目规划面积约2-3平方公里，计划2019年与胶东国际机场同步封关运行。

三、园区投资环境

4F级胶东国际机场规划定位为东北亚区域枢纽机场、面向日韩的门户机场、环渤海地区国际航空货运枢纽机场，2019年正式转场运营。

四、项目内容

根据园区定位，发展保税展示、国际采购、分销、国际转口贸易、保税仓储、国际配送、国际中转、生鲜冷链深加工等产业。

NO.92

I. Name of the project

Jiaodong Airport Comprehensive Free Trade Zone of Qingdao Jiaodong Airport Economic Demonstration Zone

II. Introduction of the project unit

In October of 2016, Qingdao Jiaodong Airport Economic Demonstration Zone became one of China's first airport economic demonstration zones. Airport comprehensive free trade zone is the effective way to combine free trade zone and airport, the engine for the development of airport economic zone, and one of the necessary functional areas for airport. Through development of comprehensive free trade zone business, airport comprehensive free trade zone has played advantages of both air transport efficiency and national preferential policies for free trade zone, accelerated the aggregation of various high-end production elements to airport economic zone, and directly driven industrial interaction and upgrade of airport area, airport economic zone and vast airport hinterland. The zone is located in the north of airport, west of Station Road, south of Weilan Rd., east of Airport West Express, and north of Bigou River. The project is planned to cover an area of about 2-3km², and to be operated together with Jiaodong international airport in 2019.

III. Investment environment

The Class-4F Jiaodong International Airport is positioned as an airline hub of Northeast Asia, a gateway airport facing Japan and Korea and an airline hub for international airfreight in the Circum-Bohai Sea region, and planned to put into formal operation in 2019.

IV. Project content

According to the orientation of the zone, develop free trade exhibition, international procurement, distribution, international entrepot trade, free trade warehousing, international distribution, international transit, fresh cold chain deep processing and other industries.

一、园区名称

山东东营综合保税区

二、园区概况

东营综合保税区于2015年5月6日获国务院批复设立。规划面积3.1平方公里，是全省第4家，全国第54家综保区。综保区建设分两期实施：一期规划面积1.56平方公里，以保税仓储物流区、保税加工区、保税加工仓储物流混合区、公共查验区为主，配套建设综合办公楼、国际商品展示交易中心、业务用房、熏蒸用房等；二期规划面积为1.54平方公里，主要发展保税加工、保税仓储、保税物流和综合服务等功能。

三、园区投资环境

按照规划，综保区的功能定位为“2+1”的产业体系，即“2支柱产业、1新兴服务业”，“2支柱产业”分别是精细化工和石油装备，“1新兴服务业”是以冷链物流为代表的新兴服务业。

四、项目内容

东营综合保税区位于山东省东营港经济开发区核心地带，北临现代物流产业区，西临生态化工产业区，南临开发区中心商务区，规划面积为3.1平方公里。目前，东营综合保税区已完成基础设施开发建设，并实现了“七通一平”。3万平方米国际商品展示交易中心，1.5万平方米单层仓库2栋，3万平方米3层仓库1栋均已建设完成。

NO.93

I. Name of the project

Shandong Dongying Comprehensive Free Trade Zone

II. Introduction of the project unit

Dongying Comprehensive Free Trade Zone was approved by State Council to be established in May 6 of 2015. With planned area of 3.1km², it is the province's 4th and China's 54th comprehensive free trade zone. The construction for comprehensive free trade zone has two phases: in the first phase, plan to construct 1.56km², mainly including free trade warehousing logistics area, free trade processing area, free trade processing, warehousing and logistics combination area and public inspection area, with supporting comprehensive building, international commodity exhibition and trade center, business premises, fumigation room and etc.; in the second phase, plan to construct 1.54km², mainly develop free trade processing, free trade warehousing, free trade logistics, comprehensive services and other functions.

III. Investment environment

According to the plan, the function of comprehensive FTZ is oriented in the industrial system of "2+1" mode, that is "2 mainstay industries+1 emerging service industry". "2 mainstay industries" are fine chemical industry and petroleum equipment respectively, and "1 emerging service industry" includes cold chain logistics as the representative and other emerging service industries.

IV. Project content

With a planned area of 3.1km², Dongying Comprehensive FTZ is located in the core area of Dongying Port Economic Development Zone of Shandong Province, is bordered by modern logistics industrial area to the north, ecological chemical industrial area to the west, and central commercial area of development zone to the south. At present, Dongying Comprehensive FTZ has completed the development and construction of infrastructure facilities, and realized "seven supplies and one leveling". 30,000m² of international commodity exhibition and trade center, two 15,000m² of single storey warehouses and one 30,000m² of 3-storey warehouse have all been completed.

一、园区名称

山东周村经济开发区

二、园区概况

园区是1992年12月经山东省人民政府批准成立的省级经济开发区，现有规模以上工业企业169家，自营进出口权企业244家。省级以上高新技术企业27家，外资企业36家，进出口企业138家。拥有中国名牌产品5个，中国驰名商标3个，博士后流动站2个，省级工程技术中心4个，国家863计划项目2个。2015年园区实现财政收入121718万元，同比增长5.02%；税收130850万元，同比增长2.53%。

三、园区投资环境

园区内建设了“五纵五横”的道路发展框架，主要干道实现了路灯亮化、环境美化。基础设施配套完善，拥有日供水10万吨的供水专线和配套排水管线，日处理10万吨的污水处理厂，2万门程控联系电话容量和宽带数据通讯，10千伏工业用电专线和双回路供电站3座，年供电5亿度、供汽1200万GJ的热电厂2座，实现了“七通一平”，基本能够满足项目建设和生产发展需要。园区主导产业发展方向确定为高端装备制造、纺织服装和环保新材料三大产业。

四、项目内容

谋划储备项目4个，计划总投资31亿元。一是投资10亿元的环保新材料产业园项目，拟引进氟氮新材料研发生产项目；二是投资3亿元焊接设备产业园项目，拟引进焊接设备配件及整机研发生产项目；三是投资12亿元的装备制造加速器项目，拟引进高端装备制造研发生产项目；四是投资6亿元的高精度轴承产业园区项目，拟引进高精度轴承研发生产项目。

NO.94

I. Name of the project

Shandong Zhoucun Economic Development Zone

II. Introduction of the project unit

It is the provincial economic development zone approved by People's Government of Shandong Province to be established in December of 1992, and has more than 169 enterprises above designated size, 244 enterprises with self import and export rights, 27 hi-tech enterprises at or above provincial level, 36 foreign-funded enterprises and 138 import and export enterprises. It owns 5 China's famous brands, 3 China's well-known trademarks, 2 post-doctoral research centers, 4 provincial engineering technology centers, and 2 project included in national 863 plan. In 2015, it realized financial revenue of RMB1,217,180,000, an increase of 5.02%; realized tax revenue of RMB1,308,500,000, an increase of 2.53%.

III. Investment environment

The road development frame of "five verticals and five horizontals" has been constructed and street lamp lighting and landscaping have been realized for the main road in the zone. It has perfect infrastructure facilities, including water supply special line with capacity of 100,000mts daily and supporting drainage pipeline, sewage treatment plant with capacity of 100,000mts daily, 20,000 program-controlled contact telephone capacity and broadband data communication, 10KV industrial power supply special line and 3 double circuit power supply stations, 2 thermal power supply plants with capacity of 500,000,000kwh of electricity and 12,000,000GJ of gas yearly, and realized "seven supplies and one leveling", which can basically satisfy the needs of construction and production. The development of the zone is oriented in the three industries including high-end equipment manufacturing, textile and clothing and environmental new materials.

IV. Project content

With planned investment of RMB3,100,000,000, there are 4 planned reserve projects including environmental protection new material industrial park project with investment of RMB1,000,000,000, where fluorine nitrogen new material R&D production project is planned to be introduced in; the welding equipment industrial park project with investment of RMB300,000,000, where welding equipment and accessories R&D production project is planned to be introduced in; equipment manufacturing accelerator project with investment of RMB1,200,000,000, where high-end equipment manufacturing R&D production project is planned to be introduced in; high precision bearings industrial park project with investment of RMB600,000,000, where high precision bearing R&D production project is planned to be introduced in.

NO.95

一、园区名称

山东临淄经济开发区

二、园区概况

园区是1992年省政府以(92)鲁府外协组字第11号文件批准设立的省级外向型加工区,2002年更名为临淄经济开发区。2015年,园区实现地区生产总值347亿元,规模以上工业总产值860亿元,占临淄区工业总产值比重43%,主营业务收入838亿元,利税总额63亿元,区内就业人口5.74万人。目前开发区前三位的主导产业为装备制造、新材料和生物医药产业,前三位主导产业产值占园区产值比重达到95%。

三、园区投资环境

园区具有得天独厚的发展优势。一是资源优势突出。开发区内铁矿资源丰富,保有储量占全市的62.26%;淄博市从事稀土冶炼分离的三家企业均坐落于临淄区,稀土冶炼分离产能达到3.3万吨/年(折氧化物);同时开发区紧邻齐鲁化学工业区,原材料丰富,可为开发区承接装备制造、稀土新材料、有机高分子材料项目提供充足的原料保障。二是开发区内基础设施齐全。目前开发区已实现“九通一平”,可为企业发展提供可靠的基础保障。三是产业创新能力不断增强,为高新技术项目的发展提供了强有力的支持。

四、项目内容

园区重点产业定位为装备制造产业、新材料产业和生物医药产业。装备制造产业重点发展高端石化装备、环保装备和智能装备;新材料产业重点发展稀土新材料、有机高分子材料和健康防护材料;生物医药产业重点发展医疗用品、高端药品、食品加工及生物基新材料。

NO.95

I. Name of the project

Shandong Linzi Economic Development Zone

II. Introduction of the project unit

It is provincial export-oriented processing zone approved by provincial government with document of (92)Lu Fu Wai Xie Zu Zi No.11 to be established in 1992, and was renamed as Linzi Economic Development Zone in 2002. In 2015, it has its regional GDP reach RMB34,700,000,000, and has its gross output value of industries above designated size reach RMB86,000,000,000, accounting for 43% of that of the total industrial output value of Linzi, has main business income reach RMB83,800,000,000, has profit tax amount reach RMB6,300,000,000, and has 57,400 employees in it. At present, the first three leading industries in development zone include equipment manufacturing, new material and bio pharmaceutical industry, with their production value accounting for 95% among the total production value of the zone.

III. Investment environment

The zone has unique development advantages. First, the prominent resources. The development zone is rich in iron ore resources, which accounts for 62.26% of the city; all the three enterprises engaged in rare earth smelting separation in Zibo are located in Linzi District, with a smelting separation capacity of 33,000mts yearly (converting into oxide) ; meanwhile, the development is adjacent to Qilu Chemical Industrial Zone, with abundant raw materials, which can provide sufficient raw material resources for the development zone to undertake equipment manufacturing, rare earth new material, organic polymer materials project. Second, complete infrastructure facilities in development zone. At present, the development zone has realized “nine supplies and one leveling”, and can provide reliable infrastructure assurance for the development of enterprises. Third, unseasingly strengthened industrial innovation ability. It provides powerful support for the development of hi-tech projects.

IV. Project content

The key industries of the zone are oriented as equipment manufacturing industry, new material industry and bio pharmaceutical industry. In equipment manufacturing industry, focus on the development of high-end petrochemical equipment, environmental protection equipment and intellectual equipment; in new material industry, focus on the development of rare earth new material, organic polymer materials and health protective materials; in bio pharmaceutical industry, focus on the development of medical products, high-end medicine, food processing and biology base new materials.

一、园区名称

山东诸城经济开发区

二、园区概况

山东诸城经济开发区是 1992 年经省政府批准设立的省级开发区。区内入驻企业已达 810 余家，从业人员 10.5 万人，培植形成了汽车、纺织服装和食品加工三大百亿级产业集群。2015 年，园区实现主营业务收入 650 亿元，利税 71 亿元。先后被授予“山东省海外华侨华人投资创业基地”“山东省新型工业化产业示范基地”，被省政府表彰为“省级先进开发区”、“对外开放先进园区”和省级重点开发区；综合实力列山东省省级开发区前十强。

三、园区投资环境

区内基础设施配套完善，道路、供水、电力、热力、场地等已实现“九通一平”。产业链式发展，形成了以福田汽车、雷沃重工、新郎希努尔、中纺金维、惠发食品、迈赫机器人等企业为龙头的现代制造业产业集群，是全球最大的经济型商用车生产基地、全国最大的速冻调理品生产基地。服务业重点打造沿泰薛路、站前街两大物流聚集区，依托潍河国家水利风景区，沿河建设高端楼宇商务经济带，规划城市金融中心和电子商务中心。以《诸城市鼓励支持企业转型发展暂行办法》为基础，实行重大项目一事一议。服务上，组建项目包靠班子，为入区项目提供全过程保姆式服务。

四、项目内容

坚持科技化、国际化、生态化、法治化“四化”转型升级目标定位，突出先进制造、现代物流、新型城市经济、战略新兴产业及高端创新创业人才“五个招引重点”，着力引进龙头型、基地型战略投资项目和地区总部、结算中心等功能性机构入驻，推动园区转型升级、创新发展。

NO.96

I. Name of the project

Shandong Zhucheng Economic Development Zone

II. Introduction of the project unit

Shandong Zhucheng Economic Development Zone is a provincial development zone approved by provincial government to be established in 1992. Over 810 enterprises have joined in with 105,000 employees, developing ten billion level of industrial cluster with three large industries including automotive , textile & cloting and food processiong. In 2015, it achieved income of RMB65,000,000,000 from its main businesses, and profit tax of RMB7,100,000,000. It was successively awarded as “Shandong Province Overseas Chinese Investment and Imbark Base” and “ Shandong Province New Industrialized Industries Demonstration Base”, was awarded as “provincial advanced development zone” and “Advanced opening zone” and provincial key development zone by provincial government; its comprehensive strength has been listed among the top 10 Shandong provincial development zones.

III. Investment environment

It has perfect infrastructure facilities, and “nine supplies and one leveling” has been realized for its road, water supply, power supply, heat supply and site. Its industries are developed in chained mode, forming a modern manufacturing industrial cluster with Foton, Lovol, Xinlang Sinoer, Chinatex Jinwei, Huifa Food, Maihe Robot and etc. as the leading enterprises. It is the world`s largest economical commercial vehicle production base and China`s largest quick-frozen conditioning products production base. In service industry, focus on the building of the two logistics cluster area along Taixue road and station street, depending on Weihe River National Water Conservancy Scenic Area, build high-end business buildings zone along the river, and plan city financial center and e-commercial center. Based on *Zhucheng City`s Interim Procedures on Encoraging the Transformation Development of Enterprises*, carry out one project one discussion policy. In service, organize project package team, to provide full range of assisting services for the joined projects.

IV. Project content

Insist on the orientation of transformation and upgrading of the “four standards”: technicalization, internationalization, ecologicalization and legalization, highlight “five introducing focuses” on advanced manufacturing, modern logistics, new city economy, strategic emerging industry and high-end innovation and imbark talents, strengthen in introducing leading strategic investment projects with base type, and functional institutions like regional headquarters and settlement centers to join in, in order to push forward the transformation, upgrading and innovation development of the zone.

一、园区名称

山东潍坊经济开发区

二、园区概况

山东潍坊经济开发区是经国家发改委审核设立的省级开发区，总规划面积 106 平方公里，辖 3 个街道，总人口 12 万。开发区管委会享有地市级经济管理权限。目前，已有 1500 余家企业在经济区投资兴业，其中规模以上工业企业 46 家，初步形成了以装备制造、新能源、新材料、现代服务业四大产业为主导，工业电子、生物制药、现代食品、纺织服装、精细化工等优势产业为特色的产业体系。

三、园区投资环境

区内基础设施完善，发展环境良好。实现了道路网格化、基础设施全覆盖。制定出台了一系列优惠政策，真正实行“无费区”管理；建立健全法律咨询、人才交流、合同仲裁、社会保险、金融服务等投资保障和社会服务体系，全面推行零距离服务；成立行政审批大厅，完善“一条龙”、“一站式”服务机制，给投资者提供从项目审批到生产经营全方位、包揽式服务，经济发展环境进一步优化，为区内企业生产经营提供了良好的发展平台。

四、项目内容

目前，区内初步形成了生物医药、电子信息、食品加工、机械制造、新材料等产业集群，具有较高的产业配套能力。生态旅游、科技研发、现代物流、金融服务、商业服务等现代服务业体系已经形成。下步将围绕加快建设“高新型、外向型、总部型、生态型”四型开发区，大力开展“三招三引”工作。

NO.97

I. Name of the project

Shandong Weifang Economic Development Zone

II. Introduction of the project unit

Shandong Weifang Economic Development Zone is a provincial development zone approved by National Development and Reform Commission to be established. With total planned area of 106km², it has 3 subdistricts under jurisdiction, with total population of 120,000. The administrative committee of the development zone enjoys prefecture-level economic management authority. At present, over 1500 enterprises have invested to join in the economic area, including 46 industrial enterprises above designated size. It has initially formed an industrial system, which is led by the four large industries including equipment manufacturing, new energy, new material and modern service, and has industrial electronics, bio pharmaceutical, modern food, textile & clothing, fine chemical and other dominant industries as features.

III. Investment environment

It has perfect infrastructure facilities and good development environment. It has realized road grid and has infrastructure cover each site. It has formulated a series of preferential policies, really carried out “area without charging” management; established and improved legal consultation, talents exchange, contract arbitration, social insurance, financial service and other investment gurantees and social service system, and fully pushed forward zero distance service; established administrative service approval hall, improved “one package service” and “one-stop” service mechanism, to provide all-around service and package service from project approval to production and operation for investors. Economic development environment has been optimized further, which provides a nice development platform for the production and operation of the enterprises in the zone.

IV. Project content

At present, it has initially formed industrial cluster with bio medicine, electronic information, food processing, machinery manufacturing, new material and etc. with a high industrial supporting ability. Modern servide industry system including eco-tourism, science and technology research and development, modern logistics, financial service, commercial service and etc. have already been developed. It will focus on accelerating to construct the development zone with four types: “hi-tech type, export oriental type, headquarters type and ecotype”, and strenthen to develop “three attracts and three introduces” work.

I. Name of the project

Shandong Xintai Economic Development Zone

II. Introduction of the project unit

Established in July of 1992, Xintai Economic Development Zone is a provincial hi-tech industrial development zone and provincial economic development zone. With total planned area of 89.5km², its leading industries include photoelectric technology, automotive equipment and free trade logistics. It has total 548 enterprises in it, and the industrial enterprises above designated size realized main business income of RMB21,140,000,000 in 2016.

III. Investment environment

Xintai Economic Development Zone is among Shandong Province's first energy saving environmental protection industrial bases, Shandong Province's first provincial ecological industrial park, the province's electrical appliances export base, mining equipment production base, and strategic emerging industries and new materials demonstration base. At present, it has developed the photoelectric technological industry with Shandong Jingtaixing Photoelectric Technology Co., Ltd. as the leading role, automobile equipment industry with BAIC-Guotai as the leading role and the free trade logistics industry with the intellectual storage and logistics of Global Logistics Properties as core.

IV. Project content

Mainly introduce and develop three large industries including free trade logistics, photoelectric technology and high-end equipment. Based on the Taian functional area of Qingdao Free Trade Port area, construct and expand logistics industry, and build free trade logistics industrial cluster area; based on "fund+talent+incubator+industrial park" mode, depending on the existing financial guide fund to leverage a lot of social capital, improve incubator to attract talents, strengthen energy saving and environmental protection, new material and other emerging industrial chain; based on electrician electrical, bio medicine and other advantage industries preferentially, develop characteristic industrial cluster with key enterprises in several industries micro-segments as flagship.

一、园区名称

山东沂水经济开发区

二、园区概况

2006年3月被国家发改委和山东省人民政府审核批准为省级开发区。目前,开发区辖"一镇四区",面积达到258.7平方公里,落户企业309家,总投资1400亿元,初步形成了能源化工、机械电子等几大产业体系,成为全县经济增长的重要引擎。先后荣获"中国城市最具发展潜力开发区"、"山东省生态工业和循环经济示范园区"等荣誉称号。2016年,预计完成规模以上工业总产值1050亿元,利税75亿元。

三、园区投资环境

按照高起点规划、高标准建设的要求,目前园区已全部达到"九通一平"。沂水经济开发区管委会始终把招商引资作为第一要务,坚持改善管理服务,优化投资环境,受到了海内外客商的广泛好评。

2014年7月与青岛保税港区合作成立"园中园"青岛保税港区临沂(沂水)功能区,规划面积6600亩。

四、项目内容

沂水经济开发区将重点发展精密机械制造、橡胶及化工机械制造、农业机械制造、电动汽车及汽车零部件生产加工、电子产品及电子零部件生产加工、加工工具生产加工、模具加工等产业。

NO.99

I. Name of the project

Shandong Yishui Economic Development Zone

II. Introduction of the project unit

It was approved by National Development and Reform Commission and People's government of Shandong Province to become provincial development zone in March of 2006. At present, the development zone has "one town and four districts" under its jurisdiction, with an area reaching 258.7km². With 309 enterprises in and Total investment of RMB140,000,000,000, it initially develops several industrial systems including energy, chemical, machinery, electronics and other industries, and becomes the important engine for the increase of the whole county's economy. It has been successively awarded as "China's most potential development zone", "Shandong Ecological Industry and circular economy demonstration park" and etc.. In 2016, it had total output of the industries above designated size reach RMB105,000,000,000 and had profit tax reach RMB7,500,000,000.

III. Investment environment

According to high starting point planning and high standard construction requirements, the park has fully achieved "nine supplies and one leveling". Yishui Economic Development Zone Administrative Commission has always put investment inviting as a priority, improved management service, optimized investment environment, and has been widely praised by customers at home and abroad.

In July of 2014, it cooperated with Qingdao Free Trade Port Area to establish "park within park" Qingdao Free Trade Port Linyi(Yishui) Functional Area, with planned area of 6,600mu.

IV. Project content

Yishui Economic Development Zone will focus on the development of precision machinery manufacturing, rubber and chemical machinery manufacturing, agricultural machinery manufacturing, electric automobile and auto parts production and processing, electronic products and electronic components production and processing, processing tools production and processing, mold processing and other industries.

V. Way of cooperation

Joint investment and cooperation

NO.100

一、园区名称

山东东阿经济开发区

二、园区概况

山东东阿经济开发区成立于2003年3月，2006年3月被省政府正式批准为省级开发区，2012年9月被省政府批准更名为山东东阿经济开发区。开发区现有入园企业150余家，项目涉及阿胶、钢球、机械制造、纺织服装、食品加工、生物医药、建材等门类。2015年开发区实现销售收入335.95亿元，工商税收10.97亿元；2016年，预计全年实现销售收入345亿元，工商税收11.2亿元。

三、园区投资环境

东阿经济开发区先后投资8.5亿元建设完善区内水、电、路、讯、热、气等基础设施，目前已具备了“八通一平”条件。区内道路网络实现三纵九横，建设有5万千瓦的热电厂、燃气公司、自来水公司、22万千伏变电站、日处理能力4万吨的工业污水处理厂和建筑面积30万平方米的中小企业创业基地。开发区重点发展了阿胶、钢球等特色产业，东阿阿胶集团、东阿钢球集团等一批骨干企业处于全国、全省同行业领先地位。

四、项目内容

发挥东阿阿胶股份有限公司在全国阿胶行业中的龙头作用，借助东阿阿胶品牌优势，整合带动阿胶系列产品生产企业规范化崛起，延伸驴肉深加工、阿胶系列产品开发等产业链条，规范壮大阿胶系列制品产业集群，打造集生物制药医药、阿胶医药、医疗器械、阿胶养生、高端保健、休闲娱乐、旅游观光于一体的“千亿阿胶产业园”，形成集“绿色低碳、高科技、高附加值”于一体的转调创高端产业聚集区。

NO.100

I. Name of the project

Shandong Dong`e Economic Development Zone

II. Introduction of the project unit

Established in March of 2003, Shandong Dong`e Economic Development Zone was approved by the provincial government to be provincial development zone in March of 2006, and was approved to change its name to become Shandong Dong`e Economic Development Zone by the provincial government. The development zone has over 150 enterprises in now, with projects involving in E Jiao, steel balls, machinery manufacturing, textile and clothing, food processing, bio medicine, building materials and etc.. In 2015, the development zone realized sales revenue of RMB33,595,000,000, industrial and commercial tax of RMB1,097,000,000; in 2016, it is expected to realize sales revenue of RMB34,500,000,000 and industrial and commercial tax of RMB1,120,000,000.

III. Investment environment

Dong'e Economic Development Zone has invested RMB850,000,000 to build and improve water, electricity, roads, communication, heat, gas and other infrastructure facilities successively, and currently has a "eight supplies and one leveling" conditions. The zone has realized "three horizontals and nine verticals" for its road network, and has constructed 50,000KW of thermal power plant, gas company, tap water company, 220,000KV of substation, industrial wastewater treatment plant with capacity of 40,000mts daily and middle and small-sized enterprises venture base covering an area of 300,000m². The development zone has focused on the development of E Jiao, steel balls and other specialty industries. Dong`e E Jiao Group and Shandong Donge Steel Ball Group Co., Ltd and other backbone enterprises here take a leading role in the same industry in the province or in the whole country.

IV. Project content

Play well the leading role of Dong`e E Jiao Co., Ltd. in national E Jiao industry with the help of Dong`e E Jiao brand advantage, integrate and promote E Jiao series of products producers standerization to rise, extend donkey flesh deep processing, E Jiao series of products development and other industrial chains, standarize and expand E Jiao series of products industrial cluster, create " Hundreds of Billion Yuan level of E Jiao Industrial Park" combining biological pharmaceutical medicine, E Jiao medicine, medical equipment, E Jiao health care, high-end health care, leisure and entertainment, tourism and sightseeing, and develop a modulation high-end industrial cluster area combining "green and low carbon, high technology and high added value".

V. Way of cooperation

Joint investment and cooperation
